

Lindenwold Public School

Course Name: English Language Arts/Social Studies	Grade Level(s): Kindergarten
Department: n/a	Credits: n/a
BOE Adoption: September 2025	Revision(s):

Course Description

This cross-curricular course combines English Language Arts and Social Studies to provide students with a rich, connected learning experience. The curriculum is designed to build strong background knowledge in key social studies concepts while developing essential literacy skills. Students will explore topics in history, civics, geography, and economics through engaging texts, discussions, and hands-on activities that foster critical thinking and meaningful connections across subjects.

Writing is embedded throughout the lessons, allowing students to respond to content, develop arguments, and share their ideas using evidence and academic vocabulary. In addition to comprehension and writing instruction, the curriculum includes a focused phonics and phonemic awareness component to support foundational reading skills. This instruction is guided by a structured phonics program, UFLI, and phonemic awareness program, Heggerty, both detailed in a separate document.

Vocabulary development is a core part of each unit, helping students grow their language skills and better understand complex concepts. By integrating reading, writing, listening, speaking, and content knowledge, this curriculum supports a well-rounded approach to literacy and social understanding, preparing students to think deeply and communicate effectively.

Lindenwold School District Mission Statement:

The Lindenwold School Community is committed to preparing all students to meet the New Jersey

Student Learning Standards and providing a safe, academically challenging, child-centered environment where all students will solve problems, develop a sense of self-worth, and embrace life-long learning whereby they become productive citizens and members of their community.

Curriculum and Instruction:

Lindenwold School District offers a rich, challenging, and comprehensive curriculum, from pre-kindergarten through 12th grade.

The curriculum is designed to provide students with many learning experiences that will enable them to succeed and attain fulfillment. The curriculum of Lindenwold School District is reviewed and revised on a regular basis. The cycle includes 5 stages: Review, Development, Implementation, and Evaluation.

To ensure the district continues to work towards its mission, the following curriculum and instruction goals direct our conversation:

- To ensure students are college, career, and/or military ready upon graduation.
- To provide career pathway opportunities to students.
- To vertically and horizontally align curriculum K-12 to ensure the successful transition of students at each grade level.
- To identify individual students strengths and weaknesses utilizing various assessment measures (formative, summative, alternative, etc.) so as to differentiate instruction while meeting the rigor of the applicable NJSL.
- To improve student achievement as assessed through multiple measures including, but not limited to, state testing, local assessments, and benchmarking.

How to read this document:

This document contains a pacing guide and curriculum units. The pacing guides serve to deliver an estimated timeframe as to when noted skills and topics will be taught. The pacing of each course, however, will differ slightly depending upon the unique needs of

each class. The curriculum units contain more detailed information as to the specific skills and concepts that are introduced as well as to how students will be assessed. The terms and definitions below will assist the reader in better understanding the sections and

components of this curriculum document.

Terms to Know:

1. **Accommodation(s)**: Accommodations are adaptations that do not alter the learning goal or standards being measured; accommodations can be for all students.
2. **Common Assessment**: When an assessment is used by many teachers rather than each teacher making their own assessment to measure student success. For example, all grade 6 ELA teachers may use the same summative assessment to measure student success on standards as opposed to each teacher making their own exam to measure those same standards.
3. **Differentiated Instruction**: Differentiation of instruction relies on the idea that instructional approaches should be tailored to each individual student's learning needs. It provides students an array of options during the learning process that allows them to make sense of ideas as it relates to them. The integration of differentiated instructional techniques is a curriculum design approach to increase flexibility in teaching and decrease the barriers that frequently limit student access to materials and learning in classrooms. Teachers can differentiate content, process, product, or environment. Differentiated instruction can be done according to students' readiness, interest, or learning profile.
4. **Enduring Understandings**: Enduring understandings ("Big Ideas") are statements of understanding that articulate deep conceptual understandings at the heart of each content area. Enduring understandings are noted alongside essential questions within each unit in this document.
5. **Essential Questions**: These are questions whose purpose is to stimulate thought, to provoke inquiry, and to spark more questions. They extend beyond a single lesson or unit. Essential questions are noted in the beginning of each unit in this document.
6. **Formative Assessment(s)**: Formative assessments monitor student learning to provide ongoing feedback that can be used by instructors to improve teaching and (2) by students to improve their learning. Formative assessments help identify students' strengths and weaknesses and address problems immediately.
7. **Learning Activity(s)**: Learning activities are those activities that take place in the classroom for which the teacher facilitates and the students participate to ensure active engagement in the learning process.
8. **Learning Assignment(s)**: Learning assignments are those activities that take place independently by the student inside the classroom or outside the classroom (i.e. homework) to extend concepts and skills within a lesson.
9. **Learning Goal(s)**: Learning goals are broad statements that note what students should know and/or be able to do as they progress through the unit. Learning goals correlate specifically to the NJSL (New Jersey Student Learning Standards) are noted within each unit.
10. **Learning Objective(s)**: Learning objectives are more specific skills and concepts that students must achieve as they progress towards the broader learning goal. These are included within each unit and are assessed frequently by the teacher to ensure students are progressing appropriately.

