Content Area: **English Language Arts**
Course(s):
Time Period: **Marking Period 1**
Length: **3-5 Weeks**
Status: **Published**

Brief Summary of Unit

Documentary storytelling will focus on compiling shots that are out of your direct control and constructing them in a way that tells a story. Throughout the unit, students will watch feature-length and short documentaries to pull narrative non-fiction exemplar techniques such as interviews, J and L Cuts, dramatic recreations, establishing shots, and action footage. Students will be tasked with researching a topic and outlining the variety of footage needed to assemble a final narrative. The unit will culminate in the creation of a documentary short on a topic of the student's choice.

This unit is designed to be part of a developmental progression across grade levels and make interdisciplinary connections across content areas including physical and social sciences, technology, career readiness, cultural awareness, and global citizenship.

During this course, students are provided with opportunities to develop skills that pertain to a variety of careers. Students may continue to make informed choices and pursue electives that further their study and contribute toward the formation of career interest.

Standards

This unit further reflects the goals of the Holocaust Education mandate where students are able to identify and analyze applicable theories concerning human nature and behavior; understand that genocide is a consequence of prejudice and discrimination; understand that issues of moral dilemma and conscience have a profound impact on life; and understand the personal responsibility that each citizen bears to fight racism and hatred whenever and wherever it happens.

This unit also reflects the goals of the Department of Education and the Amistad Commission including the infusion of the history of Africans and African-Americans into the curriculum in order to provide an accurate, complete, and inclusive history regarding the importance of African-Americans to the growth and development of American society in a global context.

In accordance with New Jersey's Chapter 32 Diversity and Inclusion Law, this unit includes instructional

materials that highlight and promote diversity, including: economic diversity, inclusion, tolerance, and belonging in connection with gender, sexuality, race and ethnicity.

This unit challenges students to locate, evaluate, and use information effectively. Information literacy includes, but is not limited to, digital, visual, media, textual, and technological literacy. Lessons may include the research process and how information is created and produced; critical thinking and using information resources; research methods, including the difference between primary and secondary sources; the difference between facts, points of view, and opinions, accessing peer-reviewed print and digital library resources; the economic, legal, social, and ethical issues surrounding the use of information.

Evidence/Performance Tasks

Developmental progression across years in both reading and writing is evidenced by multiple benchmark assessment screeners, administered three times per year. Follow up diagnostic assessments are used to target skill remediation. Student proficiency allows for additional or alternative assessment based on demonstration or absence of skill.

Students demonstrate differentiated proficiency through both formative and summative assessments in the

classroom. Based on individual student readiness and performance, assessments can be implemented as formative and/or summative.

The performance tasks listed below are examples of the types of assessments teachers may use in the classroom and the data collected by the district to track student progress.

Learning Plan

Instructional time for reading film will be divided into thirds; one-third of the time will be dedicated to whole class text instruction; one-third will include film circles; one-third, independent screenings. The intent is for student-readers to have clear modeling through whole-class instruction. These strategies are practiced through literature circles in a group setting of peers and through independent practice monitored through teacher conferencing with students. An emphasis will be based on the transfer of skills instruction, teaching the reader, not merely the content of the text. The text complexity and rigor of reading will be appropriate for grade 11; materials selection for whole-class and literature circles will be from the book list approved by the Board of Education. Classrooms will house rich and diverse independent reading libraries of contemporary and canonical works.

The reading of text targets not only comprehension but also analysis. Students will read both long-and short-form, excerpted, and feature-length, fiction, and nonfiction texts. The study will include the analysis of visual texts including film clips, art, infographic, maps, charts, graphs, cartoons, and graphic novels. Techniques and terminology specific to a genre of reading are examined. Research tasks are embedded throughout the year and a minimum of one task is completed during each unit. Vocabulary instruction will be chosen from the reading material.

Students write in all modes of rhetoric including narration/description, argument/persuasion, and exposition. Various forms of writing including digital writing are emphasized as well. Grammar instruction is embedded in writing instruction through mini-lessons, holding students accountable for skills taught and practiced; modeling is done through mentor texts, both published and student-crafted. Teachers focus on process in addition to the product with an emphasis on synthesizing texts with nuanced understanding; teacher-created

multi-modal text sets will be used as materials. High-and low-stakes, timed and untimed pieces are all important.

Teachers may personalize instruction during this unit and address individual student's distinct learning needs, interests, aspirations, or cultural backgrounds.

Students may complete analytical analysis, persuasive writing, synthesis essays, database research, and journal writing. Students will participate in individual, partner, and group activities including Literature Circles, Socratic Discussions, Jigsaw Methods, and other Cooperative Learning activities.

Students will be taught how to speak and listen in addition to being assessed on these skills. Lessons will include identifying effective speaking and listening strategies, analyzing various techniques for enhancing voice and movement, modeling various effective speakers and listeners strategies, and creating opportunities to develop vocal effectiveness and presentation skills.

Students will compare directorial liberties in movies and plays.

This unit of study will focus on documentary filmmaking as well as narrative nonfiction and research skills. The central quotation from Spike Jonze is "Doing a documentary is about discovering, being open, learning, and following curiosity."

Sample Unit Plan:

- Core Text: Free Solo
 - Mini-lessons teaching students cinematography techniques and editing techniques associated with documentaries such as J&L Cuts, dramatic recreations, establishing shots, B Roll, and Interviews.
