

# Feb. Gr. 6 Unit 6 ART

Content Area: **Art**  
Course(s):  
Time Period: **February**  
Length: **4-5 Weeks**  
Status: **Published**

## Unit Overview

---

Students will create landscape paintings in watercolor.

## Enduring Understandings

---

Watercolors require certain techniques to give control over the medium.

## Essential Questions

---

How do I create artwork with watercolors?

## Instructional Strategies & Learning Activities

---

| Objectives  | Suggested Activities  | Evaluations                  | Resources  |
|---|---|------------------------------|--|
| Draw a landscape from direct observation<br><br>Horizon line<br><br>Wet on wet/wet on dry techniques for watercolor | Create watercolor landscapes<br><br>from examples of artists landscapes | Peer and teacher observation | Smart board slide show of various watercolor landscapes<br><br>watercolors |

|                           |  |  |  |
|---------------------------|--|--|--|
| Scratch for finer details |  |  |  |
|---------------------------|--|--|--|

## Integration of Career Readiness, Life Literacies and Key Skills

---

|                 |  |
|-----------------|--|
| WRK.9.2.8.CAP   | Career Awareness and Planning  |
| WRK.9.2.8.CAP.2 | Develop a plan that includes information about career areas of interest.   |
| TECH.9.4.8.CI.4 | Explore the role of creativity and innovation in career pathways and industries.   |
| TECH.9.4.8.CT   | Critical Thinking and Problem-solving  |
| TECH.9.4.8.CT.2 | <p>Develop multiple solutions to a problem and evaluate short- and long-term effects to determine the most plausible option (e.g., MS-ETS1-4, 6.1.8.CivicsDP.1).</p> <p>An essential aspect of problem solving is being able to self-reflect on why possible solutions for solving problems were or were not successful.</p> <p>An individual's strengths, lifestyle goals, choices, and interests affect employment and income.</p> <p>Multiple solutions often exist to solve a problem.</p> |

## Technology and Design Integration

---

Students will interact with the unit using the Smartboard.

## Interdisciplinary Connections

---

|          |  |
|----------|--|
| LA.L.6.3 | Use knowledge of language and its conventions when writing, speaking, reading, or listening. |
|----------|--|

## Differentiation

---

- Understand that gifted students, just like all students, come to school to learn and be challenged.
- Pre-assess your students. Find out their areas of strength as well as those areas you may need to address before students move on.
- Consider grouping gifted students together for at least part of the school day.
- Plan for differentiation. Consider pre-assessments, extension activities, and compacting the curriculum.
- Use phrases like "You've shown you don't need more practice" or "You need more practice" instead of words like "qualify" or "eligible" when referring to extension work.
- Encourage high-ability students to take on challenges. Because they're often used to getting good grades, gifted students may be risk averse.

- **Definitions of Differentiation Components:**

- Content – the specific information that is to be taught in the lesson/unit/course of instruction.
- Process – how the student will acquire the content information.
- Product – how the student will demonstrate understanding of the content.
- Learning Environment – the environment where learning is taking place including physical location and/or student grouping

**Differentiation occurring in this unit:**

Student choice differentiates the creation of the artwork .

For Gifted:

Encourage students to explore concepts in depth and encourage independent studies or investigations. Use thematic instruction to connect learning across the curriculum. Encourage creative expression and thinking by allowing students to choose how to approach a problem or assignment. Expand students' time for free reading. Invite students to explore different points of view on a topic of study and compare the two. Provide learning centers where students are in charge of their learning. Brainstorm with gifted children on what types of projects they would like to explore to extend what they're learning in the classroom. Determine where students' interests lie and capitalize on their inquisitiveness. Refrain from having them complete more work in the same manner. Employ differentiated curriculum to keep interest high. Avoid drill and practice activities. Ask students' higher level questions that require students to look into causes, experiences, and facts to draw a conclusion or make connections to other areas of learning. If possible, compact curriculum to allow gifted students to move more quickly through the material. Encourage students to make transformations- use a common task or item in a different way. ## **Modifications & Accommodations**

---

IEP accommodations will be applied.

Students needing support or additional instruction will be monitored.

Refer to QSAC EXCEL SMALL SPED ACCOMMODATIONS spreadsheet in this discipline.

