

Fundamentals - Writing NonFiction

Content Area: **English Language Arts**
Course(s): **Generic Course**
Time Period: **6 weeks**
Length: **6-8 Weeks**
Status: **Published**

Unit Overview

Nonfiction is the genre that will dominate most students' educational and vocational lives; it is likely the most useable genre for writing letters, e-mails, essays, reports, reviews, and summaries. With nonfiction, students will examine certain subjects and topics as they begin to learn more about them through studying and writing nonfiction. Literary nonfiction provides fourth graders with the experiences necessary to begin to blend writing craft with facts and to subsequently produce texts that are both engaging and informative. Students in this age group delight in their abilities to become experts on a topic and to teach their audience in the same ways that books and teachers have instructed them.

The mentor texts in this unit will serve as inspiration for how each of your students will craft a writer's life within and outside your classroom. The books in this unit, which are introduced during the immersion phase and are then returned to for specific mini-lessons, will allow students to examine informational text structures and features that in turn they will use to craft their own informational, nonfiction texts.

This unit will demonstrate how nonfiction writers think, how they research topics, and how they convey ideas and information clearly. Through reading and writing nonfiction, students will come to understand the kinds of texts nonfiction writers create and decisions nonfiction writers make about content, structure, language, and visuals. Writing informative texts begins with educating yourself and ends with educating others.

The Writing Fiction Unit should begin after completing the interactive lessons in Reading-nonfiction.

Transfer

Students will be able to independently use their learning to...

-What kinds of long term, independent accomplishments are desired?

- Identify common nonfiction features and their purposes
- Read nonfiction texts and contemplate the author's process or type of research that went into creating a published piece
- Utilize various nonfiction text structures when reading and writing
- Explore different nonfiction topics through reading, asking questions, and having collaborative

discussions

- Select and focus on a nonfiction topic to examine and develop
- Develop a topic with facts, definitions, and concrete details
- Include formatting and illustrations that organize and relate to the topic
- Introduce a topic clearly and group related information into paragraphs or sections, using linking words and phrases
- Provide a concluding sentence or section that relates to the information presented and is modeled after a mentor text
- Strengthen their writing as needed by planning, revising, and editing
- Use technology to research and publish their writing
- Publish a nonfiction piece of writing in which the develop

Meaning

Understandings

Students will understand that...

- What specifically do you want students to understand?
- What inferences should they make/grasp/realize?

Students will examine informational text structures and features that will help them to craft their own informational, nonfiction texts.

Students will come to an understanding of the kinds of texts nonfiction writers create and decisions nonfiction writers make about content, structure, language and visuals.

Essential Questions

Students will keep considering...

-What thought provoking questions will foster inquiry, meaning making and transfer?

- What topic does the text examine? Are there subtopics?
- Is there a specific angle the author takes on the topic? Does the topic have a tight focus, or is it broad?
- What structure(s) does the author use to organize the text? For example, is there an overarching question with answers, an all-about or list structure, a how-to or narrative procedure structure, or a narrative or story structure?
- What features does the author use to organize the information so it is easier to read and understand? For example, is there an introduction page, a Table of Contents, headings, captions, sections, paragraphs, labels, and/or an Index?
- Does the author use literary language to engage readers and create an image of the topic? For example, are there descriptive or sensory details and precise, concrete language?
- Does the author use visuals to enhance the text? For example, are there photographs, diagrams, maps, charts, and/or detailed illustrations?
- Does the author's voice or personality come through? Note how some authors use an authoritative voice, text with many facts, and domain-specific vocabulary. Some use humor, text with anecdotes, facts and opinions, and/or humorous illustrations.
- How does the author end the text? Are there extra features to read and explore?

Application of Knowledge and Skill

Students will know...

Students will know...

What facts and basic concepts should students know and be able to recall?

Students will understand and apply the premise that nonfiction, informational texts are written to examine a particular topic and convey ideas and information in a systematic way; including using formatting and features that organize information logically, emphasize key ideas and list sources used to research the topic.

Students will know that writing is a process in which each step builds upon previous steps until a final

published piece is created.

Students will be skilled at...

Students will be skilled at...

What discrete skills and processes should students be able to use?

- Writing with purpose and meaning
- Consistently and effectively groups facts and related information into paragraphs and sections
- Structure and organize their writing with clear and effective transitions
- Consistently and effectively includes nonfiction text features to organize information and aid comprehension (illustrations, headings and/or multimedia)
- Effectively use craft/style to enhance writing
- Use grade appropriate conventions

Learning Goal 1

Students will analyze mentor text to understand the structure of nonfiction text and to generate

individual ideas for a nonfiction writing piece.

