### **Unit3**

**Step into the Desert-**In this lesson, students read a book about deserts. They identify the main ideas and key details of the text. Then, they draw and write stories about life in the desert. Students ask and answer wh-questions, and they combine ideas using imbedded clauses.

**Step into the Rainforest-** In this lesson, students take notes as they read a book about the features of rainforests. Then, they draw and write to show what they learned. Students actively listen by asking and answering questions, and they use the present perfect tense.

**A Forest Food Chain-** In this lesson, students use textual evidence to support answers. Then, they draw and label a food chain. Students give short oral presentations, and they create complex sentences.

## Unit4

**Our Vacation Budget-** In this lesson, students analyze and practice using content-area vocabulary. They solve real-life mathematical problems using decimals. They create vacation budgets. Then, students will analyze language choices and use modals.

**Everyone Pays Taxes-** In this lesson, students determine the main idea and supporting details of a text. They examine the ways that the government uses taxes to pay for public services. Then, they write their opinions about spending tax money. Students give oral presentations to small groups and use the simple future tense appropriately.

**A Classroom Economy-** In this lesson, students use context clues to understand a short text about an economy. They write about their own fictional businesses. Students prepare and deliver oral presentations to their peers and practice using connecting words and phrases.
