Unit Overview

The poet Julia Cunningham says, "Poetry is, to me, a place to be. Walk with your words into these secret, mysterious, and magic places where poems lead you." Poetry is a rich and engaging genre that invites readers to study and appreciate the beauty and functions of language. It awakens their sense of the many extraordinary things they can notice in their everyday world. The genre of poetry allows readers to create new and surprising images while also uncovering meaning and exploring emotions. Through the use of rhyme, imagery, and figurative language, readers are exposed to literary devices that remain in our thoughts and create opportunities for reflection and celebration. Poetry offers something for readers of all ages and interests, and it exercises all of our imaginations. What greater joy can young readers experience than discovering something new about themselves, or their world, through reading? Poetry does this. It is the natural bridge between cognitive learning and personal expression.

Enduring Understandings

Students will: n Discover the richness of the genre of poetry; n Interpret a variety of poems; n Use personal schema and textual evidence to make predictions and connections; n Ask questions to help clarify thinking and deepen understanding; n Use strategies before, during, and after reading to enhance comprehension of poetry; n Apply self-monitoring skills and strategies to determine the meaning of important vocabulary and central ideas; n Analyze poems for a variety of literary elements, including elements of structure, figurative language, use of imagery, repetition, and other crafting techniques; n Analyze how structural elements including line breaks, white space, and stanzas affect meaning; n Identify how structural elements fit together to build the overall meaning of a poem; n Deepen understanding of author's purpose as it relates to the genre; n Interpret words and phrases in order to notice and/or discuss how these words and phrases shape meaning, mood, and tone; n Identify central ideas and cite evidence to support interpretations; n Analyze themes within poems; n Use writing to notate and develop ideas and interpretations of poetry; and n Compare the reading and performance of poetry.

The aforementioned outcomes reflect the College and Career Readiness grade-specific standards in reading, speaking, and listening. They define the skills and understandings that students must demonstrate at the end of each grade level.

Interdisciplinary Connections

Various disciplines will be explored through group texts and individual leveled, choice texts.

Differentiation

- Understand that gifted students, just like all students, come to school to learn and be challenged.
- Pre-assess your students. Find out their areas of strength as well as those areas you may need to address before students move on.
- Consider grouping gifted students together for at least part of the school day.
- Plan for differentiation. Consider pre-assessments, extension activities, and compacting the curriculum.
- Use phrases like "You've shown you don't need more practice" or "You need more practice" instead of words like "qualify" or "eligible" when referring to extension work.
- Encourage high-ability students to take on challenges. Because they're often used to getting good grades, gifted students may be risk averse.
- **Definitions of Differentiation Components:**
 - Content – the specific information that is to be taught in the lesson/unit/course of instruction.
 - Process – how the student will acquire the content information.
 - Product – how the student will demonstrate understanding of the content.
 - Learning Environment – the environment where learning is taking place including physical location and/or student grouping

Differentiation occurring in this unit:

Students will have access to leveled libraries of a variety of texts and be able to choose based on interest.

Modifications & Accommodations

Refer to QSAC EXCEL SMALL SPED ACCOMMODATIONS spreadsheet in this discipline.

Modifications and Accommodations used in this unit:

IEP and 504 accommodations will be utilized.

Benchmark Assessments

Benchmark Assessments are given periodically (e.g., at the end of every quarter or as frequently as once per month) throughout a school year to establish baseline achievement data and measure progress toward a standard or set of academic standards and goals.

Schoolwide Benchmark assessments:

Aimsweb benchmarks 3X a year

Linkit Benchmarks 3X a year

Additional Benchmarks used in this unit:

Aimsweb

Linkit testing 3 times a year.

Formative Assessments

Assessment allows both instructor and student to monitor progress towards achieving learning objectives, and can be approached in a variety of ways. **Formative assessment** refers to tools that identify misconceptions, struggles, and learning gaps along the way and assess how to close those gaps. It includes effective tools for helping to shape learning, and can even bolster students' abilities to take ownership of their learning when they understand that the goal is to improve learning, not apply final marks (Trumbull and Lash, 2013). It can include students assessing themselves, peers, or even the instructor, through writing, quizzes, conversation, and more. In short, formative assessment occurs throughout a class or course, and seeks to improve student achievement of learning objectives through approaches that can support specific student needs (Theal and Franklin, 2010, p. 151).

Formative Assessments used in this unit:

Discussion

Teacher observation

worksheets

projects

teacher made tests

Summative Assessments

Summative assessments evaluate student learning, knowledge, proficiency, or success at the conclusion of an instructional period, like a unit, course, or program. Summative assessments are almost always formally graded and often heavily weighted (though they do not need to be). Summative assessment can be used to great effect in conjunction and alignment with formative assessment, and instructors can consider a variety of ways to combine these approaches.

Summative assessments for this unit:

Unit assessments

Summative Assessment Students will read the poems “Nesterenko” and “Fixer” by Paul B. Janeczko in order to answer selected and constructed response questions.
