Content Area: **English Language Arts**  
Course(s): **Generic Course**  
Time Period: **6 weeks**  
Length: **6-8 Weeks**  
Status: **Published**

## Unit Overview

---

Readers of all ages are drawn to fiction, and it may very well be the genre students are most likely to choose as they search through a library or bookstore. Fiction stories are typically the stories your students will be most familiar with. These are the stories they remember hearing when they were younger—the stories told and retold from generation to generation, from one culture to another. Each story takes you on a journey, an adventure, and an experience with memorable characters and events. The world is full of stories, and through stories we learn about ourselves and others.

Fiction encompasses many different types of stories—fantastical, magical, traditional, historical, mythological, or realistic. There is something for everyone. Fiction transports readers to an imaginary place and time, into a world that may feel familiar or foreign. Fiction writers are storytellers who aim to entertain, provide enjoyment, demonstrate a moral, reveal human nature, kindle the imagination, or explain aspects of life, culture, and nature. Anything is possible when you read fiction, as skillful writers capture your imagination. When it comes to reading, you can't get any better than that!

Part of the magic in any unit of study is exposing students to possibilities within a genre. By reading and studying different types of fiction (fantasy, traditional, and realistic), students will develop an understanding of various forms, features, and purposes of fiction. Their reading of fiction texts will be enhanced by an understanding of the narrative structure, story elements, and themes associated with each particular type of fiction writing. Students will also learn and apply specific reading skills and strategies that will enable them to visualize magical lands, infer characters' feelings and traits, identify the author's message, and actively engage with the texts they read.

**After completing interactive lessons teacher should begin the writing workshop Narrative Writing/Cynthia Rylant author study.**

## Transfer

## **Application of Knowledge and Skill**

---

### **Students will know...**

---

Students will know...

- Text features and structures
- Word meaning through use of context clues
- How to make an inference
- Determine important information
- Synthesize text

### **Students will be skilled at...**

---

Students will be skilled at...

What discrete skills and processes should students be able to use?

- Synthesizing: Good readers synthesize or combine important textual information with existing knowledge or summarize what was read and form new ideas or opinion.
- Text Features and Structures: Good readers are better able to recognize and understand text when they are familiar with text structure and genre features (e.g., story elements, characters, plot, setting problem/solution, cause/effect, temporal sequence, illustrations, Table of Contents, headings, bold

print, Index, captions, etc.)

- Finding Word Meaning (Vocabulary): Good reader use context clues to find the meaning of unfamiliar words. Good readers possess a broad range of domain-and academic-specific vocabulary, fostering deeper understanding of topics and subjects.
- Making Inferences: Good readers use prior knowledge and textual information to draw conclusions, make predictions, and form interpretations.
- Determine Importance: Good readers identify key ideas, themes, or topics and distinguish between important and unimportant information.