Immersion IRA Day 1 Target: Exploring Nonfiction

- Students will build excitement for this unit and for the nonfiction inquiry by previewing all the mentor texts and reading one closely.
- Students will learn that the mentor texts are nonfiction, informational texts, which are written to examine a particular topic and convey ideas and information in engaging ways. A close look at *Ape* by Martin Jenkins will be used to introduce students to effective nonfiction features.

LA.W.4.2	Write informative/explanatory texts to examine a topic and convey ideas and information clearly.
LA.W.4.4	Produce clear and coherent writing in which the development and organization are appropriate to task, purpose, and audience. (Grade-specific expectations for writing types are defined in standards 1–3 above.)
LA.W.4.5	With guidance and support from peers and adults, develop and strengthen writing as needed by planning, revising, and editing.
LA.W.4.7	Conduct short research projects that build knowledge through investigation of different aspects of a topic.
LA.W.4.8	Recall relevant information from experiences or gather relevant information from print and digital sources; take notes and categorize information, and provide a list of sources.
LA.W.4.9	Draw evidence from literary or informational texts to support analysis, reflection, and research.
LA.W.4.9.A	Apply grade 4 Reading standards to literature (e.g., “Describe in depth a character, setting, or event in a story or drama, drawing on specific details in the text [e.g., a character’s thoughts, words, or actions].”).
LA.W.4.9.B	Apply grade 4 Reading standards to informational texts (e.g., “Explain how an author uses reasons and evidence to support particular points in a text”).
LA.W.4.10	Write routinely over extended time frames (time for research, reflection, metacognition/self-correction and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.
LA.SL.4.1	Engage effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grade 4 topics and texts, building on others’ ideas and expressing their own clearly.
LA.SL.4.1.A	Explicitly draw on previously read text or material and other information known about the topic to explore ideas under discussion.
LA.SL.4.1.B	Follow agreed-upon rules for discussions and carry out assigned roles.
LA.SL.4.1.C	Pose and respond to specific questions to clarify or follow up on information, and make comments that contribute to the discussion and link to the remarks of others.
LA.SL.4.1.D	Review the key ideas expressed and explain their own ideas and understanding in light of the discussion.
LA.SL.4.2	Paraphrase portions of a text read aloud or information presented in diverse media and formats (e.g., visually, quantitatively, and orally).

LA.SL.4.3	Identify the reasons and evidence a speaker provides to support particular points.
LA.SL.4.4	Report on a topic or text, tell a story, or recount an experience in an organized manner, using appropriate facts and relevant, descriptive details to support main ideas or themes; speak clearly at an understandable pace.
LA.SL.4.6	Differentiate between contexts that call for formal English (e.g., presenting ideas) and situations where informal discourse is appropriate (e.g., small-group discussion); use formal English when appropriate to task and situation.
LA.L.4.1	Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.
LA.L.4.1.F	Produce complete sentences, recognizing and correcting inappropriate fragments and run-ons.
LA.L.4.2	Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.
LA.L.4.2.D	Spell grade-appropriate words correctly, consulting references as needed.
LA.L.4.3	Use knowledge of language and its conventions when writing, speaking, reading, or listening.
LA.L.4.3.A	Choose words and phrases to convey ideas precisely.
LA.L.4.4	Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on grade 4 reading and content, choosing flexibly from a range of strategies.
LA.L.4.4.A	Use context (e.g., definitions, examples, or restatements in text) as a clue to the meaning of a word or phrase.
LA.L.4.4.B	Use common, grade-appropriate Greek and Latin affixes and roots as clues to the meaning of a word (e.g., telegraph, photograph, autograph).
LA.L.4.4.C	Consult reference materials (e.g., dictionaries, glossaries, thesauruses), both print and digital, to find the pronunciation and determine or clarify the precise meaning of key words and phrases.
LA.L.4.5	Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.
LA.L.4.5.C	Demonstrate understanding of words by relating them to their opposites (antonyms) and to words with similar but not identical meanings (synonyms).
LA.L.4.6	Acquire and use accurately grade-appropriate general academic and domain-specific words and phrases, including those that signal precise actions, emotions, or states of being (e.g., quizzed, whined, stammered) and that are basic to a particular topic (e.g., wildlife, conservation, and endangered when discussing animal preservation).

Accommodations and Modifications

Have students conduct a nonfiction "scavenger hunt" using the Appendix "Nonfiction Features Chart," but add an additional column called "How It Looks." Students should use this column to put an example of each feature they find in a book.

Formative Assessment Opportunities

Formative Assessment Opportunities

Accommodations and Modifications

After the read, show students how to use the Appendix "Observing Visuals" to record what they observed in the mentor texts. Students can also record their observations and ideas as they look through more nonfiction books. Students will refer to this chart later on as they write.

