

# Nov. Gr.4 Art

Content Area: **Art**  
Course(s):  
Time Period: **November**  
Length: **4-5 Weeks**  
Status: **Published**

## Unit Overview

---

This unit explores abstract art through the study of figure drawing.

## Enduring Understandings

---

Artists and designers shape artistic investigations, following or breaking with traditions in pursuit of creative artmaking goals.

## Essential Questions

---

How does knowing the contexts histories, & traditions of art forms help us create works of art & design? Why do artists follow or break from established traditions? How do artists determine what resources are needed to formulate artistic investigations.

## Instructional Strategies & Learning Activities

---

Objectives	Suggested Activities	Evaluations	Resources
Understand what inspires an artist			<b>Giacometti video</b>
Understand the difference between realistic and abstract artwork	Discuss the work of Alberto Giacometti and his abstract figures.	Peer evaluation	
Practice forming the proportions of the human body	Students will create a wire armature of a human figure holding an exaggerated pose to create a mood or expression.		
	They will cover the wire		

Work with sculptural format to create mood and gesture in three dimensional form	with a self hardening clay, then paint it with metallic paints.		
--	---	--	--

## Integration of Career Readiness, Life Literacies and Key Skills

Students will learn about the career of Giacommetti, the sculptor.

WRK.9.2.5.CAP	Career Awareness and Planning
WRK.9.2.5.CAP.1	Evaluate personal likes and dislikes and identify careers that might be suited to personal likes.
WRK.9.2.5.CAP.2	Identify how you might like to earn an income.
WRK.9.2.5.CAP.3	Identify qualifications needed to pursue traditional and non-traditional careers and occupations.
TECH.9.4.5.CI	Creativity and Innovation
TECH.9.4.5.CT	Critical Thinking and Problem-solving
TECH.9.4.5.CT.4	Apply critical thinking and problem-solving strategies to different types of problems such as personal, academic, community and global (e.g., 6.1.5.CivicsCM.3).
TECH.9.4.5.DC.1	Explain the need for and use of copyrights.
TECH.9.4.5.DC.2	Provide attribution according to intellectual property rights guidelines using public domain or creative commons media.
TECH.9.4.5.DC.3	Distinguish between digital images that can be reused freely and those that have copyright restrictions.  Collaboration with individuals with diverse perspectives can result in new ways of thinking and/or innovative solutions.

## Technology and Design Integration

Students will interact with the lesson using the Smartboard.

CS.3-5.8.1.5.CS.3	Identify potential solutions for simple hardware and software problems using common troubleshooting strategies.
-------------------	---

## Interdisciplinary Connections

LA.SL.4.1	Engage effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grade 4 topics and texts, building on others' ideas and expressing their own clearly.
LA.L.4.1	Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.

## **Differentiation**

---

- Understand that gifted students, just like all students, come to school to learn and be challenged.
- Pre-assess your students. Find out their areas of strength as well as those areas you may need to address before students move on.
- Consider grouping gifted students together for at least part of the school day.
- Plan for differentiation. Consider pre-assessments, extension activities, and compacting the curriculum.
- Use phrases like "You've shown you don't need more practice" or "You need more practice" instead of words like "qualify" or "eligible" when referring to extension work.
- Encourage high-ability students to take on challenges. Because they're often used to getting good grades, gifted students may be risk averse.
- **Definitions of Differentiation Components:**
  - Content – the specific information that is to be taught in the lesson/unit/course of instruction.
  - Process – how the student will acquire the content information.
  - Product – how the student will demonstrate understanding of the content.
  - Learning Environment – the environment where learning is taking place including physical location and/or student grouping

### **Differentiation occurring in this unit:**

Students will be encouraged to improve and challenge their art skills as they proceed.

