Evidence/Performance Tasks

Developmental progression across years in both reading and writing is evidenced by multiple benchmark assessment screeners, administered three times per year. Follow up diagnostic assessments are used to target skill remediation. Student proficiency allows for additional or alternative assessment based on demonstration or absence of skill.

Students demonstrate differentiated proficiency through both formative and summative assessments in the classroom. Based on individual student readiness and performance, assessments can be implemented as formative and/or summative.

The performance tasks listed below are examples of the types of assessments teachers may use in the classroom and the data collected by the district to track student progress.

Learning Plan

Instructional time for reading will be divided into thirds; one third of the time will be dedicated to whole class text instruction; one third will include literature circles; one third, independent reading. The intent is for student-readers to have clear modelling through whole-class instruction. These strategies are practiced through literature circles in a group setting of peers and through independent practice monitored through teacher conferencing with students. An emphasis will be based on the transfer of skills instruction, teaching the reader, not merely the content of the text. The text complexity and rigor of reading will be appropriate for grade 10; materials selection for whole-class and literature circles will be from the book list approved by the Board of Education. Classrooms will house rich and diverse independent reading libraries of both

contemporary and canonical works.

The reading of text during the tenth grade targets not only comprehension, but also analysis. Students will read both long-and short-form, excerpted and full-length, print and electronic, fiction and nonfiction texts. Study will include the analysis of visual texts including film clips, art, infographic, maps, charts, graphs, cartoons, graphic novel. Technique and terminology specific to a genre of reading is examined. Research tasks are embedded throughout the year and a minimum of one task is completed during each unit. Vocabulary instruction will be chosen from the reading material.

Students write in all modes of rhetoric including narration/description, argument/persuasion, and exposition. Various forms of writing including digital writing are emphasized as well. Grammar instruction is embedded in writing instruction through mini-lessons, holding students accountable for skills taught and practiced; modelling is done through mentor texts, both published and student-crafted. Teachers focus on process in addition to product with an emphasis on synthesizing texts with nuanced understanding; teacher-created multi-modal text sets will be used as materials. High-and low-stakes, timed and untimed pieces are all important.

Teachers may personalize instruction during this unit and address the distinct learning needs, interests, aspirations, or cultural backgrounds of individual students. Personalized Learning allows students to self reflect and assess their own reading, writing, listening, viewing and speaking skills using the development and completion of a electronic portfolio, journal writing, writer's workbooks, independent reading, and/or book talks.

Students will be taught how to speak and listen in addition to being assessed on these skills.

This unit of study will focus on ""Rebels and Rhetoric" and is centered on the quotation from H L Mencken: "It doesn't take a majority to make a rebellion; it takes only a few determined leaders and a sound cause."

Teachers may develop additional lessons using these various subthemes: The Passion for Liberty, Idealism, The American Frontier, Moral Struggle, Rebellion verses Conformity, and Initiation.

The students will actively engage in both large and small collaborative discussions and dialogues that enhance critical thinking and analysis of textual works. Students may complete analytical analysis, persuasive writing, synthesis essays, database research, and journal writing.

Students will participate in individual, partner and group activities including Socratic Discussions, Jigsaw Methods, Debates, Mock Congress, and other Cooperative Learning activities.
