## **Rationale & Transfer Goals**

---

Music is an expressive art form. Qualities such as dynamics, tempo, articulation, and accents all enhance the expressive nature of music. Students will explore these aspects of music through listening, performing, and composing music with a focus on dynamics, tempo, accents, and articulation.

## **Enduring Understandings**

---

- Changes in expressive qualities affect the emotional response of the listener.
- Decisions about expressive qualities can be driven by the function of the music being created.
- Marches, lullabies, sacred music, dance music, movie music, concert music, or where the music will be performed.

## **Essential Questions**

---

- How does use of dynamics, tempo, accents, and articulation affect the expressiveness of a piece of music?
- How do we interpret music and why are multiple interpretations acceptable?
- Which is more important, the composer's intentions or the listener's response?

## **Content - What students will know**

---

- Identify, sing, and play a variety of forms and textures
- Arrange student compositions into simple form
- Apply appropriate vocabulary when describing musical form
- Listen and respond to various forms through movement
- Experience conducting up and down beats

- Experience (sing, move, play, read, notate) repeated patterns and new patterns
- Create and play obstinate patterns (rhythmic patterns, syncopated rhythms, dotted rhythm notes)
- Identify and perform fermatas and ties

### **Skills - What students will be able to do**

---

- Perform unison songs, rounds, partner songs, and descants, alone and with others, using proper vocal placement and breathing techniques in the range of A4 – D5 (making allowances for emerging cambiata voices). Demonstrate proper posture and breathing techniques to produce a uniform vocal tone quality and respond to expressive cues from a conductor.
- Improvise a vocal melody on a diatonic scale over a given harmonic progression using I-V7, and ending on the home tone using either solfege or a neutral syllable ("loo").
- Improvise a melody on a diatonic scale over a given harmonic progression using I-V7, ending on the home tone played on barred instruments or recorder.
- Compose and score two 4-bar melodies in F major and G major, using note values as small as the 8th note in 3/4 and/or 4/4 time, and resolving to the home tone, using traditional instruments and/or computer programs.

### **Activities - How we teach content and skills**

---

- Comparing and contrasting music
- Discussion about literature, feelings, opinions
- Listening to music of varied styles and genres