Response in Writer's Notebook

Accommodations and Modifications

After the read, once students have chosen a topic, have them brainstorm words and terms they know on a bubble map (see the Appendix "Words and Terms I Know"). Students can then take each word and create a mini picture dictionary (see the Appendix "Picture Dictionary"). Students may use these words when they write their nonfiction piece later in the unit.

Learning Goal 2

Students will conduct research on a topic of their choice, and independently produce a clear, coherent nonfiction writing piece.

Conference Questions

What kind of firsthand experience do you have with this topic?

In what ways could you observe your subject?

What kinds of things have you read?

What subjects do you have the most access to?

Accommodations and Modifications

Work with English language learners either right before or after this lesson to create a shared list of passions or fascinations that can be observed in school. Choose something from the list that you can model observing for students, using your senses and writing what you observe. Then have students work with a partner to observe another topic from the list for about 10 minutes. They should record their observations.

Recording observations will require frequent use of the simple present verb tense. Emphasize the third-person

singular and the addition of the "-s" or "-es" at the end of verbs when needed.

Mini-Lesson 3 Target: Generating Ideas: Topics we are Curious About

- Students will consider topics they are interested in researching and reading more about.

Accommodations and Modifications

As students prepare to write their curiosities in question form, review the five "W" questions and "How" and the kinds of information each one helps people obtain. In addition, emphasize the structure of a question: "Queens have so many rubies" (Q = question word, H = helping verb, S = subject, M = main verb, R = rest of the question).

Formative Assessment Opportunities

Conference Questions

Do you think you can do primary research on this topic?

Are you interested in reading more about this topic?

Can you envision what you would like to write and who might read it?

Accommodations/Modifications

During independent writing, after students have put symbols next to their topics, guide them to go back and think about how they can get the necessary information to write more about the topics. They can put a "1" next to those topics they think they could observe and a "2" next to topics they think they will need to research by reading various sources. The topic(s) that have both "1" and "2" might be the best to select. This modeling can also be incorporated into the lesson.

Mini-Lesson 5 Target: Collecting: Questions Lead to Good Research

- Students will consider what they know and questions they have about their topics to determine the research they will need to conduct.

LA.W.4.2	Write informative/explanatory texts to examine a topic and convey ideas and information clearly.
LA.W.4.4	Produce clear and coherent writing in which the development and organization are appropriate to task, purpose, and audience. (Grade-specific expectations for writing types are defined in standards 1–3 above.)

LA.W.4.5	With guidance and support from peers and adults, develop and strengthen writing as needed by planning, revising, and editing.
LA.W.4.7	Conduct short research projects that build knowledge through investigation of different aspects of a topic.
LA.W.4.8	Recall relevant information from experiences or gather relevant information from print and digital sources; take notes and categorize information, and provide a list of sources.

Formative Assessment Opportunities

Were you surprised at the number of things you need to find out?

Where can you find the answers to some of these questions?

Accommodations and Modifications

To help students come up with questions that relate to their topic and questions that can be answered, use the question starters found on the Appendix "So Many Questions!" Create a student-friendly chart that students can refer to when writing their own questions about their topics. Guide students to choose the starters that connect to their selected topics.

Conference Questions

What kind of setting do you want to observe your subject in?

How will you conduct this research?

What materials will you need?

When will you do this research?

How will you record the details, information, and examples you observe through your investigation?

Accommodations and Modifications

Distribute copies of the Appendix "Questions and Answers" and model for students how to record their questions on it. Guide them on finding answers to their questions from primary resources. The third column will be filled in by students as they complete their research. This chart will help organize their questions, planning, and research.

Conference Questions

What kinds of facts do you think your writing should include?

What questions do you need to research?

NOTE: Please note that, at this point, students are set up to conduct both primary and secondary research on their topics. Additional time and guidance will be needed in order to conduct this short nonfiction research project. This process will take additional days.

Accommodations and Modifications

Continue using the Appendix "Questions and Answers" chart from the previous lesson and guide students through discovering how they can find answers to their questions from secondary resources.

When students are researching their facts, have them code each one with the following symbols, using a different colored pencil or pen:

- ! = a WOW fact or something interesting
- ✱ = a fact that supports a statement that is made

Coding the facts in their drafts will help students determine if more specific details are needed and will also help reveal to them why these details are being added as they work on revising later in the unit.

Mini-Lesson 8 Target: Collecting: Considering Purpose and Audience

- Once information has been gathered through both primary and secondary research, students will consider their audiences and purposes for writing before they begin their drafts.

Conference Questions

Who do you think your audience will be?

What is the message you are getting across?

