## Unit Overview

---

A manipulative skill is one in which a child handles an object with the hands, feet, or other body parts. Manipulative skills are basic to the development of sport skills; throwing, catching, bouncing, rolling, kicking, and striking (with and without an object).

## Transfer

---

Students should understand how learning manipulative skills correlate with everyday life. Ask students why it is important to learn how to throw or catch, help explain to them the importance of these skills.

## Meaning

---

## Understandings

---

Students will know the mechanically efficient patterns of the manipulative skills.

## Essential Questions

---

How do manipulative skills help your overall coordination?

How can good sportsmanship create a safe environment?
