

# Unit 6: Ch 11: Travel & Transportation (Wks 31-36)

Content Area: **Template**  
Course(s):  
Time Period: **Full Year**  
Length: **Full Year**  
Status: **Published**

## UNIT RATIONALE

---

Students will become familiar with transportation vocabulary in German and to be able to use German in the past tense for both regular and irregular verbs, including a variation for when motion is used vs. when it is static with both verb categories. Cognate patterns with past tense will also be emphasized.

## ESSENTIAL QUESTIONS

---

SAVED

What is the attitude towards public transportation in Germany and how important is it?

What is the structure of the past tense in German?

What is the difference between regular and irregular verbs and how can they be recognized through cognate patterns?

## STANDARDS

## **PRE-ASSESSMENTS**

---

Students will use their newly acquired prior knowledge via guided readings and translation exercises from the chapter exercises as guides going forward. Scaffolding of vocabulary and grammar will be presented whenever appropriate to lead in to the new topic.

In this chapter, the vocabulary theme deals with transportation, of which the students know some vocabulary already and can figure some others out through cognates. However, prior knowledge related to the verb conjugations of "haben" and "sein" will be reviewed and emphasized immediately, as these are the conjugated helping verbs for the conversational past tense (present perfect) which is emphasized in this chapter. As well, we will discuss regular verbs vs. irregular verbs in more depth than before. (We will draw upon the examples of

irregular stem verbs from prior chapters.) Students will need to give examples in English and German of irregular verbs as they then are taught the participial forms and the structure.

## INSTRUCTIONAL PLAN

---

### MODULE 1

---

#### Student Learning Intentions (SLI) WALT: (We are learning to...)

We are learning to:

- be able to discuss transportation in Germany.
- create sentences involving modes of transportation
- identify the differences between regular and irregular verbs and their exceptions.
- use the structure of present perfect (spoken past tense) in a sentences (= helping verb + a participial in final position.)
- know the difference as to when forms of "haben" or "sein" as the helping verb with past tense "sein" based on movement from point A to B, forms of "to be" or a change in condition and all other verbs using "haben" forms.
- recognize that forms such as "drove" and "has/have driven" are both acceptable translations for the present perfect in German.

#### Student Learning Strategies

Note-taking from the board  
Brainstorming for cultural awareness = additional notes  
Oral repetition for pronunciation  
Partner Skits as interviews (written & oral)  
Oral Q&A between teacher and student & between students  
Short written responses  
Completion of homework either in the workbook or assigned on Google Classroom  
Project depicting past tense activities and descriptions  
Study techniques incl. Quizlet or similar

#### Success Criteria

Able to adequately discuss transportation in Germany.  
Can create grammatical sentences describing movement via multiple means of conveyance.

<p><b>Formative Assessment (drives instructional decisions)</b></p>	<p>Daily Participation  Homework  Vocab &amp; Grammar Quizzing  Partner Skit  Chapter Test  Project - Past Tense</p>
<p><b>Activities and Resources</b></p>	<p>German Textbook "Deutsch Aktuell 1"  Corresponding workbook for homework emphasis  Video series that relates to the vocab and grammar in the textbook  Oral participation  Partner interviews  Q&amp;A  Reading &amp; Translating  Grammar and vocab based exercises  Teacher-generated sheets and activities  Demonstrate an understanding of verbal commands  Create a skit  Create a project on Google Classroom  Internet for references and cultural pictures  Vocab games  Kahoot! games</p>
<p><b>Suggested Modifications</b></p>	<p><b>English Language Learners</b></p> <p><b>Native language support:</b> The teacher provides auditory or written content to students in their native language.</p> <p><b>Adjusted Speech:</b> The teacher changes speech patterns to increase student comprehension. This could include facing the students, paraphrasing, clearly indicating the most important ideas, and speaking more slowly.</p> <p><b>Visuals:</b> The teacher uses graphics, pictures, visuals, and manipulatives. This helps ELL students better understand and comprehend the subjects at hand.</p> <p><b>Front-Loading Vocabulary:</b> The teacher front loads vocabulary. This means providing students with a list of important vocabulary words they will need to know for a book, lesson, etc. prior to the lesson being taught. Including pictures to go with the vocabulary words is also</p>

very beneficial for the students.

