Transfer/Overview/Rationale

Transfer / Overview / Rationale

Unit Rationale

The purpose of this unit...

This unit shows that governing is achieved directly through citizen participation and indirectly through institutions (e.g., political parties, interest groups, and mass media) that inform, organize, and mobilize support to influence government and politics, resulting in many venues for citizen influence on policy making.

Meaning

Essential Questions

Essential Questions

- How have changes in technology influenced political communication and behavior?
- Why do levels of participation and influence in politics vary?
- How effective are the various methods of political participation in shaping public policies?

Enduring Understanding/Indicators of Understanding

Enduring Understanding/Indicators of Understanding

- Factors associated with political ideology, efficacy, structural barriers, and demographics influence the nature and degree of political participation.
- Political parties, interest groups, and social movements provide opportunities for participation and influence how people relate to government and policymakers.
- The impact of federal policies on campaigning and electoral rules continues to be contested by both sides of the political spectrum.

Acquisition (Student Learning Objectives)

Knowledge

Knowledge

Students will know...

- Legal protections found in federal legislation and the Fifteenth, Seventeenth, Nineteenth, Twenty-Fourth, and Twenty-Sixth Amendments relate to the expansion of opportunities for political participation.
- Examples of political models explaining voting behavior include:
 - Rational-choice voting–Voting based on what is perceived to be in the citizen’s individual interest
 - Retrospective voting–Voting to decide whether the party or candidate in power should be re-elected based on the recent past
 - Prospective voting–Voting based on predictions of how a party or candidate will perform in the future
 - Party-line voting–Supporting a party by voting for candidates from one political party for all public offices across the ballot
- In addition to the impact that demographics and political efficacy can have on voter choice and turnout, structural barriers and type of election also affect voter turnout in the U.S., as represented by:
 - State voter registration laws
 - Procedures on how, when, and where to vote
 - Mid-term (congressional) or general presidential elections
- Demographic characteristics and political efficacy or engagement are used to predict the likelihood of whether an individual will vote.
- Factors influencing voter choice include:

- Party identification and ideological orientation
 - Candidate characteristics w Contemporary political issues
 - Religious beliefs or affiliation, gender, race and ethnicity, and other demographic characteristics
- Linkage institutions are channels, such as the following, that allow individuals to communicate their preferences to policy-makers:
 - Parties
 - Interest Groups
 - Elections
 - Media
- The functions and impact of political parties on the electorate and government are represented by:
 - Mobilization and education of voters
 - Party platforms
 - Candidate recruitment
 - Campaign management, including fundraising and media strategy
 - The committee and party leadership systems in legislatures
- Parties have adapted to candidate-centered campaigns, and their role in nominating candidates has been weakened.
- Parties modify their policies and messaging to appeal to various demographic coalitions.
- The structure of parties has been influenced by:
 - Critical elections and regional realignments
 - Campaign finance law w Changes in communication and data-management technology P
- Parties use communication technology and voter-data management to disseminate, control, and clarify political messages and enhance outreach and mobilization efforts.
- In comparison to proportional systems, winner-take-all voting districts serve as a structural barrier to third-party and independent candidate success.
- The incorporation of third-party agendas into platforms of major political parties serves as a barrier to third-party and independent candidate success.
- Interest groups may represent very specific or more general interests, and can educate voters and office holders, draft legislation, and mobilize membership to apply pressure on and work with legislators and government agencies.
- In addition to working within party coalitions, interest groups exert influence through long-standing relationships with bureaucratic agencies, congressional committees, and other interest groups; such relationships are described as “iron triangles” and issue networks and they help interest groups exert influence across political party coalitions.
- Interest group influence may be impacted by:
 - Inequality of political and economic resources
 - Unequal access to decision makers
 - “Free rider” problem
- Single-issue groups, ideological/social movements, and protest movements form with the goal of impacting society and policy making.
- Competing actors such as interest groups, professional organizations, social movements, the military, and bureaucratic agencies influence policy making, such as the federal budget process, at key stages and to varying degrees.
- Elections and political parties are related to major policy shifts or initiatives, occasionally leading to political realignments of voting constituencies.
- The process and outcomes in U.S. presidential elections are impacted by:
 - Incumbency advantage phenomenon
 - Open and closed primaries
 - Caucuses
 - Party conventions
 - Congressional and State elections
 - The Electoral College
- The winner-take-all allocation of votes per state (except Maine and Nebraska) under the setup of the Electoral College compared with the national popular vote for president raises questions about whether the Electoral College facilitates or impedes democracy.
- The process and outcomes in U.S. Congressional elections are impacted by:
 - Incumbency advantage phenomenon
 - Open and closed primaries w Caucuses
 - General (presidential and mid-term) elections
- The benefits and drawbacks of modern campaigns are represented by:
 - Dependence on professional consultants
 - Rising campaign costs and intensive fundraising efforts