- 11. Standards:** NJ Department of Education explains, “Building on a robust body of research, the New Jersey Student Learning Standards (NJSLS) provide clear and consistent learning goals across nine distinct content areas to help prepare students for postsecondary success. The standards clearly demonstrate what students are expected to learn at specific grade levels and bands, so that every parent and teacher can understand and support student learning.” The curriculum is designed around these standards for each grade-level or course of study. Educational standards help teachers ensure their students have the skills and knowledge they need to be successful by providing clear goals for students' learning.
- State: The New Jersey Student Learning Standards (NJSLS) include Preschool Teacher and Learning Standards as well as K-12 Standards for Visual and Performing Arts; Comprehensive Health and Physical Education; Science; Social Studies; World Language; Technology; 21st-Century Life and Careers; Language Arts Literacy; and Mathematics.
- 12. Summative Assessment(s):** Summative Assessments evaluate student learning at the end of an instructional time period by comparing it against some standard or benchmark. Information from the summative assessment can be used formatively when students or faculty use it to guide their efforts and activities in subsequent lessons and/or courses.
- 13. Vocabulary:**
- a. Tier I:** Everyday vocabulary terms. Examples: house, car, big, happy
 - b. Tier II:** Terms with multiple meanings across content areas. Examples: analyze, cite, observe, evaluate, harmony
 - c. Tier III:** Domain-specific terms with specific meanings. Example: metaphor, atom, photosynthesis

New Jersey Student Learning Standards (NJSLS)

The New Jersey Student Learning Standards (NJSLS) provide clear and consistent learning goals across nine distinct content areas to help prepare students for postsecondary success. The standards clearly demonstrate what students are expected to learn at specific grade levels and bands, so that every parent and teacher can understand and support student learning. For a full overview of all nine content areas, click [HERE](#).

Integration of Financial Literacy

New Jersey's Technology Standard 9.1 Personal Financial Literacy

This standard outlines the important fiscal knowledge, habits, and skills that must be mastered in order for students to make informed decisions about personal finance. Financial literacy is an integral component of a student's college and career readiness, enabling students to achieve fulfilling, financially-secure, and successful careers.

- Strand A: Income and Careers
- Strand B: Money Management
- Strand C: Credit and Debt Management
- Strand D: Planning, Saving, and Investing

- Strand E: Becoming a Critical Consumer
- Strand F: Civic Financial Responsibility 28
- Strand G: Insuring and Protecting

Interdisciplinary Standards/Connections

District boards of education shall be responsible for the review and continuous improvement of curriculum and instruction based upon changes in knowledge, technology, assessment results, and modifications to the NJSLS, according to N.J.A.C. 6A:8-2. District boards of education shall include interdisciplinary connections throughout the K–12 curriculum.

21st Century Skills: Career Readiness, Life Literacies, and Key Skills:

These elements emphasize the growing need to focus on skills that prepare students to successfully compete in a global environment by focusing on the following: learning and innovation skills; information, media and technology skills; and life and career skills. These concepts are embedded in each unit of the curriculum.

