

Dec. Gr. 6 Unit 4 ART

Content Area: **Art**
Course(s):
Time Period: **December**
Length: **4-6 Weeks**
Status: **Published**

Unit Overview

Students will use various mediums to create balance, rhythm and movement in their artwork.

Enduring Understandings

Many deliberate techniques bring two dimensional artwork to life.

Essential Questions

How do artists create balance, rhythm and movement in thier artwork through texture, highlights and shadow?

Instructional Strategies & Learning Activities

Objectives:

Incorporate various art mediums and principles to create balance, emphasis proportions, rhythm/movement in the creation of 2 and 3 dimensional art

Use the imagination to create a new creature in its environment

Use high lights and shadows to create a three dimensional appearance

Use complementary and analogous colors to lead the viewers' eye

Suggested activities:	Assessment:	Materials:
Part 1: Imaginary Landscapes	Rubric	Maurice Sendak, <i>Where the Wild Things Are</i>

Draw a jungle and identify the “grounds” and horizon line	Teacher evaluation	Color wheel
Examine the work of Maurice Sendak	Mid way peer critique	
Listen to story told by teacher with heads down – using “mind’s eye” to visualize elements of the story		
Each students draws what they saw with minds eye		
Draw on final black paper using oil pastels or chalk to color		

Use the imagination to create a new creature in its environment

Use high lights and shadows to create a three dimensional appearance

Use complementary and analogous colors to lead the viewers’ eye

Integration of Career Readiness, Life Literacies and Key Skills

WRK.9.2.8.CAP	Career Awareness and Planning
WRK.9.2.8.CAP.2	Develop a plan that includes information about career areas of interest.
WRK.9.2.8.CAP.3	Explain how career choices, educational choices, skills, economic conditions, and personal behavior affect income.
TECH.9.4.8.CI	Creativity and Innovation
TECH.9.4.8.CI.4	Explore the role of creativity and innovation in career pathways and industries.
TECH.9.4.8.CT	Critical Thinking and Problem-solving
TECH.9.4.8.CT.3	Compare past problem-solving solutions to local, national, or global issues and analyze the

TECH.9.4.8.DC.5

factors that led to a positive or negative outcome.

Manage digital identity and practice positive online behavior to avoid inappropriate forms of self-disclosure.

Multiple solutions often exist to solve a problem.

An individual's strengths, lifestyle goals, choices, and interests affect employment and income.

Technology and Design Integration

There is no technology in this unit.

Interdisciplinary Connections

LA.L.6.1

Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.

Differentiation

- Understand that gifted students, just like all students, come to school to learn and be challenged.
- Pre-assess your students. Find out their areas of strength as well as those areas you may need to address before students move on.
- Consider grouping gifted students together for at least part of the school day.
- Plan for differentiation. Consider pre-assessments, extension activities, and compacting the curriculum.
- Use phrases like "You've shown you don't need more practice" or "You need more practice" instead of words like "qualify" or "eligible" when referring to extension work.
- Encourage high-ability students to take on challenges. Because they're often used to getting good grades, gifted students may be risk averse.
- **Definitions of Differentiation Components:**
 - Content – the specific information that is to be taught in the lesson/unit/course of instruction.
 - Process – how the student will acquire the content information.
 - Product – how the student will demonstrate understanding of the content.
 - Learning Environment – the environment where learning is taking place including physical location and/or student grouping

Differentiation occurring in this unit:

Student choice differentiates the creation of the artwork .

For Gifted:

Encourage students to explore concepts in depth and encourage independent studies or investigations. Use thematic instruction to connect learning across the curriculum. Encourage creative expression and thinking by

allowing students to choose how to approach a problem or assignment. Expand students' time for free reading. Invite students to explore different points of view on a topic of study and compare the two. Provide learning centers where students are in charge of their learning. Brainstorm with gifted children on what types of projects they would like to explore to extend what they're learning in the classroom. Determine where students' interests lie and capitalize on their inquisitiveness. Refrain from having them complete more work in the same manner. Employ differentiated curriculum to keep interest high. Avoid drill and practice activities. Ask students' higher level questions that require students to look into causes, experiences, and facts to draw a conclusion or make connections to other areas of learning. If possible, compact curriculum to allow gifted students to move more quickly through the material. Encourage students to make transformations- use a common task or item in a different way. Modifications & Accommodations

IEP accommodations will be applied.

Students needing support or additional instruction will be monitored.

