Transfer/Overview/Rationale

Transfer / Overview / Rationale

Unit Rationale

The purpose of this unit...

The start of freshman year provides us with the opportunity to build community among our students and establish norms of participation and rigor. The novel *The Absolutely True Diary of a Part-Time Indian* is accessible and high-interest and promotes lively discussion and reflection about issues that touch our students' lives. It also builds cultural literacy by bringing awareness to issues that the Native American community faces. This unit will not only serve as a way to assess prior knowledge, but it will also serve as a solid foundation for continuing literacy skill growth.

Meaning

Essential Questions

Essential Questions

1. Why is resilience essential to overcoming adversity and maintaining personal success?
2. How does making connections with a text enrich one's life?
3. How can reading, writing, and discussing texts with a teacher and classmates help students develop and mature emotionally?

Enduring Understanding/Indicators of Understanding

Enduring Understanding/Indicators of Understanding

1. Resilience is the ability to recover from or adjust easily to misfortune or change, and the ability to demonstrate this trait is essential to success.
2. Good readers compare, infer, synthesize, and make connections (text to text, text to self, and text to world) to make the text personally relevant and useful.
3. Through reading, writing, and discussion, students will develop the important life skills of introspection, empathy, self-reflection, self-evolution, and resilience.

Formative Assessment Strategies

Formative Assessment Strategies

-To assess our students' current skill level, we will assign them to write a paragraph which discusses how Junior shows resilience to cope with the death of his dog (this is the first major event in the book, so this assessment will be given early in the year as a baseline).

-Multi-Text Assignment: read article “Arizona Navajo School Defends Redskins” by Ian Shapira and compare/contrast with *The Absolutely True Diary of a Part-Time Indian*

-Exit slips to check for comprehension and/or make connections with the text

-Creative writing prompts that check for understanding and allow for text/self connections (Example: Write about a time when you felt out of place in a new setting.)

Learning Activities/Unit of Study

Learning Activities/Unit of Study

-Students will read and discuss *The Absolutely True Diary of a Part-Time Indian* using teacher-generated and student-generated discussion questions and prompts. Prompts will vary depending on student interest and level of interaction with the text.

-Students will complete short writing assignments on character, plot, and theme. In these responses, students will illustrate their ideas with textual evidence.

-Students will make connections (text/text, text/world, text/self).

-Students will read and discuss non-fiction texts which relate to the issues Junior faces in the novel, such as alcoholism, racism, and abuse.

Modifications and/or Accommodations

Suggested Modifications (ELL, Sp. Ed, Gifted, At-risk of Failure)

English Language Learners

Native language support: The teacher provides auditory or written content to students in their native language.

Adjusted Speech: The teacher changes speech patterns to increase student comprehension. This could include facing the students, paraphrasing, clearly indicating the most important ideas, and speaking more slowly.

Visuals: The teacher uses graphics, pictures, visuals, and manipulatives. This helps ELL students better understand and comprehend the subjects at hand.

Front-Loading Vocabulary: The teacher front loads vocabulary. This means providing students with a list of important vocabulary words they will need to know for a book, lesson, etc. prior to the lesson being taught. Including pictures to go with the vocabulary words is also very beneficial for the students.

Special Education Students

Chunking: The teacher presents information in a way that makes it easy for students to understand and remember. Chunking is based on the presumption that our working memory is easily overloaded by excessive detail. The best way to deliver information is to organize it into meaningful units. Because students with special needs get overloaded easily, chunking is an effective strategy to use with them.

Checking for Understanding: It is important to constantly check for understanding, especially for students who have accommodations. Teachers want to make sure students understand the concepts being covered in a way that makes sense to them.

Extra time: The teacher provides students with special needs extra time to complete work or answer questions. It is important to give students enough time to process their thoughts.

Oral Reading: The teacher will read work orally to students. Class work such as tests and literature circles may need to be read aloud to the student.

Timers: The teacher will use timers as an instructional tool. The use of timers is beneficial for students who have trouble completing tasks. Timers can be helpful so the student is aware of how much time they have to complete an assignment.

Students with 504 Plans

Chunking: The teacher presents information in a way that makes it easy for students to understand and remember. Chunking is based on the presumption that our working memory is easily overloaded by excessive detail. The best way to deliver information is to organize it into meaningful units. Because students with special needs get overloaded easily, chunking is an effective strategy to use with them.

Checking for Understanding: It is important to constantly check for understanding, especially for students who have accommodations. Teachers want to make sure students understand the concepts being covered in a way that makes sense to them.

Extra time: The teacher provides students with special needs extra time to complete work or answer questions. It is important to give students enough time to process their thoughts.

Gifted & Talented Strategies

Extensions/Enrichments: Teachers will provide gifted and talented students with extension/enrichment projects. Students will be challenged to further their understanding, to apply acquired knowledge, and/or to produce something in reference to acquired knowledge.

Modify/Change Activities: Teachers will monitor and modify activities to accommodate those students who need to be challenged further. Additional reading, problem-solving, writing, or project work is necessary for those students who are ready to move on at a rate more accelerated than their peers. In this way, G & T students are provided the same opportunity for support as special needs students.

Students at Risk of School Failure

Directions or Instructions: Make sure directions and/or instructions are given in limited numbers. Give directions/instructions verbally and in simple written format. Ask students to repeat the instructions or directions to ensure understanding occurs. Check back with the student to ensure he/she hasn't forgotten.

Peer Support: Peers can help build confidence in other students by assisting in peer learning. Many teachers use the 'ask 3 before me' approach. This is fine, however, a student at risk may have to have a specific student or two to ask. Set this up for the student so he/she knows who to ask for clarification before going to you.

Alternate or Modified Assignments: Always ask yourself, "How can I modify this assignment to ensure the students at risk are able to complete it?" Sometimes you'll simplify the task, reduce the length of the assignment or allow for a different mode of delivery. For instance, many students may hand something in, the at-risk student may jot notes and give you the information verbally. Or, it just may be that you will need to assign an alternate assignment.

Increase One to One Time: When other students are working, always touch base with your students at risk and find out if they're on track or needing some additional support. A few minutes here and there will go a long way to intervene as the need presents itself.

Contracts: It helps to have a working contract between you and your students at risk. This helps prioritize the tasks that need to be done and ensure completion happens. Each day write down what needs to be completed, as the tasks are done, provide a checkmark or happy face. The goal of using contracts is to eventually have the student come to you for completion sign-offs.

Hands On: As much as possible, think in concrete terms and provide hands-on tasks. This means a child doing math may require a calculator or counters. The child may need to tape record comprehension activities instead of writing them. A child may have to listen to a story being read instead of reading it him/herself.

Tests/Assessments: Tests can be done orally if need be. Break tests down in smaller increments by having a portion of the test in the morning, another portion after lunch and the final part the next day.

Seating: Seat students near a helping peer or with quick access to the teacher. Those with hearing or sight issues need to be close to the instruction which often means near the front.
