

Track and Field II (7)

Content Area: **Physical Education**
Course(s): **Physical Education**
Time Period: **4th Marking Period**
Length: **3 Weeks**
Status: **Published**

Track and Field

Track and Field is a great activity to build a student's cardiovascular endurance, muscular strength and flexibility as well as their ability to cooperate with teammates to achieve a common goal. In this unit, students will learn the rules and movement skills to successfully participate in several track and field events.

Transfer

Students will be able to independently use their learning to...

- Participate successfully in individual and cooperative track and field activities to enjoy the physical, social and mental benefits of exercise. These track and field activities are meant to improve their overall health and wellness.
