

Final Exhibition

Content Area: **Social Studies**
Course(s):
Time Period: **Marking Period 4**
Length: **10 Weeks**
Status: **Published**

Summary

In the Action Research course, students develop complex and rigorous research projects around a topic of their choosing based on their own interest. Emphasizing collaboration, critical thinking, and ethical considerations, the course guides students through the process of designing, implementing, and presenting their research findings, including learning advanced research methodologies, such as qualitative and quantitative data collection and analysis. The course culminates in a public exhibition where students present their findings to the broader community and make recommendations for future considerations regarding their topic of study.

This unit is part of the larger aforementioned course sequence and specifically focuses on the Final Exposition where students will prepare for presentation of their findings. By the end of this unit, students will be able to develop a comprehensive, academic final paper that discusses their research, conclusions and final recommendations. In addition to the final paper, students must develop a presentation where their research will be presented to their peers, parents/guardians, community members, and CHS staff members.

Revision Date: August 2024

Standards

RL.CR.11–12.1. Accurately cite strong and thorough textual evidence and make relevant connections to strongly support a comprehensive analysis of multiple aspects of what a literary text says explicitly and inferentially, as well as interpretations of the text; this may include determining where the text leaves matters uncertain.

RI.CR.11–12.1. Accurately cite a range of thorough textual evidence and make relevant connections to strongly support a comprehensive analysis of multiple aspects of what an informational text says explicitly and inferentially, as well as interpretations of the text.

RI.CI.11–12.2. Determine two or more central ideas of an informational text and analyze how they are developed and refined over the course of a text, including how they interact and build on one another to provide a complex account or analysis; provide an objective summary of the text.

W.AW.11–12.1. Write arguments to support claims in an analysis of substantive topics or texts, using valid

reasoning and relevant and sufficient evidence.

- A. Introduce precise, knowledgeable claim(s), establish the significance of the claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that logically sequences claim(s), counterclaims, reasons, and evidence.

C. Use transitions (e.g., words, phrases, clauses) to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims.

D. Establish and maintain a style and tone appropriate to the audience and purpose (e.g., formal and objective for academic writing) while attending to the norms and conventions of the discipline in which they are writing.

E. Provide a concluding paragraph or section that supports the argument presented (e.g., articulating implications or the significance of the topic).

W.IW.11–12.2. Write informative/explanatory texts (including the narration of historical events, scientific procedures/ experiments, or technical processes) to examine and convey complex ideas, concepts, and information clearly and accurately through the effective selection, organization, and analysis of content.

- A. Introduce a topic; organize complex ideas, concepts, and information so that each new element builds on that which precedes it to create a unified whole; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aiding comprehension.
- B. Develop the topic thoroughly by selecting the most significant and relevant facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic.
- C. Use appropriate and varied transitions and syntax to link the major sections of the text, create cohesion, and clarify the relationships among complex ideas and concepts.
- D. Use precise language, domain-specific vocabulary, and techniques such as metaphor, simile, and analogy to manage the complexity of the topic.
- E. Establish and maintain a style and tone appropriate to the audience and purpose (e.g., formal and objective for academic writing) while attending to the norms and conventions of the discipline in which they are writing.
- F. Provide a concluding paragraph or section that supports the argument presented (e.g., articulating implications or the significance of the topic).

W.WP.11–12.4. Develop and strengthen writing as needed by planning, revising, editing, rewriting, trying a new approach; sustaining effort to complete complex writing tasks; tracking and reflecting on personal writing progress (e.g., using portfolios, journals, conferencing); or consulting a style manual (such as MLA or APA

Style), focusing on addressing what is most significant for a specific purpose and audience.

W.WR.11–12.5. Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.

W.SE.11–12.6. Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the strengths and limitations of each source in terms of the task, purpose, and audience; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and overreliance on any one source and following a standard format for citation (MLA or APA Style Manuals).

W.RW.11–12.7. Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes.

SL.PE.11–12.1. Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with peers on grades 11–12 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively.

A. Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas.

SL.ES.11–12.3. Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, assessing the stance, premises, links among ideas, word choice, points of emphasis, and tone used.

SL.PI.11–12.4 Present information, findings and supporting evidence clearly, concisely, and logically. The content, organization, development, and style are appropriate to task, purpose, and audience.

SL.UM.11–12.5. Make strategic use of digital media (e.g., textual, graphical, audio, visual, and interactive elements) in presentations to enhance understanding of findings, reasoning, and evidence and to add interest.

SL.AS.11–12.6. Adapt speech to a variety of contexts and tasks, demonstrating a command of formal English when indicated or appropriate.

9.4.12.CI.1: Demonstrate the ability to reflect, analyze, and use creative skills and ideas

(e.g., 1.1.12prof.CR3a).

