

ESL-LCD Level B- Unit 1

Content Area: **ESL**
Course(s):
Time Period: **MP1**
Length: **45**
Status: **Published**

Unit Focus

Standards are integrated within each lesson to enable multilingual learners to work toward proficiency in English while learning content—developing the skills and confidence in listening, speaking, reading, and writing. The Unit will focus on basic vocabulary and content development around animals, famous inventors, scientific discoveries, and engineering.

WIDA Standards

Standard 1: The language for social and instructional purposes

Standard 2:: The language for Language Arts

Standard 3: The language for Mathematics

Standard 4: The language for Science

Lesson Summary

Unit1

Mammal Mania -In this lesson, students learn about mammals and practice classifying them in different ways. Then, they write about their favorite mammals. Students discuss their favorite animals with partners, and they practice using action verbs.

Slithering Reptiles and Amphibians Students practice making predictions and taking notes using nonfiction text. They compare and contrast reptiles and amphibians. They each write about a reptile or an amphibian using key vocabulary. They justify their opinions in conversations, and then they create compound subjects.

Incredible Invertebrates - Students read a nonfiction text about invertebrates and take notes about their special features. They write what special features they would like to have. They examine whether a speaker

was effective, and then they create complex sentences.

Swimming with Sharks -Students analyze both the characters and narrative structure in a short passage. They write a short story with a wellstructured sequence of events and practice using internal monologue. Then, students express opinions and practice using adjectives.

Unit2

Building Bridges -Students read a story about a girl who competes to build the strongest model bridge. They analyze the events of the story and how those events lead to character growth. They write short narratives that includes character growth. They actively listen to an oral presentation, and then they use transition words to join ideas.

How Toys Work -Students read a text about how toys and other everyday objects use simple machines. They answer questions about the text. They describe and explain a simple machine. They deliver short oral presentations, and then they use roots to determine the meanings of words.

Lasers-Students read a book about lasers and how they are used. They create outlines to identify the book’s key details. They write informative paragraphs explaining what a laser is. Students participate in discussions, and then they use nouns in simple sentences.

Awesome Animatronics-Students read a text about the development of animatronics. They identify facts and opinions about the text. They write informative paragraphs about animatronic devices. They give and listen to persuasive speeches, and then they condense ideas through embedded clauses.

New-Fangled Inventions- Students read a text about a boy who sees one of the first telephones. They compare and contrast the perspectives of two characters in the text. They write fictional narratives describing the first time they saw an airplane. Students analyze how language is used in different settings, and then they practice using the present progressive tense.

Spiraling for Mastery

Content or Skill for this Unit	Spiral Focus from Previous Unit
--------------------------------	---------------------------------

<ul style="list-style-type: none"> - use vocabulary in sentences -use L1 and L2 to describe accomplishments - identify cause and effect - label -read information -research 	<ul style="list-style-type: none"> - Strategies: Comprehension, questioning, summarizing - Classify information - Produce drawings, phrases, short sentences - Respond to oral directions - Follow two-step oral directions - Ask and answer short questions - Describe actions, people, places

Career Readiness, Life Literacies & Key Skills

9.4.12.CI.1:	Demonstrate the ability to reflect, analyze, and use creative skills and ideas (e.g., 1.1.12prof.CR3a).
9.4.2.CT.3:	Use a variety of types of thinking to solve problems (e.g., inductive, deductive).
9.4.12.IML.2:	Evaluate digital sources for timeliness, accuracy, perspective, credibility of the source, and relevance of information, in media, data, or other resources (e.g., NJSLSA.W8, Social Studies Practice: Gathering and Evaluating Sources).
CRP.K-12.CRP2	Apply appropriate academic and technical skills.
CRP.K-12.CRP7	Employ valid and reliable research strategies.
CRP.K-12.CRP8	Utilize critical thinking to make sense of problems and persevere in solving them.