**Modifications and Accommodations used in this unit:**

## **Benchmark Assessments**

---

**Benchmark Assessments** are given periodically (e.g., at the end of every quarter or as frequently as once per month) throughout a school year to establish baseline achievement data and measure progress toward a

standard or set of academic standards and goals.

**Schoolwide Benchmark assessments:**

Aimswest benchmarks 3X a year

Linkit Benchmarks 3X a year

DRA

**Additional Benchmarks used in this unit:**

Teacher record of growth when using medium

## **Formative Assessments**

---

Assessment allows both instructor and student to monitor progress towards achieving learning objectives, and can be approached in a variety of ways. **Formative assessment** refers to tools that identify misconceptions, struggles, and learning gaps along the way and assess how to close those gaps. It includes effective tools for helping to shape learning, and can even bolster students' abilities to take ownership of their learning when they understand that the goal is to improve learning, not apply final marks (Trumbull and Lash, 2013). It can include students assessing themselves, peers, or even the instructor, through writing, quizzes, conversation, and more. In short, formative assessment occurs throughout a class or course, and seeks to improve student achievement of learning objectives through approaches that can support specific student needs (Theal and Franklin, 2010, p. 151).

**Formative Assessments used in this unit:**

Peer and teacher observation

## **Summative Assessments**

---

**summative assessments** evaluate student learning, knowledge, proficiency, or success at the conclusion of an instructional period, like a unit, course, or program. Summative assessments are almost always formally graded and often heavily weighted (though they do not need to be). Summative assessment can be used to great effect in conjunction and alignment with formative assessment, and instructors can consider a variety of ways to combine these approaches.

**Summative assessments for this unit:**

Peer and teacher observation

## Instructional Materials

---

Smart board slide show of various watercolor landscapes

watercolors

## Standards

---

|                   |   |
|-------------------|---|
| VA.6-8.1.5.8.Cr   | Creating  |
| VA.6-8.1.5.8.Cr1  | Generating and conceptualizing ideas.   |
|                   | Explore   |
| VA.6-8.1.5.8.Cr1b | Develop criteria, identify goals and collaboratively investigate an aspect of present-day life, using contemporary practice of art or design.   |
| VA.6-8.1.5.8.Cr2  | Organizing and developing ideas.  |
| VA.6-8.1.5.8.Cr2a | Demonstrate persistence and willingness to experiment and take risks during the artistic process.   |
| VA.6-8.1.5.8.Cr2b | Demonstrate an awareness of ethical responsibility as applied to artmaking including environmental implications, responsibility in sharing images online, appropriation, and intellectual property ethics.  |
| VA.6-8.1.5.8.Cr2c | Apply, organize and strategize methods for design and redesign of objects, places, systems, images and words to clearly communicate information to a diverse audience.  |
| VA.6-8.1.5.8.Cr3  | Refining and completing products.   |
|                   | Reflect, Refine, Continue   |
| VA.6-8.1.5.8.Cr3a | Use criteria to examine, reflect on and plan revisions for a work of art, and create an artistic statement.   |
| VA.6-8.1.5.8.Pr   | Presenting  |
| VA.6-8.1.5.8.Pr4  | Selecting, analyzing and interpreting work.   |
|                   | Analyze   |
| VA.6-8.1.5.8.Pr4a | Investigate and analyze ways artwork is presented, preserved and experienced, including use of evolving technology. Evaluate a collection or presentation based on this criterion.  |
| VA.6-8.1.5.8.Pr6  | Conveying meaning through art.  |
|                   | Share   |
| VA.6-8.1.5.8.Pr6a | Analyze how exhibitions in different venues communicate meaning and influence ideas, beliefs and experiences.   |
| VA.6-8.1.5.8.Re7b | Compare and contrast cultural and social contexts of visual arts and how they influence ideas and emotions.   |
| VA.6-8.1.5.8.Re8  | Interpreting intent and meaning.  |
| VA.6-8.1.5.8.Re8a | Interpret art by analyzing how the interaction of subject matter, characteristics of form and structure, use of media, art making approaches, and relevant contextual information contributes to understanding messages or ideas and mood conveyed. |

VA.6-8.1.5.8.Re9a

Create a convincing and logical argument to support an evaluation of art. Explain the difference between personal and established criteria for evaluating artwork.
