Meaning

Understandings

Students will understand the importance of vocal production as a part of the communication process.

Students will apply their understanding of vocal production to a dramatic reading of a poem.

How do different types of literature affect the oral interpretation? Why is vocal emphasis critical in an oral interpretation? Of which verbal and non-verbal strategies should I be aware? Can I present orally using verbal and non-verbal techniques I learned? Can I memorize a poem and perform it with feeling, using clear articulation, corret pauses, volume and inflection? Can I determine the tone of the poem? How are the processes of articulation and voice production used for effective speech delivery? Application of Knowledge and Skill Students will know * the selection process of literature appropriate for the presenter and audience * the biology of speech * the clements of vocal production: volume, rate, pitch/inflection * the connection between manuscripting and vocal production	Students will practice manuscripting as a visual representation of volume, rate and pitch.

Learning Goal

Students will apply vocal production knowledge to a dramatic reading.

LA.RL.11-12.2 Determine two or more themes or central ideas of a text and analyze their development

over the course of the text, including how they interact and build on one another to

produce a complex account; provide an objective summary of the text.

LA.RL.11-12.4 Determine the meaning of words and phrases as they are used in the text, including

figurative and connotative meanings; analyze the impact of specific word choices on meaning and tone, including words with multiple meanings or language that is particularly

fresh, engaging, or beautiful. (e.g., Shakespeare as well as other authors.)
Analyze a case in which grasping a point of view requires distinguishing what is directly stated in a text from what is really meant (e.g., satire, sarcasm, irony, or understatement).
Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with peers on grades 11–12 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively.
Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, assessing the stance, premises, links among ideas, word choice, points of emphasis, and tone used.
Adapt speech to a variety of contexts and tasks, demonstrating a command of formal English when indicated or appropriate.
Use context (e.g., the overall meaning of a sentence, paragraph, or text; a word's position or function in a sentence) as a clue to the meaning of a word or phrase.
Interpret figures of speech (e.g., hyperbole, paradox) in context and analyze their role in the text.
Analyze nuances in the meaning of words with similar denotations.
Communicate clearly and effectively and with reason.
Utilize critical thinking to make sense of problems and persevere in solving them.
Plan education and career paths aligned to personal goals.
Use technology to enhance productivity.
Educational Technology: All students will use digital tools to access, manage, evaluate, and synthesize information in order to solve problems individually and collaborate and to create and communicate knowledge.
Locate, organize, analyze, evaluate, synthesize, and ethically use information from a variety of sources and media.
Evaluate and select information sources and digital tools based on the appropriateness for specific tasks.
