Physical Education Grade 7 Unit 1: Team-Building

Content Area: Health & PE

Course(s):

Time Period: MP1
Length: 3 Weeks
Status: Published

Rationale and Transfer Goals

The rationale of the Teambuilding Unit is to provide students with the basic knowledge and experience needed to understand the importance of cooperation, communication and trust as it relates to many life-skills. Through their participation in various teamwork activities, they will gain a better understanding of great leadership characteristics, effective communication, and what makes a great team member. When working effectively as a team, students should be able to apply skills used in other aspects of their life.

Enduring Understandings

Effective execution of movements is determined by the level of related skills and provides the foundation for physical competency and literacy to participate with confidence in a broad range of physical activities (e.g., games, sports, aerobics, martial arts, recreational activities).

Feedback from others and self-assessment impacts performance of movement skills and concepts.

Individual and team goals are achieved when applying effective tactical strategies in games, sports, and other physical fitness activities.

A variety of effective fitness principles applied consistently over time, enhance personal fitness levels, performance, and health status (e.g., Frequency, Intensity, Time, Type (F.I.T.T).

Effective Fitness principles combined with mental and emotional endurance over time will enhance performance and wellness.

Community resources can provide participation in physical activity for self and family members.

Essential Questions

What are the benefits of working in a group?

What are some things you have learned by working with diverse peers?

How do we communicate in different social settings?

What is the importance of building a strong team, no matter who's a part of it?

What are some strategies you us to motivate yourself or teammate?

How could interaction with others affect our individual performance?

What are the benefits of teamwork and good sportsmanship?

Content - What will students know?

•

- o safety rules involving activity being taught
- o communication is key

verbal

body language

eye signals

listen

- o how to socially interact
- o how to give positive feedback
- o how to adapt to different types of competition
- o different strategies for games

Skills - What will students be able to do?

- demonstrate self-confidence in individual and group activities
- work cooperatively toward attainment of group goals
- support all members of the class by giving positive feedback on group and individual assignments
- delegate or accept roles as leaders or followers depending on their communication and athletic ability in the area being taught

Activities - How will we teach the content and skills?

Accepting team roles
Leader
Shaper
Implementer
Coordinator
Follower
Completer
Building communication Skills
Speaking Skills
Listening Skills
Writing Skills
Creating an environment that is fun and non-threatening, using games that are non- competitive/competitive
Student self-assessment to improve in performance
Evidence/Assessments - How will we know what students have learned?
• Student observations
Teacher observations
Asking of the essential questions
Students may grade each other on execution of skills
Practice, Practice
Observation of team play

Spiraling for Mastery Card Have You Ever: FFEACH: The Maze: Speed Rabbit • Can appropriately Balloon Trolley's participate in team challenges/activities with Trolley's all members of the class Market Place Relay • Is able to incorporate teamwork, communication, The Great Communicator cooperation, and problem solving to solve all team • Cooperative Games Ready Aim challenges • Lead up Activities • Displays respectful Tangle Knots behaviors towards all classmates Follow the Leader • Students will successfully complete a number of team Scavenger Hunt challenges in order to Double Sided Line improve their communication skills. Chicken Baseball Cops and Robbers

21st Century Life and Careers

- 9.4.5.CT.2: Identify a problem and list the types of individuals and resources (e.g., school, community agencies, governmental, online) that can aid in solving the problem (e.g., 2.1.5.CHSS.1, 4-ESS3-1).
- 9.4.5.CT.4: Apply critical thinking and problem-solving strategies to different types of problems such as personal, academic, community and global (e.g., 6.1.5.CivicsCM.3).
- 9.4.5.CT.1: Identify and gather relevant data that will aid in the problem-solving process

Interdisciplinary Connections/Companion Standards

ELA

- NJSLSA.R1. Read closely to determine what the text says explicitly and to make logical inferences and relevant connections from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.
- NJSLSA.R7. Integrate and evaluate content presented in diverse media and formats, including visually and quantitatively, as well as in words.
- <u>RST.6-8.3</u>. Follow precisely a multistep procedure when carrying out experiments, taking measurements, or performing technical tasks.
- <u>RST.6-8.7</u>. Integrate quantitative or technical information expressed in words in a text with a version of that information expressed visually (e.g., in a flowchart, diagram, model, graph, or table).
- RST.6-8.8. Distinguish among facts, reasoned judgment based on research findings, and speculation in a text.

Science

- MS-LS2-4. Construct an argument supported by empirical evidence that changes to physical or biological components of an ecosystem affect populations
 - effect of health and exercise on physical and biological states

Math

Statistics and Probability 8.SP

A. Investigate patterns of association in bivariate data.

students work with data and statistics related to team sports and games
