UNIT RATIONALE

Students will use the target language (American Sign Language-ASL) in the three modes of communication to identify d/Deaf people, Deaf cultural norms, and the ASL alphabet/numbers. This unit will provide the foundational skills that are necessary for students to develop ASL on their way towards fluency. Assessments will be based on students using and interpreting the target language.

Interpretive:

Students interpret authentic signed/visual productions of American Sign Language that focus on language survival signs & the alphabet/numbers.

Interpersonal:

Students will engage in unscripted conversations with classmates, the instructor, or the members of the Deaf Community.

Presentational:

Students will use pre-rehearsed/memorized phrases in the target language as well as use culturally appropriate norms, gestures, and facial expressions.

ESSENTIAL QUESTIONS

- How can I use a language when I've just started to learn it?
- What does it mean to be d/Deaf?
- What is the difference between deaf and Deaf?
- How can I navigate conversations in ASL when I don't know everything that was signed?
- What will help my classmates, my teacher, and members of the Deaf Community better understand me?
- How can I respect a culture that has different practices than my own?

PRE-ASSESSMENTS

Students will discuss their knowledge on what basic information is needed in order to learn a language. Students will discuss how languages assist in communication and different ways to communicate beyond spoken language (ex: gesturing, writing things down, pictures, etc.). Students will build on these skills throughout the unit as well as incorporate them into their ASL production.

REFLECTIONS

For future lessons, introduce vocabulary more slowly and give students more time to engage with the vocabulary and use it. Foundational vocabulary will be very relevant to the students throughout their time using ASL, so it is worthwhile to spend the additional time teaching them the signs that will be more important to them.

K-2 & 3-5 do not necessarily need to learn the same vocabulary each week. K-2 should be learning fewer, but relevant vocabulary, while 3-5 (in the future) can begin to build off of the basic vocabulary that they have already learned.

INTERDISCIPLINARY CONNECTIONS: NEW JERSEY STUDENT LEARNING STANDARDS FOR ELA, SOCIAL STUDIES, SCIENCE AND/OR MATHEMATICS

Student learning across various content areas (ELA, Social Studies, Math, and Science) will be reinforced through learning American Sign Language.