Computer Science & Design Thinking:

New approaches necessary for solving the critical challenges that we face as a society will require harnessing the power of technology and computing. Rapidly changing technologies and the proliferation of digital information have permeated and radically transformed learning, working, and everyday life. To be well-educated, global-minded individuals in a computing-intensive world, students must have a clear understanding of the concepts and practices of computer science. As education systems adapt to a vision of students who are not just computer users but also computationally literate creators who are proficient in the concepts and practices of computers.

Climate Change

With the adoption of the [2020 New Jersey Learning Standards \(NJSLS\)](#), New Jersey became the first state in the nation to include climate change across content areas. These standards are designed to prepare students to understand how and why climate change happens, the impact it has on our local and global communities and to act in informed and sustainable ways. Districts are encouraged to utilize the NJSLS to develop interdisciplinary units focused on climate change that include authentic learning experiences, integrate a range of perspectives and are action oriented. Please click [HERE](#) for additional information regarding Climate Change.

State of New Jersey Mandates

History and Contributions of Individuals with Disabilities and LGBT Persons - 18A:35-4.35

In each curricular area, the district has adopted inclusive instructional materials that portray the cultural and economic diversity of society including the political, economic, and social contributions of persons with disabilities and lesbian, gay, bisexual, and transgender people.

- This standard is addressed via read alouds, class discussions and dialogue of inclusiveness, character growth and development, story mapping and plot, increasing representation of diverse characters, and real world connections.

Diversity, Equity, and Inclusion - N.J.S.A. 18A:35-4.36a

Instruction on the contributions of a diverse population of people, that may include, LGBTQ+, Asian American & Pacific Islanders, persons with disabilities, to the growth of science knowledge and practices over the years is discussed throughout the curriculum and are included in lessons and the variety of resources used.

Contributions, History, and Heritage of Asian-American and Pacific Islander Legislation (AAPI) - P.L. 2021, c.416

In each curricular area, the district will adopt inclusive instructional materials that portray the contributions of members of the Asian American and Pacific Islander communities . This will include books about and created by Asian American and Pacific Islanders.

Holocaust Law: N.J.S.A. 18A:35-28

Every board of education shall include instruction on the Holocaust and genocides in an appropriate place in the curriculum of all elementary and secondary school pupils. The instruction shall further emphasize the personal responsibility that each citizen bears to fight racism and hatred whenever and wherever it happens.

History and Contributions of African-Americans (Amistad Law) - N.J.S.A. 18A:35-4.43

Every board of education shall incorporate the information regarding the history and contributions of African Americans to our country in an appropriate place in the curriculum of elementary and secondary school students. This law was updated via N.J.S.A. 18A:35-4.43 to include: Every board of education shall include, in the curriculum of all elementary and secondary school students, instruction that infuses into all courses on the United States, the centuries of accomplishments by African Americans in the building and development of America including, but not limited to, the areas of industry, military, government, and the professions; local communities; math, science, medicine, and space; architecture and the arts; social institutions and culture; and other aspects of life in America.

Lindenwold Elementary Grading Guidelines

Elementary - Standards-Based Report Cards

Unit#1: Learning and Working Together	Pacing (Weeks): 5 weeks
<p>Unit Description:</p> <p>ELA: In this unit, students will explore school and community by learning about the places and people that make them important. They will develop key literacy skills such as understanding print concepts, recognizing the difference between storybooks and poems, and identifying different types of texts like informational books. Students will also learn how to connect new words to their everyday experiences and practice participating in discussions by listening and sharing ideas with others. Through these activities, they will strengthen their reading, speaking, and listening skills in the context of school and community.</p> <p>Social Studies: In this unit, students will explore the concepts of collaboration and working together. They will examine how schools and communities serve as places where people learn, work, and support each other. Through this, students will discover the roles of teachers, helpers, and community workers, as well as the importance of rules and respect. Additionally, they will begin to understand what it means to be a responsible citizen and practice accountability.</p>	