Simpler instructions and tasks will be assigned for struggling students

For Gifted:

Encourage students to explore concepts in depth and encourage independent studies or investigations. Use thematic instruction to connect learning across the curriculum. Encourage creative expression and thinking by allowing students to choose how to approach a problem or assignment. Expand students' time for free reading. Invite students to explore different points of view on a topic of study and compare the two. Provide learning centers where students are in charge of their learning. Brainstorm with gifted children on what types of projects they would like to explore to extend what they're learning in the classroom. Determine where students' interests lie and capitalize on their inquisitiveness. Refrain from having them complete more work in the same manner. Employ differentiated curriculum to keep interest high. Avoid drill and practice activities. Ask students' higher level questions that require students to look into causes, experiences, and facts to draw a conclusion or make connections to other areas of learning. If possible, compact curriculum to allow gifted students to move more quickly through the material. Encourage students to make transformations- use a common task or item in a different way. From

---

## **Modifications & Accommodations**

Individual IEP's and 504 accommodations will be utilized.

Refer to QSAC EXCEL SMALL SPED ACCOMMODATIONS spreadsheet in this discipline.

### **Modifications and Accommodations used in this unit:**

### **Benchmark Assessments**

---

**Benchmark Assessments** are given periodically (e.g., at the end of every quarter or as frequently as once per month) throughout a school year to establish baseline achievement data and measure progress toward a standard or set of academic standards and goals.

#### **Schoolwide Benchmark assessments:**

Aimswest benchmarks 3X a year

Linkit Benchmarks 3X a year

DRA

#### **Additional Benchmarks used in this unit:**

Assessment regarding figure proportions

### **Formative Assessments**

---

Assessment allows both instructor and student to monitor progress towards achieving learning objectives, and can be approached in a variety of ways. **Formative assessment** refers to tools that identify misconceptions, struggles, and learning gaps along the way and assess how to close those gaps. It includes effective tools for helping to shape learning, and can even bolster students' abilities to take ownership of their learning when they understand that the goal is to improve learning, not apply final marks (Trumbull and Lash, 2013). It can include students assessing themselves, peers, or even the instructor, through writing, quizzes, conversation, and more. In short, formative assessment occurs throughout a class or course, and seeks to improve student achievement of learning objectives through approaches that can support specific student needs (Theal and Franklin, 2010, p. 151).

#### **Formative Assessments used in this unit:**

Teacher observations during the process

Discussion

## Summative Assessments

---

**summative assessments** evaluate student learning, knowledge, proficiency, or success at the conclusion of an instructional period, like a unit, course, or program. Summative assessments are almost always formally graded and often heavily weighted (though they do not need to be). Summative assessment can be used to great effect in conjunction and alignment with formative assessment, and instructors can consider a variety of ways to combine these approaches.

### Summative assessments for this unit:

Peer evaluation

## Instructional Materials

---

Giacometti video

Required art supplies

## Standards

---

VA.3-5.1.5.5.Cr	Creating
VA.3-5.1.5.5.Cr1	Generating and conceptualizing ideas.
	Explore
VA.3-5.1.5.5.Cr1b	Individually and collaboratively set goals, investigate, choose, and demonstrate diverse approaches to art-making that is meaningful to the makers.
VA.3-5.1.5.5.Cr2	Organizing and developing ideas.
VA.3-5.1.5.5.Cr2a	Experiment and develop skills in multiple art-making techniques and approaches, through invention and practice.
VA.3-5.1.5.5.Cr2b	Demonstrate craftsmanship through the safe and respectful use of materials, tools and equipment.
VA.3-5.1.5.5.Cr2c	Individually or collaboratively represent environments or objects of personal significance that includes a process of peer discussion, revision and refinement.
VA.3-5.1.5.5.Cr3a	Reflect, refine, and revise work individually and collaboratively, and discuss and describe personal choices in artmaking.
VA.3-5.1.5.5.Pr4	Selecting, analyzing and interpreting work.
VA.3-5.1.5.5.Pr6	Conveying meaning through art.
VA.3-5.1.5.5.Re7a	Speculate about artistic processes. Interpret and compare works of art and other responses.
VA.3-5.1.5.5.Re7b	Analyze visual arts including cultural associations.
VA.3-5.1.5.5.Re8	Interpreting intent and meaning.
