Rationale and Transfer Goals

Students will conduct research related to a challenging historical time period; explore the connection between historical fiction and history; develop creative thinking; and practice comparing and contrasting characters, events, and conflicts.

The Holocaust is a pivotal moment in world history and is therefore an important focus of study for students coming of age. Learning about this difficult subject matter in a supported, structured environment that encourages deep, reflective thought will give students a roadmap for future academic and personal endeavors.

Enduring Understandings

Through reading Jane Yolen's, *The Devil's Arithmetic*, students will gain appreciation for the importance of cultural and family traditions. Students will acquire an understanding of the value of bearing witness. Students will do background research to familiarize themselves with the Yiddish language and the plight of the Jews during the World War II era. Students will be exposed to atrocities and horrors of the Holocaust. Students will demonstrate their understanding of the text on four levels: factual, interpretive, critical and personal.

Essential Questions

What can we learn from history?

How is historical fiction useful in learning about real events from the past?

What makes a character in a novel change?

How does the theme “work sets you free” relate to the novel?

Why is it important to study the past?

How do authors use word choice to impact the plot?

How is conflict resolved?
