## **BRIEF SUMMARY OF UNIT**

---

**FOCUS: "To read fiction means to play a game by which we give sense to the immensity of things that happened, are happening, or will happen in the actual world. By reading narrative, we escape the anxiety that attacks us when we try to say something true about the world. This is the consoling function of narrative — the reason people tell stories, and have told stories from the beginning of time." *Umberto Eco, Six Walks in the Fictional Woods***

This unit centers on the importance of effective communication including interpretation, para language, and nonverbal movement skills. The unit enables students to use interpretation and analytical skills to develop voice and movement delivery techniques. The students will understand the importance of communication by analyzing various excerpts of prose and poetry, presenting Oral Interpretations, and critiquing and reflecting peers and self. Students will actively engage in both large and small collaborative discussions and dialogues that enhance critical thinking and analysis of textual works. Students may complete para language and pantomime activities, characterization analysis, and a literary analysis essay. Personalized Learning allows students to self reflect and assess their own listening and speaking skills using the development and competition of a electronic portfolio. Students will understand that developing communication skills builds and maintains relationships, facilitates innovation, builds effective partnerships, and develops leadership.

## **Evidence/Performance Tasks**

---

Developmental progression across years in both reading and writing is evidenced by multiple benchmark assessment screeners, administered two times per year. Follow up diagnostic assessments are used to target skill remediation. Student proficiency allows for additional or alternative assessment based on demonstration or absence of skill.

Students demonstrate differentiated proficiency through both formative and summative assessments in the classroom. Based on individual student readiness and performance, assessments can be implemented as formative and/or summative.

## **Learning Plan**

---

Instructional time will be dedicated to whole class text instruction, collaborative learning, and independent and personalized learning. The intent is for student-readers to have clear modelling through whole-class instruction. These strategies are practiced in a group setting of peers and through independent practice monitored through teacher conferencing with students. An emphasis will be based on the transfer of skills instruction, teaching the reader, not merely the content of the text. The text complexity and rigor of reading will be appropriate for grade 9-12; materials selection for whole-class and literature circles will be from the book list approved by the Board of Education. Classrooms will house rich and diverse independent reading libraries of both contemporary and canonical works.

The reading of text targets not only comprehension, but also analysis. Students will read both long-and short-form, excerpted and full-length, print and electronic, fiction and nonfiction texts. Study will include the analysis of visual texts including film clips, art, infographic, maps, charts, graphs, cartoons, graphic novel. Technique and terminology specific to a genre of reading is examined. Research tasks are embedded throughout the year and a minimum of one task is completed during each unit. Vocabulary instruction will be chosen from the reading material.

Students write in all modes of rhetoric including narration/description, argument/persuasion, and exposition. Various forms of writing including digital writing are emphasized as well. Grammar instruction is embedded in writing instruction through mini-lessons, holding students accountable for skills taught and practiced; modelling is done through mentor texts, both published and student-crafted. Teachers focus on process in addition to product with an emphasis on synthesizing texts with nuanced understanding; teacher-created multi-modal text sets will be used as materials. High-and low-stakes, timed and untimed pieces are all important.

Teachers may personalize instruction during this unit and address the distinct learning needs, interests, aspirations, or cultural backgrounds of individual students. Personalized Learning allows students to self reflect and assess their own reading, writing, listening, viewing and speaking skills using the development and completion of an electronic portfolio, journal writing, writer's workbooks, independent reading, and/or book talks.
