## Unit Overview

---

### DESCRIPTION

The beginning of the school year is an exciting time! Students enter their classrooms with a heightened sense of curiosity and wonder. First impressions go a long way for young learners, and it is important for them to experience a comfortable and engaging invitation into their literacy-rich environment. Brightly decorated bulletin boards, shiny desks and tables, and beautifully organized books await your students. The start of each new school year provides opportunities for you and your students to create a community of learners who respect, listen to, share, and respond to the thoughts and ideas of others. This is especially important when considering your community of readers.

The Reading Fundamentals Launching Unit of Study provides models for many reading behaviors, rituals, and routines. Active listening, thinking, engagement, and participation are fundamental expectations for reading workshop. Establishing a community that fosters these behaviors is vital and will help your readers develop and grow. Through the targeted lessons in this unit, your students' focused thinking and accountable talk will begin to evolve and develop. As students gain more experience, they begin to participate in meaningful conversations connected to the books they are sharing.

## Enduring Understandings

---

With prompting and support, students will: ■ Begin to develop an understanding of themselves as readers; ■ Begin to learn how to self-select appropriate texts; ■ Begin to set goals for themselves as readers; ■ Learn the expectations and routines for actively participating in a reading community; ■ Practice participating in collaborative conversations about texts; ■ Learn how to follow agreed-upon rules for discussions; ■ Begin to identify the central or big idea of a text; ■ Begin to ask and answer questions to clarify understanding of a topic under discussion; ■ Practice recognizing the similarities and differences among genres and subgenres, including fiction, poetry, and nonfiction; ■ Practice asking and answering questions in order to demonstrate an understanding of the key details in a text; ■ Begin to identify and use various text features and structures to locate and understand key information in a text; and ■ Express their opinions about the books they listen to and read

The aforementioned outcomes reflect the College and Career Readiness grade-specific standards in reading, speaking, and listening. They define the skills and understandings that students must demonstrate at the end of each grade level.

## Essential Questions

## **Differentiation**

---

- Understand that gifted students, just like all students, come to school to learn and be challenged.
- Pre-assess your students. Find out their areas of strength as well as those areas you may need to address before students move on.
- Consider grouping gifted students together for at least part of the school day.
- Plan for differentiation. Consider pre-assessments, extension activities, and compacting the curriculum.
- Use phrases like "You've shown you don't need more practice" or "You need more practice" instead of words like "qualify" or "eligible" when referring to extension work.
- Encourage high-ability students to take on challenges. Because they're often used to getting good grades, gifted students may be risk averse.

- **Definitions of Differentiation Components:**

- Content – the specific information that is to be taught in the lesson/unit/course of instruction.
- Process – how the student will acquire the content information.

- Product – how the student will demonstrate understanding of the content.
- Learning Environment – the environment where learning is taking place including physical location and/or student grouping

### **Differentiation occurring in this unit:**

Students will be offered leveled readers for their personal reading.

Intervention services as needed.

### **Modifications & Accommodations**

---

### **Modifications and Accommodations used in this unit:**

IEP and 504 accommodations will be utilized.

### **Benchmark Assessments**

---

**Benchmark Assessments** are given periodically (e.g., at the end of every quarter or as frequently as once per month) throughout a school year to establish baseline achievement data and measure progress toward a standard or set of academic standards and goals.

### **Schoolwide Benchmark assessments:**

Aimsweb benchmarks 3X a year

Linkit Benchmarks 3X a year

## **Formative Assessments**

---

Assessment allows both instructor and student to monitor progress towards achieving learning objectives, and can be approached in a variety of ways. **Formative assessment** refers to tools that identify misconceptions, struggles, and learning gaps along the way and assess how to close those gaps. It includes effective tools for helping to shape learning, and can even bolster students' abilities to take ownership of their learning when they understand that the goal is to improve learning, not apply final marks (Trumbull and Lash, 2013). It can include students assessing themselves, peers, or even the instructor, through writing, quizzes, conversation, and more. In short, formative assessment occurs throughout a class or course, and seeks to improve student achievement of learning objectives through approaches that can support specific student needs (Theal and Franklin, 2010, p. 151).

### **Formative Assessments used in this unit:**

Discussion

Worksheets

Teacher observation

## **Summative Assessments**

---

**Summative assessments** evaluate student learning, knowledge, proficiency, or success at the conclusion of an instructional period, like a unit, course, or program. Summative assessments are almost always formally graded and often heavily weighted (though they do not need to be). Summative assessment can be used to great effect in conjunction and alignment with formative assessment, and instructors can consider a variety of ways to combine these approaches.
