Evidence/Performance Tasks

Students demonstrate differentiated proficiency through both formative and summative assessments in the classroom. Based on individual student readiness and performance, assessments can be implemented as formative and/or summative.

Developmental progression across years in media is evidenced through benchmark assessments as part of the media specialist's Student Growth Objective (SGO). Student proficiency allows for additional or alternative assessment based on demonstration or absence of skill.

The performance tasks listed below are examples of the types of assessments teachers may use in the classroom and the data collected by the district to track student progress.

Learning Plan

The Middle School Language Arts/Literacy program encompasses reading literature and informational text, speaking and listening and enhancing language skills (spelling, grammar, and vocabulary). The understandings and skills of each strand of the New Jersey Student Learning Standards are not isolated, but integrated, interactive, and embedded in all subject areas across the curriculum. Teachers may engage in two whole-class, closely-studied community readings per year, not to exceed four weeks each.

Reading instruction is literature-based and follows a balanced literacy approach through a number of strategies and techniques in Reading Workshop. These include read-alouds/alongs, shared reading, guided reading, independent reading, small group strategy instruction, one-to-one conferencing, and partnership or book club discussions. Reading Workshop provides students with the necessary tools to communicate orally, read and comprehend print, and write with clarity and purpose for a variety of audiences. Individual conferences with each student will address specific needs of the reader. Students will select from authentic literature at their independent and instructional reading levels.

Lessons should follow the mini-lesson format:

- Teaching point(s) for each lesson
- Connection: Connects new learning to previous learning/lessons
- Teach/Modeling: Uses ‘think alouds’ when modeling what you expect students to do

- Guided Practice/Active Engagement: Guides students through practice of the teaching point
- Link to Independent Practice: Helps writers understand the purpose for the writing they are about to do and the skills/craft they will be practicing/applying independently as good writers
- Independent Writing/Student Conferences: Provides time for students to do independent writing while teacher confers with individual students, works with small groups, or writing clubs*.
- Closure/Sharing: Pull students back together and recognize the work they have done relating to the teaching point. (See end of section for closure ideas.)

Please refer to the [Middle School ELA, Grade 8 Folder](#) for specific lessons and materials for Word Study.

Teachers may personalize instruction during this unit and address the distinct learning needs, interests, aspirations, or cultural backgrounds of individual students.

This particular unit focuses on the synthesis, analysis, and evaluation of a selection of argumentative texts, including articles, speeches, print advertisements, and commercials. Students will first become familiar with the basic structure of an argument. As they focus their reading on speeches, they will identify the rhetorical devices used by speech-writers and analyze their impact on the audience. Students will also consider the possibility of “flawed” or “faulty” arguments and the ways in which audiences can be fooled by logical fallacies in order to become more critical readers and thinkers.

For this particular unit, teachers should...

- Select texts for argument analysis
- Prepare materials for teaching argument structure
- Select materials for discussion of word choice and argumentation
- Prepare materials for discussion, writing, and synthesis
- Select mentor texts for modeling
- Prepare for conferences with students
- Create formative and summative assessments

Materials

The materials used in this course integrate a variety of leveled instructional, enrichment, and intervention materials that support student learners at all levels in the school and home environments. Associated web content and media sources are infused into the unit as applicable and available.

Teachers must refer to the district-approved [Core Book List](#) while selecting whole-class or small-group leveled resources.
