Content Area: **English Language Arts**
Course(s):
Time Period: **Marking Period 2**
Length: **8 Weeks**
Status: **Published**

Brief Summary of Unit

In this course, students are provided with opportunities to develop skills that pertain to a variety of careers. When completing this course, students can make informed choices and pursue electives that further their study and contribute toward the formation of career interest.

This unit is designed to be part of a developmental progression across grade levels and make interdisciplinary connections across content areas including physical and social sciences, technology, career readiness, cultural awareness, and global citizenship. During the course, students are provided with opportunities to develop social skills needed in everyday life.

This unit on Career Skills is designed to help students identify people skills, vocational skills, and problem-solving skills. These attributes will be practiced throughout the unit both individually and in group settings with assistance and modifications from the teacher. Students will have the opportunity to exhibit these qualities through group lessons, community experiences, and watching video models on personal growth and development. Through various lessons, students will achieve greater confidence and self-sufficiency in their personal skill set and be better prepared for handling real-life situations.
