

Where in The World...?

Volume 1

Directions: Read each statement below. Each statement describes a natural or manmade landmark someplace in the world. As you read each statement, ask yourself *What are the key words in the statement?* Use library or Internet resources -- and those key words -- to figure out which landmark each statement describes. Write the name of each landmark on the correct line next to the statement.

_____ 1. This London palace is the official home of Her Majesty, the Queen of England.

_____ 2. In Rome, huge crowds witnessed sporting events in this amphitheater built around 75 A.D.

_____ 3. This metal structure rises above the city of Paris. When it was built in 1889, it was the tallest building in the world.

_____ 4. More than 10 million bricks were used to build this New York City landmark in 1931. Today, it is the tallest building in the city.

_____ 5. In 1953, Edmund Hillary and Tenzing Norgay were the first two people to stand at the top of this mountain -- the tallest mountain in the world.

_____ 6. In Arizona, this natural landmark of colorful rock is 4,000 feet deep.

_____ 7. This St. Louis, Missouri, landmark was built in 1965 as a monument to the first pioneers who settled west of the Mississippi River.

_____ 8. Located in New York Harbor, this famous symbol of freedom was a gift to the United States from the people of France in 1886.

_____ 9. Each second, about 150,000 gallons of water pour over these falls on the United States-Canada border.

_____ 10. It took 14 years for 400 workers to carve the heads of four great U.S. presidents into this South Dakota landmark.

BONUS!

_____ Probably the most famous landmark in London, England, the bells of *this clock* ring on England's "Houses of Parliament" building.