9.4.12.CI.2: Identify career pathways that highlight personal talents, skills, and abilities (e.g., 1.4.12prof.CR2b, 2.2.12.LF.8).

9.4.12.CI.3: Investigate new challenges and opportunities for personal growth, advancement, and transition (e.g., 2.1.12.PGD.1).

9.4.12.TL.2: Generate data using formula-based calculations in a spreadsheet and draw conclusions about the data.

The standards in this unit reflect a developmental progression across grade levels and make interdisciplinary connections across content areas including the humanities, technology, career readiness, cultural awareness, and global citizenship.

Essential Questions / Enduring Understandings

Essential Questions:

- How can we effectively write a paper detailing their findings to an audience unfamiliar with the topic?
- How can one effectively present data in an efficient manner that ensures audience understanding?

Enduring Understandings:

- To effectively convey conclusions and future recommendations in a timely manner, one must understand the mechanics of a good presentation.
- Academic papers must follow a prescribed outline that includes answering of research questions, accurately citing existing research, including proper mechanics, and follows guidelines of an academic reporting

Objectives

Students will know:

- Coherence is achieved when the elements and ideas in an argument flow logically and smoothly. Transitions are used to move the audience from one element or idea to another by illustrating the relationship between the elements or ideas.
- Effective sentences create variety, emphasis, and interest through structure, agreement of elements, placement of modifiers, and consistency of tense.
- Effective organizational and design elements (e.g., headings, layout, illustrations, pull quotes, captions, lists) may aid in audience engagement and understanding by calling attention to important information and/or creating emotional responses in the audience. Ineffective use or overuse of these elements disrupts audience engagement and understanding.
- Data and other information can be presented graphically (e.g., infographics, graphs, tables, models) to aid audience understanding and interpretation.
- Speakers vary elements of delivery (e.g., volume, tempo, movement, eye contact, vocal variety, energy) to emphasize information, convey tone, and engage their audience.

Students will be skilled at:

- Choosing and employing effective written and oral communication techniques, considering audience, context, and purpose
- Choosing and consistently applying an appropriate citation style and effective conventions of writing
- Planning, producing, and presenting a cohesive argument, considering audience, context, and purpose.
- Communicating information through appropriate media using effective techniques of design.
- Presenting information with a minimalist approach to visual aids while conveying information through their words to ensure an audience can concentrate on their words

Learning Plan

This unit plan includes but is not limited to the following strategies:

Examination of Research Studies: Students will have an opportunity to examine other research studies published by institutions such as the Pew Research Center to help them identify what their final papers should contain and how data is displayed in these papers

Examination of Presentations: Students will examine presentations from TED talks to other academic

presentations in order to gain an understanding of how they can present information to their audience in both a concise yet thorough manner.

Presentation Practice: Students will have an opportunity to practice their final presentations with their peer groups in order to advise and give constructive criticism to each other before their final presentation.

Assessment

When taking a Social Studies course, students demonstrate differentiated proficiency according to their ability to answer the essential questions through formative and summative assessments. Many of the performance tasks below can be implemented as formative and/or summative assessments. As teachers strive for students to demonstrate proficiency, they will need to create additional or alternative assessments based on demonstration or absence of skill.

Formative Assessments:

- One to One meetings with teacher
- Peer group discussions
- Presentation practice
- Dissection of Data and Ultimate Conclusions

Summative Assessments:

- Final Paper
- Final Presentation

Benchmark Assessment:

- Assessment of student-driven goals

Materials

The design of this course allows for the integration of a variety of instructional, supplemental, and intervention materials that support student learners at all levels in the school and home environments. Associated web content and media sources are infused into the unit as applicable and available. In addition to the materials below, the following link connects to district approved textbooks and resources utilized in this course: [Core](#)

[Book List.](#)

The following are approved resources that teachers can include to further unit related objectives:

[Final Paper and Presentation Reminders](#)

[Final Exhibition Guidelines](#)

[Final Presentation Rubric](#)

[Final Paper Rubric](#)

Any additional resources that are not included in this list will be presented to and reviewed by the supervisor before being included in lesson plans. This ensures resources are reviewed and vetted for relevance and appropriateness prior to implementation.

Suggested Modifications

This link includes content specific accommodations and modifications for all populations:

<https://docs.google.com/spreadsheets/d/1Pp6EJOCsFz5o4-opzsXpQDQoa6aCIW-bkRGPD RHXVrk/edit?usp=sharing>

These additional strategies are helpful when learning Social Studies content and skills:

These additional strategies are helpful when learning Social Studies content and skills:

- Highlighter for close reading and annotation strategies
- Bolded terms in directions

- Providing opportunities for text-to-speech for written responses.
- Use visual presentations of all materials to include graphic organizers for writing.
