Rationale & Transfer Goals

Students entering first grade should have some understanding of rules and responsibilities that they learned from kindergarten. In first grade we will continue to work with school rules and responsibilities and explain why rules are needed in a school. Students will state and understand the relationship between problem and solution and become problem solvers. Students will be able to give examples of community laws and explain the responsibilities of citizens. They will understand what leaders do and name main leaders in our government. We will focus on following the Golden Rule and apply it to real life situations. Students will participate in voting activities and understand how voting helps us decide things. Students will understand the importance of treating others with respect, and give examples of rights we enjoy. Students will define sportsmanship and identify rules that help people work and play together.

Intersections of History

This section will highlight for students how rules and laws are meant to protect all citizens but in some cases they affect groups differently. Each section below will list a member of that specific community and show how they have been affected differently. Students will learn about these specific groups by reading a piece of literature and have discussions about them.

Black: Students will read the story *If A Bus Could Talk* by Faith Ringgold about Rosa Parks and see how rules and laws affected her and other African Americans differently.

Hispanic: Students will read the story *Harvesting Hope* by Kathleen Krull about Cesar Chavez and learn how migrant workers were affected differently by rules and laws.

Women: Students will read *I Am Susan B Anthony* by Nancy Parent and learn how she was a women's right activist. Students will see how different women were treated during this time.

LGBTQ: Students will read the story *Speak Up* by Miranda Paul and learn that challenging a rule that isn't fair can help make the world a better place.
