

Unit 8: The Civil War ("The Civil War") Grade 8

Content Area: **Social Studies**
Course(s): **Generic Course**
Time Period: **4 weeks**
Length: **May**
Status: **Published**

Unit Overview

At the start of the Civil War, both the North and the South had strengths and weaknesses. The North, however, had a larger population and industries that could make war supplies. The Union and the Confederacy had different plans for winning the war. Early on, the Confederacy won some important eastern battles, but the Union had victories in the west. Lincoln issued the Emancipation Proclamation, which freed slaves in Confederate states under Union control. African American soldiers and civilians played an important role in the war. New technologies added to the horror of the war. On both sides civilians and soldiers suffered. The southern economy fell into ruin. Many women contribute to the war effort. Grant's plan for total war produced a string of important Union victories. Lincoln was reelected in 1864. The war's end in 1865 represented a turning point in American History.