Essential Questions	Enduring Understandings
<p>Social Studies:</p> <ul style="list-style-type: none"> How do people best cooperate? <p>ELA</p> <ul style="list-style-type: none"> How do I use what I know about letters, words, and spaces to help me read and understand print? (<i>L.RF.K.1.A-D – Print Concepts</i>) How can I use new words to talk about the things I see and do every day? (<i>L.VI.K.3.C</i>) How do I use what I know about letters, words, and stories to help me read, understand, and talk about what I read? (<i>RL/RI.TS.K.4</i>) How do I listen, take turns, and share my ideas respectfully with others? (<i>SL.PE.K.1.A – Participating in Discussions</i>) 	<ul style="list-style-type: none"> People cooperate when they make decisions and work together to get a job. People are good citizens when they follow rules and laws. People cooperate, share ideas, listen to others, and work together to solve problems. Print follows rules, like reading left to right and top to bottom, and that letters, spaces, and words work together to help me read and write. Words can be connected to real things in life. Authors use different kinds of writing to tell stories and share ideas and information.

NJSL Standards	Learning Targets
----------------	------------------

6.3.2.CivicsPD.1	<ul style="list-style-type: none"> I can tell the difference between right and wrong and understand the consequences of my choices. <p>Economic Thinking (6.1.2.EconET.5):</p> <ul style="list-style-type: none"> I can explain the difference between needs and wants and talk about the choices people make to meet them. <p>Civic Engagement and Amistad Integration (6.3.2.CivicsPD.1):</p> <ul style="list-style-type: none"> I can talk about how everyone deserves to be treated fairly and with kindness, no matter who they are or where they come from. I can recognize that people have worked together in history to make sure everyone is treated equally and respectfully.

Unit# 2: National and State Symbols

Pacing (Weeks): 6 weeks

Unit Description:

ELA: In this unit, Kindergarten students will explore the importance of national and state symbols such as the American flag, the bald eagle, the Statue of Liberty, and New Jersey’s state flag, bird, and flower. Students will engage with stories, informational texts, and visuals to learn how these symbols represent our shared identity, history, and values. Through read-alouds, interactive discussions, and hands-on activities, students will develop early literacy skills while making meaningful connections to civic pride and cultural heritage.

Social Studies: In this unit, Kindergarten students will explore important symbols of both the United States and New Jersey to understand how they represent our shared values, history, and identity. Students will learn about the American flag, the bald eagle, the Statue of Liberty, and other national symbols, as well as New Jersey's state flag, state bird, and other state icons. Through stories, songs, picture books, hands-on projects, and discussions, students will discover why these symbols are important, what they stand for, and how they connect us as members of a community, state, and nation.

Essential Questions	Enduring Understandings
<p>ELA:</p> <ul style="list-style-type: none"> What do national and state symbols represent? How do pictures and words help us understand stories and information about symbols? Why is it important to listen and talk with others about what we learn? <p>Social Studies:</p> <ul style="list-style-type: none"> What are national and state symbols? Why are symbols important to our community, state, and country? How do symbols help us remember important people, ideas, and events? What traditions and celebrations honor our national and state history? 	<p>ELA:</p> <ul style="list-style-type: none"> Symbols help people remember and honor important ideas about their country and state. Illustrations and text features help us understand and learn new information. Words can have different meanings and uses, and we can use them to describe and share ideas clearly. Talking and listening to one another helps us build knowledge and understanding. <p>Social Studies:</p> <ul style="list-style-type: none"> Symbols help people remember and celebrate important ideas, values, and history. National and state symbols show pride and unity in our community, state, and country. Communities and governments make decisions about which symbols represent them. Celebrations and traditions help us understand and connect with the past.

NJSL Standards	Learning Objectives
<p>ELA:</p> <ul style="list-style-type: none"> L.VI.K.3.A <ul style="list-style-type: none"> L.VI.K.3.B 	<ul style="list-style-type: none"> I can put things that are alike into groups. I can tell how things are the same and different. <ul style="list-style-type: none"> I can tell what words mean by using their opposites (like hot/cold, big/small). Unit# 3: Work Now and Long Ago

Pacing (Weeks): 6 weeks

Unit Description:

ELA: In this unit, kindergarten students will focus on developing foundational language and literacy skills. Students learn to recognize and produce rhyming words, use question words appropriately, and connect vocabulary to real-life experiences. They begin identifying key story elements like characters, setting, and major events in literature, while also understanding connections between people, ideas, or events in informational texts. Additionally, they build listening and comprehension skills by asking and answering questions about information presented through reading or media.

