

Fundamentals - Writing Biography

Content Area: **English Language Arts**
Course(s): **Generic Course**
Time Period: **6 weeks**
Length: **6-8 Weeks**
Status: **Published**

Unit Overview

The word “biography” comes from Greek words meaning “life” and “write.” Studying biography gives students the opportunity to read and learn about various inspirational people who have made a difference to many. As writers of biographies, students will express their opinions about the subjects they write about and include researched facts and details that highlight the subjects’ achievements and influences. Biographers write about people who interest and inspire them. Through biographies, writers express their points of view or opinions about a subject—typically one they hold in high regard. People they admire and respect from the past or present are worthy subjects for students’ biographical writing.

In this unit of study, students will explore the purposes and features of biographies as both readers and writers. As students listen to the various mentor texts, they will examine the differences and similarities among these features and how they influence readers. Students will analyze the structure of biographies and take note of how some chronicle a person’s life, from birth to death, while others focus on a particular time or achievement. Students will also see how different biographers present the important events, accomplishments, struggles, and personal traits of a person’s life, as well as how they use word choices and tone to convey their admiration for and opinions of the people they write about. The biographies students publish will express their opinions of and information about subjects of their choice.

The biographies selected for this unit give students a chance to explore inspirational people who lived during various time periods, came from different cultural backgrounds, and had various influences on a variety of topics and/or issues such as sports, politics, human rights, the environment, literature, and beyond. The books in this unit of study can be used seamlessly within your social studies, science, art, and reading curricula, as well.

Transfer

Meaning

Understandings

Students will...

- What specifically do you want students to understand?
- What inferences should they make/grasp/realize?

Interact with engaging texts in meaningful ways as they build knowledge of various topics, genres, authors, and purposes of writing.

Read like writers and try to write every day.

Engage in daily discussions with one another about the texts they read and what they write.

Write often about their own ideas while considering the text type and purpose.

Learn how to use primary and secondary sources to gather information; becoming immersed in their ideas and topics as they read, research, discuss, and write.

Get excited about preparing to publish a piece of writing for an audience to read and enjoy!

Understand how to organize and apply the writing process in order to formulate a biography writing piece.

Understand to read (sometimes aloud), revise, and edit their writing often while making connections to grammar conventions/text structure.

Take pride in their work well using publishing techniques and features identified in mentor texts and other materials.

Present their pieces to an audience of peers and/or adults while providing and receiving positive feedback.

Feeling proud what they have accomplished!

Essential Questions

Students will keep considering...

-What thought provoking questions will foster inquiry, meaning making and transfer?

What do you notice about how authors:

- Introduce the subjects they are writing about. How does each text begin? Do you get a sense of the author's opinion of the subject from the beginning? How does the introduction engage readers?
- Structure or organize the text. Is it told in chronological order? How much time spans the texts from beginning to end?
- Include facts and details. What type of research is included? What do the facts and details show us about the subject?
- Conclude the text. Does the author's ending connect to or restate the opinion or point of view? Is it explicitly stated or inferred?
- Include extra information, such as an Author's Note, visuals, time lines, a Bibliography, etc.
- Provide insight in Dedications and Acknowledgements. What does this make you think about the author's purpose? Inspiration? Research process?

Accommodations & Modifications

Before the read, discuss and explain the words "famous" and "dedicated," as these are two words used in the lesson to describe both subjects.

During the read, provide students with the following sentence stems in order to participate in a discussion about Roberto Clemente:

- I learned that Roberto Clemente was ___.
- I think that Roberto Clemente was a ___ person because ___.

As you read *A Picture Book of Cesar Chavez*, keep a chart organizing the "main idea and supporting details" structure.

After the read, provide students with the following sentence stem to help them while talking with their partners:

- The biography writing style I would like to try is ___ because ___.

Students will also need to understand the following vocabulary words in order to participate in this lesson: rights, granted, cause, courage, injustice, fortunate.

After the lesson, work with English language learners in a small group to help them brainstorm ideas and answer the questions on the Appendix "My Passion, My Person." Some of the vocabulary words that you might want to focus on to help create meaning include the following: inspire, role models, passionate, issues, activists, environmental protectors, admire.

Accommodations & Modifications

English language learners will not understand the meanings of the phrases and similes "a fever to play and win baseball," "smacked the first pitch," and "ran like lightning," so it is a good idea to discuss these phrases prior to or during the lesson. This will allow the students to understand how the author captures readers' attention.

Meet with a small group of students to compose a shared text about a known subject using opening techniques. Ask students to choose which openings they want to try together. Then think aloud, provide examples and language that use the chosen techniques, and record them on chart paper.

You can also encourage students to return to their list of attributes and pick one that describes his or her subject.

Conference Questions

What is the most important thing for your readers to know about your subject as they read the ending of your piece?

Why do you think it's important for others to know about your subject? What are you trying to teach your readers?

Mini-Lesson 12 Target: Revising I: Linking It All

Prepare students prior to the lesson by looking closely at the biographies they are reading in a small group. Allow them to use the "Dates and Details" chart with one or more of the biographies at their reading level.

After the lesson, have students create a basic time line to help determine important dates to add to their writing. Distribute copies of the Appendix "Time Line." Students can add this time line to their published biography.

Accommodations & Modifications

If possible, use one of your English language learners' drafts to model using the revision checklist. You might want to ask the student if he or she is comfortable with this first. The vocabulary on the checklist should be reviewed with students during the mini-lesson: quote, influence, challenges, struggles, accomplishments. If you are keeping a chart of instructional vocabulary, point out these words and discuss them.

Encourage your students to add an illustration to their biographies.