Accommodations and Modifications

Explain the word "purpose" by making connections to reasons why students do things in their everyday lives. For example:

- What is the purpose or reason why teachers give homework? Teachers want their students to practice and learn important skills.
- What is the purpose or reason why there are school and classroom rules? So children are safe and respectful.
- What is the purpose or reason why you are writing about ___? I am writing about ___ because I want to ___.

Refer back to various mentor texts from the unit, reading excerpts to have students practice identifying each author's purpose for writing nonfiction. Chart their responses while referring to the Appendix "Purposes for Writing Nonfiction." Engage students in discussions about finding the evidence within the text that supports their thinking about the author's purpose and consideration of the audience.

Mini-Lesson 9 Target: Drafting: Introduction

- Students will evaluate various types of introductions and select the most appropriate and engaging one for their nonfiction pieces.

LA.W.4.1	Write opinion pieces on topics or texts, supporting a point of view with reasons and information.
LA.W.4.2	Write informative/explanatory texts to examine a topic and convey ideas and information clearly.

LA.W.4.3	Write narratives to develop real or imagined experiences or events using narrative technique, descriptive details, and clear event sequences.
LA.W.4.4	Produce clear and coherent writing in which the development and organization are appropriate to task, purpose, and audience. (Grade-specific expectations for writing types are defined in standards 1–3 above.)
LA.W.4.5	With guidance and support from peers and adults, develop and strengthen writing as needed by planning, revising, and editing.

LA.W.4.9.B	Apply grade 4 Reading standards to informational texts (e.g., “Explain how an author uses reasons and evidence to support particular points in a text”).

Conference Questions

What introductions are you considering for your piece? Why do you think that would work?

What do you want your readers to think and feel as they begin your nonfiction text?

What is the purpose of your introduction?

Accommodations and Modifications

As students turn and talk with their partners, listen in and guide them to try an introduction they will be most successful at writing. For example, describing the topic or setting and asking questions are two strategies they have practiced previously in this unit and can easily be modeled.

Conference Questions

What structure are you using for your draft?

Is this the structure that's best suited for your purpose and audience?

Why do you think this will be a good structure for your writing?

Accommodations and Modifications

As you present this lesson, complete the chart of the Appendix "Book Structures" with students. Look at simpler nonfiction texts for English language learners to read and identify the text structures. This will provide more opportunities for students to recognize and internalize the three writing structures (journey or narrative, question and answer, and sections or chapters). For each example, write the title of the book and, if possible, take a picture or photocopy an example, print it out, and place it in the appropriate column.

Conference Questions

What kinds of authentic details will you include in your writing?

How do you think authentic details help you as a reader?

Where did you use precise language and specific vocabulary about your topic?

Accommodations and Modifications

Work with your English language learners before this lesson to identify places in their drafts where their writing is vague. Give examples of vague language versus precise language. Brainstorm various possibilities together using a shared piece of writing or a student's draft. Then have students highlight vague words or phrases in their drafts so they will be prepared to revisit and revise those parts during independent writing.

Conference Questions

What kinds of setting details are you including?

The writing techniques we noticed Jean using can be used in many places in your writing to create strong images. Is there any place in your writing where you could try one of her techniques?

What is one thing that you think should stand out for your readers and create strong mental images?

Accommodations and Modifications

Focus on two writing techniques that George uses, such as coupling adjectives and strong verbs. Teach the language structure that, in English, adjectives come before the verbs they describe. In addition, coupled adjectives need to be separated by a comma. Write a few verbs and adjectives on separate cards. Also write a comma on one index card. Have students practice ordering the adjectives with the verbs, including the comma between words.

You can also model how to use a thesaurus to find descriptive adjectives and strong verbs.

Formative Assessment

Conference Questions

Whom did you decide to dedicate your work to? Why?

Which of the Dedications that we read today inspired you to write yours?

Why did you decide to write this piece? Why was it important to teach others about your subject?

Are there other things in your life (activities you are involved in, clubs you belong to, books you enjoy reading, shows you enjoy watching, places that you visit) that relate to your topic (like Martin's job relates to his topic)? How did that influence your writing?

Accommodations and Modifications

Provide some sentence stems for the students' Dedications. For example:

- "I dedicate this book to ___ because ___."
- "To __, __, and __ for ___."

Complete some examples with students' input.

Mini Lesson Target 18: Student Self-Reflection

- Students will complete a self-assessment questionnaire to help them understand how they have grown as writers.

Formative Assessment

Conference Questions

Use students' completed questionnaires to guide your conferences.

Accommodations and Modifications

Administer the "Student Self-Assessment Questionnaire" to students in a small group or one at a time. Students might need to verbally share their answers to you first to provide the most introspective and complete reflections.