Social Studies: In this unit, students will explore the roles of community members, important places, and events that help communities function. Through read-alouds, discussions, and interactive activities, students will learn to identify characters and events in nonfiction texts, recognize and use key vocabulary, ask and answer questions, and connect new information to real-life experiences. The unit builds foundational literacy skills while fostering an understanding of how people and places work together in a community.

Essential Questions	Enduring Understandings
<p>ELA:</p> <ul style="list-style-type: none"> • How can rhyming help us remember important ideas or people in our community? • How do question words help us learn more about the people around us? • Why is it important to connect new words to what we already know? • What can we learn from the characters and events in stories about communities? • How do people in a community work together and help one another? • How can asking and answering questions help us understand our community better? <p>Social Studies:</p> <ul style="list-style-type: none"> • Who are the important people in a community? • What roles do they play? • How do people in a community work together? • Why are rules and places like schools and libraries important? 	<p>ELA:</p> <ul style="list-style-type: none"> • Rhyming words and songs make learning about community roles fun and memorable. • Asking and answering questions helps us understand the jobs and responsibilities of community helpers. • We can understand new vocabulary better when we relate it to our own experiences. Characters and events in fictional stories can teach us about how people live and work together. • Communities are made up of people who work together in different ways to meet everyone's needs. • Listening to stories and information helps us learn and think about the world around us. <p>Social Studies:</p> <ul style="list-style-type: none"> • Communities work best when people share ideas, listen to others, and make decisions together. • People have jobs because they want to earn money and help their community. • People need some things to live (needs) and want other things for fun or comfort (wants). • Because we cannot always have everything we want, people must make choices. • Goods and services are made and shared in many places and then brought to us. • Different jobs need different skills and knowledge to make goods or provide services. • When people want more of something, it may become harder to get, and choices must be made. • People around the world use and share the Earth's resources in different ways.

Unit# 4: Geography of the Neighborhood

Pacing (Weeks): 6 weeks

Unit Description:

ELA: In this unit, Kindergarten students develop early reading, vocabulary, and speaking skills that help them become confident communicators and curious learners. Children will practice recognizing and reading simple words and sentences with support. They will explore how words work by understanding how they are put together and how they can change. Through interactive read-alouds and shared reading experiences, students will learn to ask and answer questions about stories and informational texts, building comprehension skills. They will also practice sharing their thoughts and ideas in clear sentences with peers during discussions. This unit emphasizes the joy of discovering words, making meaning from texts, and expressing ideas, while laying the foundation for lifelong literacy and communication skills.

Social Studies: In this unit, Kindergarten students explore the world around them by learning about places, people, and communities. Students begin to understand how geography influences daily life, including the tools, resources, and jobs that help communities grow. They will observe and describe physical features and human-made features of their local environment, such as rivers, buildings, parks, and roads. Children investigate how people interact with the environment and use geographic tools to make simple maps and represent their surroundings. They will also learn about basic economic concepts, including goods, services, needs, wants, and the roles of people in the community. Through hands-on activities, discussions, and storytelling, students will explore history in their community, such as important people and events, and how traditions and celebrations reflect cultural heritage. This unit encourages students to observe, ask questions, and describe their world, building foundational social studies skills while fostering curiosity about people, places, and how communities function.

