## NJSLS - Social Studies

---

SOC.6.1.5.GeoPP.2	Describe how landforms, climate and weather, and availability of resources have impacted where and how people live and work in different regions of New Jersey and the United States.
SOC.6.1.5.GeoSV.4	Use a variety of geographic representations to describe the similarities and differences between places in New Jersey, the United States and the world (e.g., maps, data visualizations, graphs, diagrams, aerial and other photographs, GPS).
SOC.6.1.5.HistoryCC.1	Analyze key historical events from the past to explain how they led to the creation of the state of New Jersey and the United States.

## Rationale & Transfer Goals

---

This unit will focus on gaining understanding of their state of New Jersey. Students will learn that New Jersey is in the Northeast region of the United States and is made up of many landforms (mountains, plains, rivers). Students will learn about New Jersey's economy and how it created and provides goods, services, jobs and a variety of industries. This unit will explain how European Migration (New Jersey) caused conflict with Native Americans. Students will also gain knowledge of the events that helped to shape the culture of New Jersey. New Jersey is a culturally diverse state with its own state level government and its citizens have rights and responsibilities to their local, state, and national government.
