Brief Summary of Unit

"A rat in a maze is free to go anywhere, as long as it stays inside the maze." Margaret Atwood

Students examine fictional depictions of dystopian societies, considering the purposes of such dystopian texts, as well as the historical context surrounding their respective creations. The class will engage in small-group and whole-discussions about the themes of the novel as a classic of the dystopian genre and as a mentor text for the subsequent book clubs. Students will read essays on topics related to themes in the novel, i.e., surveillance in the modern world, totalitarian governments and their policies, the rights of the individual in society, freedom of the press, and censorship. Students will engage in a book group discussions of chosen dystopian novels including George Orwell's *1984*, Aldous Huxley's *Brave New World*, William Golding's *Lord of the Flies*, Cormac McCarthy's *The Road*, and Kazuo Ishiguro's *Never Let me Go*.

Evidence/Performance Tasks

Developmental progression across years in both reading and writing is evidenced by multiple benchmark assessment screeners, administered twice per year. Follow up diagnostic assessments are used to target skill remediation. Student proficiency allows for additional or alternative assessment based on demonstration or absence of skill.

Students demonstrate differentiated proficiency through both formative and summative assessments in the classroom. Based on individual student readiness and performance, assessments can be implemented as formative and/or summative.

The performance tasks listed below are examples of the types of assessments teachers may use in the classroom and the data collected by the district to track student progress.

Formative:

- Teacher Observations
- Accountable Talk, Socratic Seminars/Fish Bowls
- Analysis of multimodal text sets
- Analysis of critical commentary, literary criticism
- Writers Notebook (quick writes/drafts/prewrites), emphasizing author's craft
- Close reading analysis of text using evidence as substantiation
- Conferences: Individual and small group, accompanying conference notes
- Reflective exercises and assessments
- Oral Reading and Interpretation
- Peer and self-evaluations of learning
- Entrance and Exit Tickets
- Open-Ended Responses in Journal

- Grade-level Standards-based Rubrics
- Midterm and Final exams
- Common Lit Reading Benchmark, three times per year
- NJGPA
- SAT
- PSAT
- IXL

Learning Plan

Instructional time for reading will be divided into thirds; one third of the time will be dedicated to whole class text instruction; one third will include literature circles; one third, independent reading. The intent is for student-readers to have clear modeling through whole-class instruction. These strategies are practiced through literature circles in a group setting of peers and through independent practice monitored through teacher conferencing with students. An emphasis will be based on the transfer of skills instruction, teaching the reader, not merely the content of the text. The text complexity and rigor of reading will be appropriate for the grade level; materials selection for whole-class and literature circles will be from the book list approved by the Board of Education. Classrooms will house rich and diverse independent reading libraries of both contemporary and canonical works.

The reading of text targets not only comprehension, but also analysis. Students will read both long-and short-form, excerpted and full-length, print and electronic, fiction and nonfiction texts. Study will include the analysis of visual texts including film clips, art, infographic, maps, charts, graphs, cartoons, graphic novels. Technique and terminology specific to a genre of reading is examined. Research tasks are embedded throughout the year and a minimum of one task is completed during each unit. Vocabulary instruction may be chosen from the reading material and may be incorporated through targeted word study lessons.

Students write in all modes of rhetoric including narration/description, argument/persuasion, and exposition. Various forms of writing including digital writing are emphasized as well. Grammar instruction is embedded in writing instruction through Sentence Study, holding students accountable for skills taught and practiced; modeling is done through mentor texts, both published and student-crafted. Students may complete analytical analysis, persuasive writing, synthesis essays, database research, and journal writing. Teachers focus on process in addition to product with an emphasis on synthesizing texts with nuanced understanding; teacher-created multimodal text sets will be used as materials. High-and low-stakes, timed and untimed pieces are all important.

Students will be taught how to speak and listen in addition to being assessed on these skills. Students will participate in individual, partner and group activities including Literature Circles, Socratic Discussions, Jigsaw Methods, and other Cooperative Learning activities.

Teachers may personalize instruction during this unit and address the distinct learning needs, interests, aspirations, or cultural backgrounds of individual students. Personalized Learning allows students to self-reflect and assess their own reading, writing, listening, viewing and speaking skills through the development of an electronic portfolio, journal writing, writer's notebook, independent reading, and/or book talks

This unit of study focuses on a quote by Margaret Atwood: "A rat in a maze is free to go anywhere, as long as it stays inside the maze." This unit is designed to examine dystopian literature as a response to authoritarian governments that came into power in the twentieth century, as well as a warning about how easily technology can be exploited to indoctrinate individuals and transform society. Although the primary texts will be fiction, there will be an emphasis on nonfiction within this unit. The goal of the unit is for students to connect the major themes and ideas in these works to the contemporary world today. Students will learn about contemporary technological advances and their potential for human growth or corruption. Students will also learn to identify propaganda techniques including common logical fallacies. As students read whole class texts, they may also explore texts on their own based on their interests in certain topics.

For this particular unit, teachers should . . .

- Build a text set for discussion, writing, and synthesis
- Select common reading and literature circle texts
- Prepare for conferences with students
- Generate a list of skills students will master throughout the unit (focusing specifically on a few in each area)
- Create a summative assessment (backward design)