Essential Questions	Enduring Understandings
<p>ELA:</p> <ul style="list-style-type: none"> • How can I use the sounds I know to read words? • How does reading smoothly help me understand a story? • How do I take turns when talking with others? • Why is it important to listen to my friends and teachers? • How can I add to what my friends say? • What can I ask or say to keep a conversation going? • How can I use words to tell people what I think or feel? • How do I make sure others understand my ideas? • What questions can I ask about the story I am reading? • How can I find answers to questions in the story? • Who or what is this text about? • What important facts or information can I find in the text? • How can I ask questions to learn more? • How do I know when to ask for help or more information? <p>Social Studies:</p> <ul style="list-style-type: none"> • What makes a place special or different from other places? • How do people use the land, water, and resources around them? • How do people travel from one place to another? • What are the rules for living in our community? • How do people's actions affect the places where we live? • How do maps and pictures help us understand where things are? • How can we show our school, neighborhood, or town on a map? • What do people need and want? • How do people get the things they need and want? • How do jobs help people in our community? • How do people decide what to make, buy, or sell? • Who are the people who help our community? • How can we learn about what happened long ago in our town or state? 	<p>ELA:</p> <ul style="list-style-type: none"> • Students understand that reading smoothly and correctly helps them understand the story or information. • They recognize that practicing reading helps them become better readers. • Students understand that print carries meaning and that words are separated by spaces. • Letters and words have names and sounds that help us read and write. • Students understand that punctuation and capitalization give meaning to what we read. • Sentences begin with capital letters and end with periods, question marks, or exclamation points. • Students understand that letters represent sounds and that blending sounds helps us read words. • Students understand that stories have characters, settings, and events. • They recognize that authors write to share ideas, feelings, and lessons. • Students learn to ask and answer questions about a story to understand it better. • Students understand that information texts give real facts about the world. • They learn to ask and answer questions to understand new information. • Students can use pictures, diagrams, and text features to help them learn. • Students understand that listening carefully helps them learn new ideas. • They learn to share their own thoughts and ask questions politely. • Conversations can help them understand stories, information, and ideas better. <p>Social Studies:</p>

<ul style="list-style-type: none"> • How do our community's rules and traditions help us today? 	<ul style="list-style-type: none"> • People live in different places and the places where they live affect how they live. • Communities have physical and human characteristics that make them unique. • Maps, globes, and other tools help us understand where places are and how people use them. • The natural environment (land, water, weather) affects the choices people make in daily life. • People make choices about how to use resources to meet needs and wants. • Goods and services are produced to meet the needs of people in the community. • Communities have leaders and rules that help people work together and stay safe. • People in our community, past and present, have roles and responsibilities that help the community function.

Unit# 5: Time and Chronology	Pacing (Weeks): 6 weeks
<p>Unit Description:</p> <p>ELA: In this unit, Kindergarten students will learn how letters and sounds come together to make words and how those words help us read and understand stories and information. They will practice reading with accuracy and expression, use pictures and details to learn about characters, events, and important facts, and explore new words to help them talk and write about what they know. Through fun activities like read-alouds, shared reading, phonics games, and hands-on word work, students will ask and answer questions about texts, describe what they see in pictures, and begin to understand how reading and learning new words helps them make sense of the world around them.</p> <p>Social Studies: In this unit, Kindergarten students will learn about the people, jobs, and rules that help our community work. They will explore how people use land, water, and other resources to meet their needs and wants, and how different jobs help keep a community running. Through stories, activities, and discussions, students will discover how people work together, follow rules, and help one another. They will also learn how their choices can affect the places where they live and how everyone in a community has a role in making it a safe and happy place.</p>	

Essential Questions	Enduring Understandings
<p>ELA:</p> <ul style="list-style-type: none"> • How can I tell if two words rhyme? • Why do rhyming words sound similar at the end? • How can rhyming words help me with reading and writing? • How does reading smoothly help me understand a story? 	<p>ELA:</p> <ul style="list-style-type: none"> • Words have sounds, and some words rhyme. • Recognizing rhyming words helps us become better readers and writers. • Reading smoothly helps us understand the story or

