

ESL-LCD Level C- Unit 4 - Expanding LoCasale

Content Area: **ESL**
Course(s):
Time Period: **MP4**
Length: **45**
Status: **Published**

Unit Focus

The focus on LCD C - Unit 4 will be student independent practice (in preparation for full-time general education classes with little to no support). The MLs will speak openly in class in English, giving their thoughts, questions, and opinions with supporting examples. The instructor will ascertain that the MLs are ready to advocate for themselves respectfully (and others), that MLs can formally present a slide show with minimal notes, and that they can produce written effective communication. The overarching goal is academic independence and real world language.

Rationale

This year-long English expanding language learning course will strengthen the use and control of L2, and finalize the student's ability to use L2 in most situations in school and the community. This final unit will have been a year-long evaluation and tweaking for each student's growth towards independent use of L2. This LCD C course will show the gradual release of the student towards independent learning. The instructor will evaluate and finesse the ML student in academic language mastery, critical thinking, discourse, advocacy for self and others, and finding their identity through voice in this final unit. Students will fill out mock applications to work, to colleges, to trade schools. Public speaking will be a regular weekly occurrence.

This year the instructor will focus on: Reading - main ideas, supporting details. Writing - paragraph development, argumentative, and explanatory. Language- grammar and vocabulary development. Speaking & Listening- discourse and presentations.
