Rationale

This unit delves into the theme of Change. The recommended texts for this unit include various informational articles from district approved sources. Students will engage in reading, writing, and discussions exploring the causes and impacts of changes at global and personal levels. By the conclusion of the unit, students will demonstrate their understanding of the theme of change by synthesizing examples from both fiction and non-fiction texts. They will be able to articulate their thoughts, incorporate the ideas of others, and compare and contrast elements across different texts. Additionally, students will produce clear and coherent writing pieces tailored to specific tasks, purposes, and audiences.

Mastery will be evaluated through a benchmark assessment focusing on students' ability to analyze and compare the overall structure of informational texts and interpret multiple perspectives on the same event, considering differing author viewpoints. Furthermore, this unit will assess students' proficiency in informative/explanatory writing, emphasizing their ability to explore topics thoroughly and effectively convey ideas and information.