<ul style="list-style-type: none"> • How can I become a better reader? • Why is it important to read with expression and attention to words? • How can I describe people, places, or things using words? • Why is it important to use describing words when I speak or write? • How do adjectives help someone picture what I mean? • Who are the characters in the story? • Where does the story take place? • What happens first, next, and last in the story? • How can I tell someone about a story using the most important details? • What is this text mostly about? • What are the most important facts in the text? • How can I explain what I learned from the text? <p>Social Studies:</p> <ul style="list-style-type: none"> • How do people use the resources around them to meet their needs and wants? • Why is it important to share and preserve stories, traditions, and history? • How can one person's actions make a difference in their community? 	<p>information.</p> <ul style="list-style-type: none"> • Practicing reading builds fluency and confidence. • Descriptive words (adjectives) help others understand more about what we are talking or writing about. • Using adjectives makes our speaking and writing more interesting and detailed. • Stories have characters, settings, and events. • Retelling helps us understand and remember stories better. • Key details tell us important information about a story. • Informational texts teach us facts about the world. • Identifying the main topic and key details helps us understand what the text is mostly about. <p>Social Studies:</p> <ul style="list-style-type: none"> • People use natural and human-made resources to meet their needs and wants, and their choices can affect the environment. • Cultural traditions, stories, and history are important ways that communities share knowledge and values across generations. • Every person can make contributions that help shape their community and society, and these contributions are remembered and valued over time.

Unit# 6: Learning About the Past	Pacing (Weeks): 6 weeks
<p>Unit Description:</p> <p>ELA: In this unit, kindergarteners will practice becoming strong readers and listeners. They will learn how to read simple texts with purpose and understanding and use pictures to help them figure out what the story or information is about. Students will also listen to stories and informational books to find reasons authors give for their ideas and make connections to their own lives. They will explore how pictures, charts, and other visuals give extra clues to help us understand what we are reading. By the end of the unit, students will be able to retell important parts of a story, share how a book reminds them of their own life, and explain how pictures and words work together to teach us something new.</p> <p>Social Studies: In this unit, kindergarten students will explore how people make decisions, solve problems together, and learn from the past. Students will discover that rules and laws help keep us safe and fair, and that working with others helps us find solutions. They will compare life in the past and present to understand how families, communities, and traditions have changed over time. Through stories, pictures, and class discussions, students will recognize that every person’s experiences and contributions are important. This unit encourages children to respect different perspectives, celebrate diversity, and begin to see themselves as part of history and their community.</p>	

Essential Questions	Enduring Understandings
<p>ELA:</p> <ul style="list-style-type: none"> • How do I use what I know to help me read and understand a story? • Why is it important to read with meaning and not just say the words? • How do words I learn connect to my life? • Why is it important to know words we use in school and at home? • Why does an author give reasons in a story? • How do reasons help me understand what the author wants me to know? • Why does an author explain ideas with reasons in informational text? • How can I use the author’s reasons to help me learn new 	<p>ELA:</p> <ul style="list-style-type: none"> • Reading is more than saying words; it is about understanding what the words mean. • I can use what I know to help me make sense of a story or informational text. • Words have meaning in our everyday lives. • The more I connect words to what I do and see, the better I understand and remember them. • Authors use reasons to explain or support their ideas. • I can listen and look for the reasons an author gives to better understand the story. • Informational text gives reasons to help explain ideas. • I can find the author’s reasons to understand new facts and ideas.

<p>information?</p> <ul style="list-style-type: none"> • How do pictures help me understand what I read or hear? • Why do authors use words and pictures together? <p>Social Studies:</p> <ul style="list-style-type: none"> • Why do we have rules and laws? • How do people solve problems together? • How was life in the past the same as or different from today? • What can we learn from the experiences of people long ago? • Why are everyone's stories and perspectives important? • How do families and communities change over time? 	<ul style="list-style-type: none"> • Pictures and words work together to tell a story or share information. • I can use both the text and the illustrations to understand what I am reading. <p>Social Studies:</p> <ul style="list-style-type: none"> • Rules and laws help keep communities safe, fair, and working together. • People can solve problems better when they listen to one another and share ideas. • Life in the past was different from today, but people also had many of the same needs. • History is made up of the stories and experiences of all people, not just famous leaders. • Every person's perspective and background adds to our understanding of the past. • Families, communities, and traditions grow and change over time, and those changes shape who we are today.
