PRE-ASSESSMENTS

Students will use their newly acquired prior knowledge via guided readings and translation exercises from the chapter exercises as guides going forward. Scaffolding of vocabulary and grammar will be presented whenever appropriate to lead in to the new topic.

In this chapter, students will review the usage of the nominative vs. the accusative case in order to determine which forms of the possessive adjectives and the personal pronouns will be used in which situations and what the varied declensions are based upon noun genders. The understanding of the accusative case is also essential for the introduction and proper usage of accusative prepositions. Prior knowledge of traditions related to how Americans celebrated occasions throughout the year and/or one's life will be compared and contrasted with those in the German-speaking cultures.

INSTRUCTIONAL PLAN

MODULE 1

Student Learning Intentions (SLI) WALT: (We are learning to...)

We are learning to:

- compare and learn about celebrating the customs and occasions of Germany and seeing how they are similar or different.
- use accusative prepositions properly according to their meanings and the gender of ensuing nouns.
- use possessive adjectives and personal pronouns with both the nominative and accusative cases and thereby recognize the different forms based on gender and case.
- differentiate the endings used between cases and genders.

Student Learning Strategies

Note-taking from the board
Brainstorming for cultural awareness = additional notes
Oral repetition for pronunciation
Partner Skits as interviews (written & oral)
Oral Q&A between teacher and student & between students
Short written responses
Completion of homework either in the workbook or assigned on Google Classroom
Study techniques incl. Quizlet or similar

Success Criteria

Will be able to successfully explain to other which occasions are worthy of celebration in Germany, which are major and which are minor, and how many "life events" are celebrated. Students will also be able to emphasize any similarities and differences, such as with engagements, marriages, funeral traditions, religious influences, etc.
Will know to apply the rules of using accusative prepositions to grammatical structure and forms.
Will be able to use the proper endings on nouns following accusative prepositions.
Will know the proper forms of pronouns and

<p>Suggested Modifications</p>	<p>English Language Learners</p> <p>Native language support: The teacher provides auditory or written content to students in their native language.</p> <p>Adjusted Speech: The teacher changes speech patterns to increase student comprehension. This could include facing the students, paraphrasing, clearly indicating the most important ideas, and speaking more slowly.</p> <p>Visuals: The teacher uses graphics, pictures, visuals, and manipulatives. This helps ELL students better understand and comprehend the subjects at hand.</p> <p>Front-Loading Vocabulary: The teacher front loads vocabulary. This means providing students with a list of important vocabulary words they will need to know for a</p>

book, lesson, etc. prior to the lesson being taught. Including pictures to go with the vocabulary words is also very beneficial for the students.

Special Education Students

Chunking: The teacher presents information in a way that makes it easy for students to understand and remember. Chunking is based on the presumption that our working memory is easily overloaded by excessive detail. The best way to deliver information is to organize it into meaningful units. Because students with special needs get overloaded easily, chunking is an effective strategy to use with them.

Checking for Understanding: It is important to constantly check for understanding, especially for students who have accommodations. Teachers want to make sure students understand the concepts being covered in a way that makes sense to them.

Extra time: The teacher provides students with special needs extra time to complete work or answer questions. It is important to give students enough time to process their thoughts.

Oral Reading: The teacher will read work orally to students. Class work such as tests and literature circles may need to be read aloud to the student.

Timers: The teacher will use timers as an instructional tool. The use of timers is beneficial for students who have trouble completing tasks. Timers can be helpful so the student is aware of how much time they have to complete an assignment.

Students with 504 Plans

units. Because students with special needs get overloaded easily, chunking is an effective strategy to use with them.

Extra time: The teacher provides students with special needs extra time to complete work or answer questions. It is important to give students enough time to process their thoughts.

Gifted & Talented Strategies

Extensions/Enrichments: Teachers will provide gifted and talented students with extension/enrichment projects. Students will be challenged to further their understanding, to apply acquired knowledge, and/or to produce something in reference to acquired knowledge.

Modify/Change Activities: Teachers will monitor and modify activities to accommodate those students who need to be challenged further. Additional reading, problem-solving, writing, or project work is necessary for those students who are ready to move on at a rate more accelerated than their peers. In this way, G & T students are provided the same opportunity for support as special needs students.

Students at Risk of School Failure

Directions or Instructions: Make sure directions and/or instructions are given in limited numbers. Give directions/instructions verbally and in simple written format. Ask students to repeat the instructions or directions to ensure understanding occurs. Check

back with the student to ensure he/she hasn't forgotten.

Peer Support: Peers can help build confidence in other students by assisting in peer learning. Many teachers use the 'ask 3 before me' approach. This is fine, however, a student at risk may have to have a specific student or two to ask. Set this up for the student so he/she knows who to ask for clarification before going to you.

Alternate or Modified Assignments: Always ask yourself, "How can I modify this assignment to ensure the students at risk are able to complete it?"

Sometimes you'll simplify the task, reduce the length of the assignment or allow for a different mode of delivery. For instance, many students may hand something in, the at-risk student may jot notes and give you the information verbally. Or, it just may be that you will need to assign an alternate assignment.

Increase One to One Time: When other students are working, always touch base with your students at risk and find out if they're on track or needing some additional support. A few minutes here and there will go a long way to intervene as the need presents itself.

Contracts: It helps to have a working contract between you and your students at risk. This helps prioritize the tasks that need to be done and ensure

completion happens. Each day write down what needs to be completed, as the tasks are done, provide a checkmark or happy face. The goal of using contracts is to eventually have the student come to you for completion sign-offs.

REFLECTIONS

BENCHMARK ASSESSMENTS

Periodic quizzes

Constant teacher-directed Q&A to measure progress for an oral participation grade

Student interviews and dialogues

Successful HW completion

Skit based on chapter topic, its vocabulary, and the chapter's new grammar

SUMMATIVE/END-OF-UNIT ASSESSMENTS

Assessments include listening, speaking, reading, and writing in German as well as cultural understanding and discussions.

Video translation practice.

A written chapter test also concludes the chapter.
