Rationale

The theme of this unit centers on Upheaval. Students will engage with informational articles from district-approved materials to explore the theme and gain an understanding of the causes and effects of significant changes. They will examine how individuals and communities respond to and recover from disruptions, recognizing upheaval's profound impact on societies and individuals, necessitating adaptation and resilience. Throughout the unit, students will draw connections and parallels among the various texts studied.

Student mastery will be evaluated through a benchmark test assessing their ability to analyze the structures of informational texts, cite textual evidence, draw conclusions, and analyze central ideas. The unit will also assess students' proficiency in informative/explanatory writing, emphasizing their capability to explore topics thoroughly and effectively communicate ideas. Additionally, students will participate in discussions and collaborative activities to demonstrate their understanding of upheaval's role in impacting societies and individuals. These activities will foster critical thinking, reading, writing, and communication skills essential for their academic growth and personal development.

Enduring Understandings

Overarching Understanding

Upheaval can cause big changes in societies and individuals, requiring people to adapt and be resilient.

Content Specific	Skills Specific
<ul style="list-style-type: none">• Learning about upheaval through informational texts helps us understand why significant changes happen and how people and communities deal with and recover from these disruptions.• Times of social and political upheaval in developing countries have both positive and negative effects on the people living there.• Geography can affect the chances of upheavals related to science or the environment, like the Dust Bowl or tsunamis.	<ul style="list-style-type: none">• Using informative and explanatory writing techniques helps us clearly communicate complex ideas, improving our ability to analyze, combine, and present information.• Good readers understand how a text is structured or built to help them make meaning.• Good readers can notice when an author uses specific words to create emotions.• Good readers read multiple texts to fully understand a topic.
