Content Area: **ESL**  
Course(s):  
Time Period: **MP1**  
Length: **45**  
Status: **Published**

## Unit Focus

---

The intro unit will consist of a quick review of LCD A: end-of-year learning. (Short texts with main idea, details, theme, elements of literature, writing a full sentence, etc.). The instructor will analyze all available data to establish groupings for each language domain needing support and development. Students will have been exposed to the Workshop Model in other academic classes but will in this LCD B class they will learn the nuances of transitioning and collaboration.

## Rationale

---

This year-long English intermediate language learning development will strengthen control of L2 while using strategic scaffolds, explicit language instruction, and structured academic practice to access grade-level content. The ML student will grow to feel more comfortable communicating with content area teachers and participating with non-ML classmates. The instructor's objective this year is to provide support, advocate for students when necessary, and encourage a gradual release of ML to L2 communication. This year will focus on close readings, guided writing, using templates of graphic organizers/ web/ sentence frames, small group discussions to practice language, and retelling events in sequential order, whether it is a story, a piece of text, or putting together a favorite snack.

This year the instructor will focus on: Reading - main ideas, supporting details. Writing - paragraph development, argumentative, and explanatory. Language- grammar and vocabulary development. Speaking & Listening- discourse and presentations.
