

Unit 5: Civil War and Reconstruction

Content Area: **Social Studies**
Course(s):
Time Period: **Trimester 3**
Length: **9 Weeks**
Status: **Published**

Summary

In the United States History course, students study the development of the early republic through the Reconstruction Era. To expand students' historical understanding, geography and civics are emphasized throughout the course. Moreover, the use of primary sources allows students to analyze and interpret American history via first-hand accounts. Students also examine how women, racial and ethnic minorities, and members of the LGBTQIA+ community have contributed to the American economy, politics, and society. Moreover, the inclusion of current events keeps students informed and helps to refine their civic understanding. Throughout the course, students are challenged with both project- and problem-based activities in order to gain an enduring understanding of the fundamental curricular concepts.

This unit is part of the larger aforementioned course sequence and specifically focuses on Reconstruction and Western Development into the 20th century. Students will assess the factors that contributed to the Civil War's outcome and reflect upon the historical legacy of Reconstruction by assessing the extent to which it was successful at achieving its objective of reunifying and rebuilding the nation. Movement west as a continuation of the national objective of westward expansion that was temporarily thwarted by the Civil War will be discussed, and students will challenge and complicate the claim that the west was a land of opportunity for all.

This unit further reflects the goals of the Holocaust Education mandate where students are able to identify and analyze applicable theories concerning human nature and behavior; understand that genocide is a consequence of prejudice and discrimination; understand that issues of moral dilemma and conscience have a profound impact on life; and understand the personal responsibility that each citizen bears to fight racism and hatred whenever and wherever it happens.

This unit is aligned to the English Language Development (ELD) standards for kindergarten through grade 12 since multilingual learners develop content and language concurrently, with academic content in a classroom where the language of instruction is English. As a result, language learning and language as a means for learning academic content are interchangeable. The following ELD standards are relevant for this unit and course of study:

- Standard 1: Language for Social and Instructional Purposes: English language learners communicate for social and instructional purposes within the school setting.
- Standard 5: Language for Social Studies: English language learners communicate information, ideas and concepts necessary for academic success in the content area of Social Studies.

The standards in this unit reflect a developmental progression across grade levels and make interdisciplinary connections across content areas including the humanities, technology, career readiness, cultural awareness, and global citizenship.

Learning Plan

The design of this course allows for the integration of a variety of instructional, supplemental, and intervention materials that support student learners at all levels in the school and home environments. Associated web content and media sources are infused into the unit as applicable and available. In addition to the materials below, the following link connects to district approved textbooks and resources utilized in this course: [Core Book List](#).

This unit includes, but is not limited to, the following learning strategies:

Fort Sumter and Civil War Visual Simile: Provide background on the events leading up to Fort Sumter. Students will utilize Google Earth to visit the fort today and make assumptions about its importance. Organize a debate about the intentions of Abraham Lincoln in his handling of the crisis. Finally students will create a visual simile about the events at Fort Sumter (ex: Fort Sumter was like the straw that broke the camel's back)

A Brothers' War?: Begin by explaining that the issues behind the Civil War were often issues that not everyone could agree on and sometimes that happened within families. Allow the students time to discuss the impact a War can have on a society and then narrow it down to the impact it can have on a family. Provide

them with the Campbell Brothers' letters to read and analyze. Have students make predictions about the impact the Civil War will have on the Campbell family.

What Was Life Like For...: Students will research the experiences of Indigenous Americans, Women, Enslaved People, Free Blacks, Northern Soldiers, Southern Soldiers, and any additional groups during the Civil War. Students will write a collection of letters from their person's lens. These writings will then be organized and published for other classmates to read.

Photo Analysis: Begin by explaining that photography was just in its infancy when the Civil War started. Present information on Mathew Brady, Alexander Gardner, and Timothy O'Sullivan (and others) and how their photographs allowed more people to witness war than ever before. Students will be given primary source photographs from the Civil War Trust website. Their job will be to determine if it is a Pull factor (pro War) or Push factor (anti War) and debate the impact their photographs would have had on the war. Students will be given primary source photographs from the Civil War Trust website. Their job will be to determine the how this photograph might sway the opinions of the following people and in what ways it might encourage them to act, if at all: free Black man living in the North, middle class white woman living in the North, poor white Southern farmer who can not afford to enslave people, cotton plantation owners who enslaved 50 people of different ages and genders. Students can then research the impact photography had on other events throughout history.