Refer to QSAC EXCEL SMALL SPED ACCOMMODATIONS spreadsheet in this discipline.

Modifications and Accommodations used in this unit:

Benchmark Assessments

Benchmark Assessments are given periodically (e.g., at the end of every quarter or as frequently as once per month) throughout a school year to establish baseline achievement data and measure progress toward a standard or set of academic standards and goals.

Schoolwide Benchmark assessments:

Aimswest benchmarks 3X a year

Linkit Benchmarks 3X a year

DRA

Additional Benchmarks used in this unit:

Teacher record of growth when using medium

Formative Assessments

Assessment allows both instructor and student to monitor progress towards achieving learning objectives, and can be approached in a variety of ways. **Formative assessment** refers to tools that identify misconceptions, struggles, and learning gaps along the way and assess how to close those gaps. It includes effective tools for helping to shape learning, and can even bolster students' abilities to take ownership of their learning when they understand that the goal is to improve learning, not apply final marks (Trumbull and Lash, 2013). It can include students assessing themselves, peers, or even the instructor, through writing, quizzes, conversation, and more. In short, formative assessment occurs throughout a class or course, and seeks to improve student achievement of learning objectives through approaches that can support specific student needs (Theal and Franklin, 2010, p. 151).

Formative Assessments used in this unit:

Rubric

Teacher evaluation

Mid way peer critique

Summative Assessments

summative assessments evaluate student learning, knowledge, proficiency, or success at the conclusion of an instructional period, like a unit, course, or program. Summative assessments are almost always formally graded and often heavily weighted (though they do not need to be). Summative assessment can be used to great effect in conjunction and alignment with formative assessment, and instructors can consider a variety of ways to combine these approaches.

Summative assessments for this unit:

Rubric

Teacher evaluation

Mid way peer critique

Maurice Sendak, *Where the Wild Things Are*

Color wheel

Standards

VA.6-8.1.5.8.Cr	Creating
VA.6-8.1.5.8.Cr1	Generating and conceptualizing ideas.
	Explore
VA.6-8.1.5.8.Cr1a	Conceptualize early stages of the creative process, including applying methods to overcome creative blocks or take creative risks, and document the processes in traditional or new media.
VA.6-8.1.5.8.Cr1b	Develop criteria, identify goals and collaboratively investigate an aspect of present-day life, using contemporary practice of art or design.
VA.6-8.1.5.8.Cr2	Organizing and developing ideas.
	Investigate
VA.6-8.1.5.8.Cr2a	Demonstrate persistence and willingness to experiment and take risks during the artistic process.
VA.6-8.1.5.8.Cr2c	Apply, organize and strategize methods for design and redesign of objects, places, systems, images and words to clearly communicate information to a diverse audience.
	Reflect, Refine, Continue
VA.6-8.1.5.8.Cr3a	Use criteria to examine, reflect on and plan revisions for a work of art, and create an artistic statement.
VA.6-8.1.5.8.Pr	Presenting
VA.6-8.1.5.8.Pr4	Selecting, analyzing and interpreting work.
	Analyze
VA.6-8.1.5.8.Pr4a	Investigate and analyze ways artwork is presented, preserved and experienced, including use of evolving technology. Evaluate a collection or presentation based on this criterion.
VA.6-8.1.5.8.Pr5	Developing and refining techniques and models or steps needed to create products.
VA.6-8.1.5.8.Pr5a	Individually or collaboratively prepare and present theme-based artwork for display and formulate exhibition narratives.
VA.6-8.1.5.8.Pr6	Conveying meaning through art.
	Share
VA.6-8.1.5.8.Re7a	Explain how a person's aesthetic choices are influenced by culture and environment, and how they impact the way in which visual messages are perceived and conveyed.
VA.6-8.1.5.8.Re7b	Compare and contrast cultural and social contexts of visual arts and how they influence ideas and emotions.
VA.6-8.1.5.8.Re8a	Interpret art by analyzing how the interaction of subject matter, characteristics of form and structure, use of media, art making approaches, and relevant contextual information contributes to understanding messages or ideas and mood conveyed.
VA.6-8.1.5.8.Re9a	Create a convincing and logical argument to support an evaluation of art. Explain the difference between personal and established criteria for evaluating artwork.
VA.6-8.1.5.8.Cn10a	Generate ideas to make art individually or collaboratively to positively reflect a group's identity.
VA.6-8.1.5.8.Cn11b	Analyze and contrast how art forms are used to reflect global issues, including climate change.
