

Jan. Gr. 5 Art

Content Area: **Art**
Course(s):
Time Period: **January**
Length: **4-5 Weeks**
Status: **Published**

Unit Overview

Students will explore the creation of a self portrait using different mediums.

Enduring Understandings

Artists create self portraits to reflect how they feel and see themselves at the time of creation.

Essential Questions

How can I use different art mediums to create a self portrait that represents how I feel and see myself?

Instructional Strategies & Learning Activities

Objectives	Suggested Activities	Evaluations	Resources
Experiment with various mediums to create a self portrait.	Chuck Close: self portraits	Gallery walk	Chuck Close power point: abstract due to his physical challenges
Identify common and distinctive characteristics of an artists work.	View a retrospective slideshow of Close's artwork	Teacher observation	
Distinguish abstract from realistic works of art. Why might an artist use an abstract format? (below:Close's realist self portrait)	Each student uses a close-up photo of self. Trace using pattern method of Close with acetate paper and sharpies to create an abstract image of self.		Picasso's Guernica- abstract to exaggerate emotion

	(Close's abstract self portrait)		
--	----------------------------------	--	--

Integration of Career Readiness, Life Literacies and Key Skills

Students will learn about Chuck Close's art career and his works he created while overcoming physical obstacles.

WRK.9.2.5.CAP	Career Awareness and Planning
WRK.9.2.5.CAP.2	Identify how you might like to earn an income.
WRK.9.2.5.CAP.3	Identify qualifications needed to pursue traditional and non-traditional careers and occupations.
WRK.9.2.5.CAP.4	Explain the reasons why some jobs and careers require specific training, skills, and certification (e.g., life guards, child care, medicine, education) and examples of these requirements.
TECH.9.4.5.CI	Creativity and Innovation
TECH.9.4.5.CT	Critical Thinking and Problem-solving
TECH.9.4.5.CT.4	<p>Apply critical thinking and problem-solving strategies to different types of problems such as personal, academic, community and global (e.g., 6.1.5.CivicsCM.3).</p> <p>An individual's passions, aptitude and skills can affect his/her employment and earning potential.</p> <p>Curiosity and a willingness to try new ideas (intellectual risk-taking) contributes to the development of creativity and innovation skills.</p>

Technology and Design Integration

Students will interact with the Smartboard during this unit.

Interdisciplinary Connections

LA.SL.5.1	Engage effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grade 5 topics and texts, building on others' ideas and expressing their own clearly.
LA.L.5.1	Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.

Differentiation

- Understand that gifted students, just like all students, come to school to learn and be challenged.
- Pre-assess your students. Find out their areas of strength as well as those areas you may need to address before students move on.

- Consider grouping gifted students together for at least part of the school day.
- Plan for differentiation. Consider pre-assessments, extension activities, and compacting the curriculum.
- Use phrases like "You've shown you don't need more practice" or "You need more practice" instead of words like "qualify" or "eligible" when referring to extension work.
- Encourage high-ability students to take on challenges. Because they're often used to getting good grades, gifted students may be risk averse.

- **Definitions of Differentiation Components:**

- Content – the specific information that is to be taught in the lesson/unit/course of instruction.
- Process – how the student will acquire the content information.
- Product – how the student will demonstrate understanding of the content.
- Learning Environment – the environment where learning is taking place including physical location and/or student grouping

Differentiation occurring in this unit:

Students will be encouraged to improve and challenge their art skills as they proceed.

