

# Unit 4: Ch 9: Free-Time & Chores (Wks 19-24)

Content Area: **Template**  
Course(s):  
Time Period: **Full Year**  
Length: **Full Year**  
Status: **Published**

## UNIT RATIONALE

---

Students will be able to formulate the structure of separable prefix verbs in context as well as creating commands (imperatives) in German and to combine those with vocabulary related to chores and entertainment as well as know the patterns for creating compound nouns.

## ESSENTIAL QUESTIONS

---

What denotes entertainment to a German and what types of activities are popular there?

What is the structure of separable prefix verbs in the present tense?

What gender does a compound noun take?

Why are there four different forms of commands in the German language and how to we distinguish among them?

## **PRE-ASSESSMENTS**

---

Students will use their newly acquired prior knowledge via guided readings and translation exercises from the chapter exercises as guides going forward. Scaffolding of vocabulary and grammar will be presented whenever appropriate to lead in to the new topic.

In this chapter, students will recall some of the hobby vocab learned last year as well as verb conjugations in order to be successful. This will then be applied to the new vocabulary dealing with chores. They will then add in the concept of numerous separable prefix verbs and the various command (imperative) forms in German. They also will need to recall the various forms of "you" in German to determine which imperative form to use. Students will also need to recall the genders of nouns in order to properly identify the gender of newly created compound nouns.

# INSTRUCTIONAL PLAN

---

## MODULE 1

---

### Student Learning Intentions (SLI) WALT: (We are learning to...)

We are learning to:

- determine which hobbies are popular in Germany and learn the vocabulary pertaining thereto.
- express in German which chores must be completed in a typical home.
- use separable prefix verbs in the context of sentences when used as stand alone verbs or combined with modals.
- determine how to create compound nouns in German and how to assign or determine the gender of such words.
- construct the four different forms of command (imperatives) in German based upon which "you" is the intended audience or whether it is a "Let's Command."

### Student Learning Strategies

Note-taking from the board  
Brainstorming for cultural awareness = additional notes  
Oral repetition for pronunciation  
Partner Skits as interviews (written & oral)  
Oral Q&A between teacher and student & between students  
Short written responses  
Completion of homework either in the workbook or assigned on Google Classroom

### Success Criteria

Can create proper sentences using a multitude of German chores or hobbies.  
Can intelligently discuss the culture of sports and free-time activities that are relevant to Germans.  
Can create compound nouns from conceptual ideas and then assign them the proper gender based on the rules.

### Formative Assessment (drives instructional decisions)

Daily Participation  
Homework  
Vocab & Grammar Quizzing  
Partner Skit

Chapter Test  
Command Forms (Imperative Forms) Project

### Activities and Resources

German Textbook "Deutsch Aktuell 1"  
Corresponding workbook for homework emphasis  
Video series that relates to the vocab and grammar in the textbook  
Oral participation  
Partner interviews  
Q&A  
Reading & Translating  
Grammar and vocab based exercises  
Teacher-generated sheets and activities  
Demonstrate an understanding of verbal commands  
Create a skit  
Create a project on Google Classroom  
Internet for references and cultural pictures  
Vocab games  
Kahoot! games

### Suggested Modifications

#### English Language Learners

**Native language support:** The teacher provides auditory or written content to students in their native language.

**Adjusted Speech:** The teacher changes speech patterns to increase student comprehension. This could include facing the students, paraphrasing, clearly indicating the most important ideas, and speaking more slowly.

**Visuals:** The teacher uses graphics, pictures, visuals, and manipulatives. This helps ELL students better understand and comprehend the subjects at hand.

**Front-Loading Vocabulary:** The teacher front loads vocabulary. This means providing students with a list of important vocabulary words they will need to know for a book, lesson, etc. prior to the lesson being taught. Including pictures to go with the vocabulary words is also very beneficial for the students.

