Grade 7 Health Unit 3: Communicable and Non- Communicable Diseases

Content Area: Health & PE

Course(s):

Time Period: MP3
Length: 3 Weeks
Status: Published

Rationale and Transfer Goals

2.3.8.HCDM.6: Explain how the immune system fights disease.

2.3.8.HCDM.7: Explain how certain methods of disease prevention, treatment strategies, and appropriate medicine use promote health-enhancing behaviors

Enduring Understandings

Diseases can be contracted from a variety of sources and choices individuals make may contribute to or prevent a person from being susceptible to a disease or health condition.

The degree to which an individual is impacted by a health condition or disease can be affected by their immune system and treatment strategies

Essential Questions

- What are the causes of various non-communicable diseases?
- How can we prevent being diagnosed with a communicable diseases?
- What are the causes of various communicable diseases?
- How can we prevent being diagnosed with a non-communicable diseases?
- Which non-communicable diseases cannot be prevented?

Content - What will students know?

- What are communicable diseases
- What is the immune system
- Common Communicable diseases
- Allergies and Asthma
- Heart Disease
- Cancer
- Diabetes and Arthritis

Skills - What will students be able to do?

- How to identify the types of germs that cause disease
- How to describe what an infection is and explain how germs spread
- How to describe the immune system
- Why communicable disease are easily spread
- Explain how antibodies protect the body
- Describe how the body develops immunity to a disease
- Distinguish between a cold and the flu
- Identify common communicable diseases
- Identify types of noncommunicable diseases
- Describe allergies
- Identify types of heart disease
- How to reduce the risk for heart disease
- How are strokes and hypertension related
- Identify what cancer is
- How to treat cancer
- How to reduce chances of developing cancer

Activities - How will we teach the content and skills?

Participation

- class/group/partner discussions
- class/group/partner activities

-Projects

- class/group/partner technology projects
- class/group/partner presentations
- class/group/partner technology presentations

-Notebook

- journal entries
- vocabulary words

-Classwork/Homework

- class/group/partner discussions
- class/group/partner activities

- class/group/partner projects
- class/group/partner presentations
- class/group/partner technology presentations
- worksheets

Tests/Quizzes

- lesson quizzes
- chapter tests

Evidence/Assessments - How will we know what students have learned?

Participation

• Students will be expected to participate in daily class discussions.

Notebook

• Students will be graded based on the presence of the required notes.

Classwork/Homework

• Students will be graded based on the completion of their classwork and homework.

Tests/Quizzes

Students will be graded on one test for each chapter of the unit and one quiz for each lesson of a chapter.

Spiraling for Mastery

Content or Skill for this Unit	Spiral Focus from Previous Unit	Instructional Activity
Why communicable disease are easily spread	What effect can a person's community have on the potential for communicable diseases to spread?	Class/group/partner discussions Class/group/partner projects

Key Resources

Teen Health, Teacher Wraparound Edition, Course 2, pgs 400 - 417

21st Century Life and Careers

- 9.4.2.GCA:1: Articulate the role of culture in everyday life by describing one's own culture and comparing it to the cultures of other individuals
- 9.4.5.CI.3: Participate in a brainstorming session with individuals with diverse perspectives to expand one's thinking about a topic of curiosity
- 9.4.5.CT.2: Identify a problem and list the types of individuals and resources (e.g., school, community agencies, governmental, online) that can aid in solving the problem (e.g., 2.1.5.CHSS.1, 4-ESS3-1).
- 9.4.5.CT.4: Apply critical thinking and problem-solving strategies to different types of problems such as personal, academic, community and global (e.g., 6.1.5.CivicsCM.3).

Interdisciplinary Connections/Companion Standards

Science

- K-LS1-1. Use observations to describe patterns of what plants and animals (including humans) need to survive.
- K-ESS3-3. Communicate solutions that will reduce the impact of humans on the land, water, air, and/or other living things in the local environment.
- MS-LS1-5 . Construct a scientific explanation based on evidence for how environmental and genetic factors influence the growth of organisms.
 - Connections to health processes associated with physiology and anatomy
 - Basic understanding of communicability of diseases in discussion of wellness

ELA

- NJSLSA.R1. Read closely to determine what the text says explicitly and to make logical inferences and relevant connections from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.
- RI.2.1. Ask and answer such questions as who, what, where, when, why, and how to demonstrate understanding of key details in a text.

- RI.3.7. Use information gained from text features (e.g., illustrations, maps, photographs) and the words in a text to demonstrate understanding of the text (e.g., where, when, why, and how key events occur).
- RI.2.7. Explain how specific illustrations and images (e.g., a diagram showing how a machine works) contribute to and clarify a text.

NJSLSA.W4. Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.

• Students practice writing and reading in the content area

Social Studies

- 6.1.4.D.13: Describe how culture is expressed through and influenced by the behavior of people.
- 6.1.4.D.18: Explain how an individual's beliefs, values, and traditions may reflect more than one culture.

discussion of community and culture as a role in an individual's fitness level, discussion of community resources related to personal wellness