Simpler instructions and tasks will be assigned for struggling students

For Gifted:

Encourage students to explore concepts in depth and encourage independent studies or investigations. Use thematic instruction to connect learning across the curriculum. Encourage creative expression and thinking by allowing students to choose how to approach a problem or assignment. Expand students' time for free reading. Invite students to explore different points of view on a topic of study and compare the two. Provide learning centers where students are in charge of their learning. Brainstorm with gifted children on what types of projects they would like to explore to extend what they're learning in the classroom. Determine where students' interests lie and capitalize on their inquisitiveness. Refrain from having them complete more work in the same manner. Employ differentiated curriculum to keep interest high. Avoid drill and practice activities. Ask students' higher level questions that require students to look into causes, experiences, and facts to draw a conclusion or make connections to other areas of learning. If possible, compact curriculum to allow gifted students to move more quickly through the material. Encourage students to make transformations- use a common task or item in a different way. From

Modifications & Accommodations

Individual IEP's and 504 accommodations will be utilized.

Refer to QSAC EXCEL SMALL SPED ACCOMMODATIONS spreadsheet in this discipline.

Modifications and Accommodations used in this unit:

Benchmark Assessments

Benchmark Assessments are given periodically (e.g., at the end of every quarter or as frequently as once per month) throughout a school year to establish baseline achievement data and measure progress toward a standard or set of academic standards and goals.

Schoolwide Benchmark assessments:

Aimswest benchmarks 3X a year

Linkit Benchmarks 3X a year

DRA

Additional Benchmarks used in this unit:

Teacher observation for growth

Formative Assessments

Assessment allows both instructor and student to monitor progress towards achieving learning objectives, and can be approached in a variety of ways. **Formative assessment** refers to tools that identify misconceptions, struggles, and learning gaps along the way and assess how to close those gaps. It includes effective tools for helping to shape learning, and can even bolster students' abilities to take ownership of their learning when they understand that the goal is to improve learning, not apply final marks (Trumbull and Lash, 2013). It can include students assessing themselves, peers, or even the instructor, through writing, quizzes, conversation, and more. In short, formative assessment occurs throughout a class or course, and seeks to improve student achievement of learning objectives through approaches that can support specific student needs (Theal and Franklin, 2010, p. 151).

Formative Assessments used in this unit:

Teacher observation during process.

Discussion.

Summative Assessments

summative assessments evaluate student learning, knowledge, proficiency, or success at the conclusion of an instructional period, like a unit, course, or program. Summative assessments are almost always formally graded and often heavily weighted (though they do not need to be). Summative assessment can be used to great effect in conjunction and alignment with formative assessment, and instructors can consider a variety of

ways to combine these approaches.

Summative assessments for this unit:

Gallery walk

Teacher observation

Instructional Materials

Chuck Close power point: abstract due to his physical challenges

Art supplies as required

Picasso's Guernica-abstract to exaggerate emotion

Standards

VA.3-5.1.5.5.Cr	Creating
VA.3-5.1.5.5.Cr1	Generating and conceptualizing ideas.
	Explore
VA.3-5.1.5.5.Cr1a	Brainstorm and curate ideas to innovatively problem solve during artmaking and design projects.
VA.3-5.1.5.5.Cr1b	Individually and collaboratively set goals, investigate, choose, and demonstrate diverse approaches to art-making that is meaningful to the makers.
VA.3-5.1.5.5.Cr2	Organizing and developing ideas.
	Investigate
VA.3-5.1.5.5.Cr2a	Experiment and develop skills in multiple art-making techniques and approaches, through invention and practice.
VA.3-5.1.5.5.Cr2b	Demonstrate craftsmanship through the safe and respectful use of materials, tools and equipment.
VA.3-5.1.5.5.Cr2c	Individually or collaboratively represent environments or objects of personal significance that includes a process of peer discussion, revision and refinement.
VA.3-5.1.5.5.Cr3a	Reflect, refine, and revise work individually and collaboratively, and discuss and describe personal choices in artmaking.
VA.3-5.1.5.5.Pr5	Developing and refining techniques and models or steps needed to create products.
VA.3-5.1.5.5.Re7a	Speculate about artistic processes. Interpret and compare works of art and other responses.
VA.3-5.1.5.5.Re8a	Interpret ideas and mood in artworks by analyzing form, structure, context, subject, and visual elements.
