## Brief Summary of Unit

---

Students will continue to build upon their working knowledge of Spanish language and culture. Students will engage in aural, oral, and written communicative tasks, develop further cultural understanding of the areas of Mexico and Puerto Rico and make connections between these countries and their understanding of Spain.

The pacing of the unit is contingent on student acquisition of the language as related to their ability to communicate spontaneously on the topic(s) presented.

The ability to communicate effectively in more than one language and the perspectives brought about by an understanding of other cultures are vital to the success of our students in a variety of careers. When taking this course, students develop their understanding of the interrelationship between language and culture leading to a purposeful appreciation of cultural diversity. Students who demonstrate proficiency in a second language in addition to English, may qualify for the New Jersey State Seal of Biliteracy, an honor that sets them apart from others and makes them marketable when pursuing a career and when engaging with home and global communities.
