## UNIT RATIONALE

---

Students will use the target language (American Sign Language-ASL) in the three modes of communication to identify & express familial relationships, describing objects/people, concepts of possession, and basic commands. This unit will provide the foundational skills that are necessary for students to develop ASL on their way towards fluency. Assessments will be based on students using and interpreting the target language.

### Interpretive:

Students interpret authentic signed/visual productions of American Sign Language that focus on language likes/dislikes and descriptions

### Interpersonal:

Students will engage in unscripted conversations with classmates, the instructor, or the members of the Deaf Community.

### Presentational:

Students will use pre-rehearsed/memorized phrases in the target language as well as use culturally appropriate norms, gestures, and facial expressions.

## ESSENTIAL QUESTIONS

---

- How can I use a language when I've just started to learn it?
- How can I navigate conversations in ASL when I don't know everything that was signed?
- What will help my classmates, my teacher, and members of the Deaf Community better understand me?
- How can I respect a culture that has different practices than my own?
- How can I describe people in my family?
- How do we describe physical traits differently than character traits?

## REFLECTIONS

For future lessons, introduce vocabulary more slowly and give students more time to engage with the vocabulary and use it. Family vocabulary will be very relevant to the students throughout their time using ASL, so it is worthwhile to spend the additional time teaching them the signs that will be more important to them. Everything does not have to be taught the first time. The curriculum will spiral and students will be able to see "old" vocabulary again.

K-2 & 3-5 do not necessarily need to learn the same vocabulary each week. K-2 should be learning fewer, but relevant vocabulary, while 3-5 (in the future) can begin to build off of the basic vocabulary that they have already learned.