Major Battle Jigsaw: After learning about the major battles of the Civil War and the outcome, allow students to become the experts on one battle. This may be done independently or in groups. Have students create websites or Google Slides about their battle focusing on the general events of the battle as well as its impact on the rest of the war. Students should research the battles and the modern day areas in which the battle took place. This is a chance for students to work on their public speaking and presentation skills as the experts share their findings with the rest of the class.

Western Development Causation Puzzle: Students will receive four puzzle pieces, each the size of one sheet of paper. Students must identify four events, people, factors etc. that have a cause and effect relationship during the Western Development time period. Then, they must illustrate the puzzle piece and explain their concept in claim, evidence, analysis format.

13th, 14th, and 15th Amendments TWE: Begin by showing the class the 13th, 14th, and 15th Amendments to the Constitution. Students will work in groups to rewrite each Amendment in such a way that 3rd graders would be able to understand them. Groups should include visuals. Students will answer the prompt "Which Amendment has had the greatest impact on America? Students will share their answers with their small groups before ranking them as a class.

Reconstruction Atlas: Students will create a book of maps and charts which reflect the progress and challenges of the Reconstruction Era. Students will explain each image with a caption and its significance. (For example: a map of the Military Districts, a chart of elected African Americans to office, maps of share-

cropping and tenant farming locations/land ownership etc.).

Legacy of Reconstruction: Students will be able to trace the timeline of Reconstruction on a self guided pace. Students will examine the Freedmen's Bureau, Reconstruction Amendments, the Ku Klux Klan, Voting Rites, Sharecropping, Carpetbaggers, Election of 1876, and Black Codes and Jim Crow Laws. Students will create a T-chart which reflects the successes and failures of Reconstruction. Students will finish by proposing an alternative plan for Reconstruction.

Plains Indian Wars: Engage students with a brief discussion about Indigenous tribes of the Great Plains and their relationship with European settlers. Provide an overview of the factors that contributed to tensions and conflicts between Indigenous peoples and the United States government and/or settlers, such as westward expansion, land disputes, cultural differences, and broken treaties. Students will create a map of major clashes during the Plains Indian Wars. Finally, students will write dialogue for a conversation between Geronimo and Grover Cleveland.

Yearbook: As an end of the course final project, students will reflect upon all the major events, people, and movements they have studied throughout the year. Formatted as a yearbook, students will be guided to apply their reflection in a creative and engaging way to reflect each concept's significance.

Note: Other strategies to address the learning objectives may include, but are not limited to direct instruction, primary and secondary source analysis (including annotations, critique, questioning and close reading strategies), self and peer review, think-pair-share activities, creating visual representations, debates, film analysis, Socratic seminars, small group discussions, simulations, mapping activities, jigsaw activities, gallery walks, web quests, and/or inquiry or problem based learning projects.

Assessment

When taking a Social Studies course, students demonstrate differentiated proficiency according to their ability to answer the essential questions through formative and summative assessments. Many of the performance tasks below can be implemented as formative and/or summative assessments. As teachers strive for students to demonstrate proficiency, they will need to create additional or alternative assessments based on demonstration or absence of skill.

Formative Assessments:

- Do Nows/ Exit Slips

- Class Activities
- Primary and Secondary Source Analysis
- Fort Sumter and Civil War Visual Simile
- Photo Analysis
- Western Development Causation Puzzle
- Reconstruction Atlas
- Plains Indians Wars

Summative Assessments:

- Unit Tests including multiple choice and analytical writing questions
- What was life like for... writing assignment
- Major Battle Jigsaw
- Legacy of Reconstruction
- Yearbook Assignment

Benchmark Assessments:

- Analytical Writing Responses
- 13th, 14th, and 15th Amendments TWE
 - What impact did the Civil War have on our nation long term?
 - To what extent was the Reconstruction Era and era of progress?
 - Final Assessment: To what extent did the US live up to its ideals? (life, liberty, and the pursuit of happiness)

Alternative Assessments:

- Curation Project - Students will reflect upon key themes of the unit and then curate a series of artifacts (images, songs, primary sources, videos, etc.) that reflect each theme. They will then write about why they chose to represent each theme with their chosen artifact.
