Lacrosse II

In this unit, students will continue to refine their skill technique and be introduced to team strategies to succeed in a game setting for Lacrosse. Students will practice cradling against a defender to maintain possession, throwing and catching a ball with a lacrosse stick in a game situation and scooping against an opponent. Students will also take a leadership role by evaluating classmates on their skill performance and give feedback to help students improve their skill level.

Transfer

Students will be able to independently use their learning to...

- participate successfully in a game of Lacrosse and enjoy the physical, social and mental benefits of the game to improve their overall health.

Meaning

Understandings

Students will understand that...

- in order to maintain possession of the ball during a game, you need to be able to cradle, throw and catch with proper technique.

- by watching and evaluating a classmate performing a skill, they in turn are gaining knowledge to help them perform the skill themselves.

- cooperation and teamwork are essential skills that you will need for the rest of your life.

Essential Questions

Students will keep considering...

- what impacts movement skill performance other than practice and effort?
- what self-initiated behaviors promote personal and group success?
- how movement activities provide a timeless opportunity to connect with other people?