- Duration of election cycles w Impact of and reliance on social media for campaign communication and fundraising
- Federal legislation and case law pertaining to campaign finance demonstrate the ongoing debate over the role of money in political and free speech, as set forth in:
 - Bipartisan Campaign Reform Act of 2002, which was an effort to ban soft money and reduce attack ads with “Stand by Your Ad” provision: “I’m [candidate’s name] and I approve this message”
 - Citizens United v. Federal Election Commission (2010), which ruled that political spending by corporations, associations, and labor unions is a form of protected speech under the First Amendment
- Debates have increased over free speech and competitive and fair elections related to money and campaign funding (including contributions from individuals, PACs, and political parties).
- Different types of political action committees (PACs) influence elections and policy making through fundraising and spending.
- Traditional news media, new communication technologies, and advances in social media have profoundly influenced how citizens routinely acquire political information, including new events, investigative journalism, election coverage, and political commentary.
- The media’s use of polling results to convey popular levels of trust and confidence in government can impact elections by turning such events into “horse races” based more on popularity and factors other than qualifications and platforms of candidates.
- Political participation is influenced by a variety of media coverage, analysis, and commentary on political events.
- The rapidly increasing demand for media and political communications outlets from an ideologically diverse audience have led to debates over media bias and the impact of media ownership and partisan news sites.
- The nature of democratic debate and the level of political knowledge among citizens is impacted by:
 - Increased media choices
 - Ideologically oriented programming
 - Consumer-driven media outlets and emerging technologies that reinforce existing beliefs
 - Uncertainty over the credibility of news sources and information

Modifications and/or Accommodations

Suggested Modifications (ELL, Sp. Ed, Gifted, At-risk of Failure)

English Language Learners

Native language support: The teacher provides auditory or written content to students in their native language.

Adjusted Speech: The teacher changes speech patterns to increase student comprehension. This could include facing the students, paraphrasing, clearly indicating the most important ideas, and speaking more slowly.

Visuals: The teacher uses graphics, pictures, visuals, and manipulatives. This helps ELL students better understand and comprehend the subjects at hand.

Front-Loading Vocabulary: The teacher front loads vocabulary. This means providing students with a list of important vocabulary words they will need to know for a book, lesson, etc. prior to the lesson being taught. Including pictures to go with the vocabulary words is also very beneficial for the students.

Special Education Students

Chunking: The teacher presents information in a way that makes it easy for students to understand and remember. Chunking is based on the presumption that our working memory is easily overloaded by excessive detail. The best way to deliver information is to organize it into meaningful units. Because students with special needs get overloaded easily, chunking is an effective strategy to use with them.

Checking for Understanding: It is important to constantly check for understanding, especially for students who have accommodations. Teachers want to make sure students understand the concepts being covered in a way that makes sense to them.

Extra time: The teacher provides students with special needs extra time to complete work or answer questions. It is important to give students enough time to process their thoughts.

Oral Reading: The teacher will read work orally to students. Class work such as tests and literature circles may need to be read aloud to the student.

Timers: The teacher will use timers as an instructional tool. The use of timers is beneficial for students who have trouble completing tasks. Timers can be helpful so the student is aware of how much time they have to complete an assignment.

Students with 504 Plans

Chunking: The teacher presents information in a way that makes it easy for students to understand and remember. Chunking is based on the presumption that our working memory is easily

overloaded by excessive detail. The best way to deliver information is to organize it into meaningful units. Because students with special needs get overloaded easily, chunking is an effective strategy to use with them.

Checking for Understanding: It is important to constantly check for understanding, especially for students who have accommodations. Teachers want to make sure students understand the concepts being covered in a way that makes sense to them.

Extra time: The teacher provides students with special needs extra time to complete work or answer questions. It is important to give students enough time to process their thoughts.

Gifted & Talented Strategies

Extensions/Enrichments: Teachers will provide gifted and talented students with extension/enrichment projects. Students will be challenged to further their understanding, to apply acquired knowledge, and/or to produce something in reference to acquired knowledge.

Modify/Change Activities: Teachers will monitor and modify activities to accommodate those students who need to be challenged further. Additional reading, problem-solving, writing, or project work is necessary for those students who are ready to move on at a rate more accelerated than their peers. In this way, G & T students are provided the same opportunity for support as special needs students.

Students at Risk of School Failure

Directions or Instructions: Make sure directions and/or instructions are given in limited numbers. Give directions/instructions verbally and in simple written format. Ask students to repeat the instructions or directions to ensure understanding occurs. Check back with the student to ensure he/she hasn't forgotten.

Peer Support: Peers can help build confidence in other students by assisting in peer learning. Many teachers use the 'ask 3 before me' approach. This is fine, however, a student at risk may have to have a specific student or two to ask. Set this up for the student so he/she knows who to ask for clarification before going to you.

Alternate or Modified Assignments: Always ask yourself, "How can I modify this assignment to ensure the students at risk are able to complete it?" Sometimes you'll simplify the task, reduce the length of the assignment or allow for a different mode of delivery. For instance, many students may hand something in, the at-risk student may jot notes and give you the information verbally. Or, it just may be that you will need to assign an alternate assignment.

Increase One to One Time: When other students are working, always touch base with your students at risk and find out if they're on track or needing some additional support. A few minutes here and there will go a long way to intervene as the need presents itself.

Contracts: It helps to have a working contract between you and your students at risk. This helps prioritize the tasks that need to be done and ensure completion happens. Each day write down what needs to be completed, as the tasks are done, provide a checkmark or happy face. The goal of using contracts is to eventually have the student come to you for completion sign-offs.

Hands On: As much as possible, think in concrete terms and provide hands-on tasks. This means a child doing math may require a calculator or counters. The child may need to tape record comprehension activities instead of writing them. A child may have to listen to a story being read instead of reading it him/herself.

Tests/Assessments: Tests can be done orally if need be. Break tests down in smaller increments by having a portion of the test in the morning, another portion after lunch and the final part the next day.

Seating: Seat students near a helping peer or with quick access to the teacher. Those with hearing or sight issues need to be close to the instruction which often means near the front.