#### Special Education Students

**Chunking:** The teacher presents information in a way that makes it easy for students to understand and remember. Chunking is based on the presumption that our working memory is easily overloaded by excessive detail. The best way to deliver information is to organize it into meaningful units. Because students with special needs get overloaded easily, chunking is an effective strategy to use with them.

**Checking for Understanding:** It is important to constantly check for understanding, especially for students who have accommodations. Teachers want to make sure students understand the concepts being covered in a way that makes sense to them.

**Extra time:** The teacher provides students with special needs extra time to complete work or answer questions. It is important to give students enough time to process their thoughts.

**Oral Reading:** The teacher will read work orally to students. Class work such as tests and literature circles may need to be read aloud to the student.

**Timers:** The teacher will use timers as an instructional tool. The use of timers is beneficial for students who have trouble completing tasks. Timers can be helpful so the student is aware of how much time they have to complete an assignment.

### **Students with 504 Plans**

**Chunking:** The teacher presents information in a way that makes it easy for students to understand and remember. Chunking is based on the presumption that our working memory is easily overloaded by excessive detail. The best way to deliver information is to organize it into meaningful units. Because students with special needs get overloaded easily, chunking is an effective strategy to use with them.

**Checking for Understanding:** It is important to constantly check for understanding, especially for students who have accommodations. Teachers want to make sure students

understand the concepts being covered in a way that makes sense to them.

**Extra time:** The teacher provides students with special needs extra time to complete work or answer questions. It is important to give students enough time to process their thoughts.

### **Gifted & Talented Strategies**

**Extensions/Enrichments:** Teachers will provide gifted and talented students with extension/enrichment projects. Students will be challenged to further their understanding, to apply acquired knowledge, and/or to produce something in reference to acquired knowledge.

**Modify/Change Activities:** Teachers will monitor and modify activities to accommodate those students who need to be challenged further. Additional reading, problem-solving, writing, or project work is necessary for those students who are ready to move on at a rate more accelerated than their peers. In this way, G & T students are provided the same opportunity for support as special needs students.

### **Students at Risk of School Failure**

**Directions or Instructions:** Make sure directions and/or instructions are given in limited numbers. Give directions/instructions verbally and in simple written format. Ask students to repeat the instructions or directions to ensure understanding occurs. Check back with the student to ensure he/she hasn't forgotten.

**Peer Support:** Peers can help build confidence in

other students by assisting in peer learning. Many teachers use the 'ask 3 before me' approach. This is fine, however, a student at risk may have to have a specific student or two to ask. Set this up for the student so he/she knows who to ask for clarification before going to you.

**Alternate or Modified Assignments:** Always ask yourself, "How can I modify this assignment to ensure the students at risk are able to complete it?"

Sometimes you'll simplify the task, reduce the length of the assignment or allow for a different mode of delivery. For instance, many students may hand something in, the at-risk student may jot notes and give you the information verbally. Or, it just may be that you will need to assign an alternate assignment.

**Increase One to One Time:** When other students are working, always touch base with your students at risk and find out if they're on track or needing some additional support. A few minutes here and there will go a long way to intervene as the need presents itself.

**Contracts:** It helps to have a working contract between you and your students at risk. This helps prioritize the tasks that need to be done and ensure completion happens. Each day write down what needs to be completed, as the tasks are done, provide a checkmark or happy face. The goal of using contracts is to eventually have the student come to you for

## REFLECTIONS

---

## BENCHMARK ASSESSMENTS

---

Periodic quizzes

Constant teacher-directed Q&A to measure progress for an oral participation grade

Student interviews and dialogues

Successful HW completion

Project on Google Classroom

Skit based on chapter topic, its vocabulary, and the chapter's new grammar

## SUMMATIVE/END-OF-UNIT ASSESSMENTS

---

Assessments include listening, speaking, reading, and writing in German as well as cultural understanding and discussions.

Video translation practice.

A written chapter test also concludes the chapter.