### **Special Education Students**

**Chunking:** The teacher presents information in a way that makes it easy for students to understand and remember. Chunking is based on the presumption that our working memory is easily overloaded by excessive detail. The best way to deliver information is to organize it into meaningful units. Because students with special needs get overloaded easily, chunking is an effective strategy to use with them.

**Checking for Understanding:** It is important to constantly check for understanding, especially for students who have accommodations. Teachers want to make sure students understand the concepts being covered in a way that makes sense to them.

**Extra time:** The teacher provides students with special needs extra time to complete work or answer questions. It is important to give students enough time to process their thoughts.

**Oral Reading:** The teacher will read work orally to students. Class work such as tests and literature circles may need to be read aloud to the student.

**Timers:** The teacher will use timers as an instructional tool. The use of timers is beneficial for students who have trouble completing tasks. Timers can be helpful so the student is aware of how much time they have to complete an assignment.

### **Students with 504 Plans**

**Chunking:** The teacher presents information in a way that makes it easy for students to understand and remember. Chunking is based on the presumption that our working memory is easily overloaded by excessive detail. The best way to deliver information is to organize it into meaningful units. Because students with special needs get overloaded easily, chunking is an effective strategy to use with them.

**Checking for Understanding:** It is important to constantly check for understanding, especially for students who have accommodations. Teachers want to make sure students understand the concepts being covered in a way that makes sense to them.

**Extra time:** The teacher provides students with special needs extra time to complete work or answer questions. It is important to give students enough time to process their thoughts.

### **Gifted & Talented Strategies**

**Extensions/Enrichments:** Teachers will provide gifted and talented students with extension/enrichment projects. Students will be challenged to further their understanding, to apply acquired knowledge, and/or to produce something in reference to acquired knowledge.

**Modify/Change Activities:** Teachers will monitor and modify activities to accommodate those students who need to be challenged further. Additional reading, problem-solving, writing, or project work is necessary for those students who are ready to move on at a rate more accelerated than their peers. In this way, G & T students are provided the same opportunity for support as special needs students.

### **Students at Risk of School Failure**

**Directions or Instructions:** Make sure directions and/or instructions are given in limited numbers. Give directions/instructions verbally and in simple written format. Ask students to repeat the instructions or directions to ensure understanding occurs. Check back with the student to ensure he/she hasn't

forgotten.

**Peer Support:** Peers can help build confidence in other students by assisting in peer learning. Many teachers use the 'ask 3 before me' approach. This is fine, however, a student at risk may have to have a specific student or two to ask. Set this up for the student so he/she knows who to ask for clarification before going to you.

**Alternate or Modified Assignments:** Always ask yourself, "How can I modify this assignment to ensure the students at risk are able to complete it?"

Sometimes you'll simplify the task, reduce the length of the assignment or allow for a different mode of delivery. For instance, many students may hand something in, the at-risk student may jot notes and give you the information verbally. Or, it just may be that you will need to assign an alternate assignment.

**Increase One to One Time:** When other students are working, always touch base with your students at risk and find out if they're on track or needing some additional support. A few minutes here and there will go a long way to intervene as the need presents itself.

**Contracts:** It helps to have a working contract between you and your students at risk. This helps prioritize the tasks that need to be done and ensure completion happens. Each day write down what needs

to be completed, as the tasks are done, provide a checkmark or happy face. The goal of using contracts is to eventually have the student come to you for completion sign-offs.

## REFLECTIONS

---

## BENCHMARK ASSESSMENTS

Periodic quizzes

Constant teacher-directed Q&A to measure progress for an oral participation grade

Student interviews and dialogues

Successful HW completion

Project on Google Classroom

Skit based on chapter topic, its vocabulary, and the chapter's new grammar

---

## SUMMATIVE/END-OF-UNIT ASSESSMENTS

Assessments include listening, speaking, reading, and writing in German as well as cultural understanding and discussions.

A written chapter test also concludes the chapter.
