

Oct. Gr. 7 Unit 2 ART

Content Area: **Art**
Course(s):
Time Period: **October**
Length: **4-5Weeks**
Status: **Published**

Unit Overview

Students willl create a metaphorical plant representing themselves and superimpose the image on a dictionary page that has personal meaning to them.

Students will write a haiku poem about the artwork.

Enduring Understandings

Art reflects a person through images, words and medium.

Essential Questions

How do I express who I am through multiple media and writing?

Instructional Strategies & Learning Activities

Objectives	Suggested Activities	Evaluations	Resources
Students will use the image created in the first lesson to paint onto the page of a dictionary. Art as personal reflection and imagination Visual art inspiring poetry	Students choose one word that describes the characteristic of the plant that best describes themselves. Find that word in the dictionary and carefully remove it from the book. Highlight the word with a pen. Paint the invented botanical using guache.	Peer critique Haiku describes the plant's characteristics. Details such as lighting and texture are present	Haiku examples relating to nature Smartboard images

	<p>Add more details that describe texture and lighting.</p> <p>Write a Haiku to accompany the display of the personalized botanical they created</p>

Integration of Career Readiness, Life Literacies and Key Skills

WRK.9.2.8.CAP	Career Awareness and Planning
WRK.9.2.8.CAP.2	Develop a plan that includes information about career areas of interest.
WRK.9.2.8.CAP.3	Explain how career choices, educational choices, skills, economic conditions, and personal behavior affect income.
TECH.9.4.8.CI	Creativity and Innovation
TECH.9.4.8.CI.4	Explore the role of creativity and innovation in career pathways and industries.
TECH.9.4.8.CT	Critical Thinking and Problem-solving
TECH.9.4.8.CT.1	<p>Evaluate diverse solutions proposed by a variety of individuals, organizations, and/or agencies to a local or global problem, such as climate change, and use critical thinking skills to predict which one(s) are likely to be effective (e.g., MS-ETS1-2).</p> <p>Multiple solutions often exist to solve a problem.</p> <p>An individual's strengths, lifestyle goals, choices, and interests affect employment and income.</p> <p>An essential aspect of problem solving is being able to self-reflect on why possible solutions for solving problems were or were not successful.</p> <p>Gathering and evaluating knowledge and information from a variety of sources, including global perspectives, fosters creativity and innovative thinking.</p>

Technology and Design Integration

Students will interact with the unit using the Smartboard.

Interdisciplinary Connections

LA.W.7.4	Produce clear and coherent writing in which the development, organization, voice and style are appropriate to task, purpose, and audience. (Grade-specific expectations for writing types are defined in standards 1–3 above.)
LA.L.7.3	Use knowledge of language and its conventions when writing, speaking, reading, or

listening.

LA.L.7.3.A	Choose language that expresses ideas precisely and concisely, recognizing and eliminating wordiness and redundancy.
LA.L.7.5	Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.
LA.L.7.6	Acquire and use accurately grade-appropriate general academic and domain-specific words and phrases; gather vocabulary knowledge when considering a word or phrase important to comprehension or expression.

Differentiation

- Understand that gifted students, just like all students, come to school to learn and be challenged.
- Pre-assess your students. Find out their areas of strength as well as those areas you may need to address before students move on.
- Consider grouping gifted students together for at least part of the school day.
- Plan for differentiation. Consider pre-assessments, extension activities, and compacting the curriculum.
- Use phrases like "You've shown you don't need more practice" or "You need more practice" instead of words like "qualify" or "eligible" when referring to extension work.
- Encourage high-ability students to take on challenges. Because they're often used to getting good grades, gifted students may be risk averse.
- **Definitions of Differentiation Components:**
 - Content – the specific information that is to be taught in the lesson/unit/course of instruction.
 - Process – how the student will acquire the content information.
 - Product – how the student will demonstrate understanding of the content.
 - Learning Environment – the environment where learning is taking place including physical location and/or student grouping

Differentiation occurring in this unit:

Student choices differentiate the creation of the artwork.

For Gifted:

Encourage students to explore concepts in depth and encourage independent studies or investigations. Use thematic instruction to connect learning across the curriculum. Encourage creative expression and thinking by allowing students to choose how to approach a problem or assignment. Expand students' time for free reading. Invite students to explore different points of view on a topic of study and compare the two. Provide learning centers where students are in charge of their learning. Brainstorm with gifted children on what types of projects they would like to explore to extend what they're learning in the classroom. Determine where students' interests lie and capitalize on their inquisitiveness. Refrain from having them complete more work in the same manner. Employ differentiated curriculum to keep interest high. Avoid drill and practice activities. Ask students' higher level questions that require students to look into causes, experiences, and facts to draw a conclusion or make connections to other areas of learning. If possible, compact curriculum to allow gifted students to move more quickly through the material. Encourage students to make transformations- use a common task or item in a different way. From

Modifications & Accommodations

IEP and 504 accommodations are required.

Refer to QSAC EXCEL SMALL SPED ACCOMMODATIONS spreadsheet in this discipline.

Modifications and Accommodations used in this unit:

Benchmark Assessments

Benchmark Assessments are given periodically (e.g., at the end of every quarter or as frequently as once per month) throughout a school year to establish baseline achievement data and measure progress toward a standard or set of academic standards and goals.

Schoolwide Benchmark assessments:

Aimsweb benchmarks 3X a year

Linkit Benchmarks 3X a year

DRA

Additional Benchmarks used in this unit:

Teacher record of growth when using medium

Formative Assessments

Assessment allows both instructor and student to monitor progress towards achieving learning objectives, and can be approached in a variety of ways. **Formative assessment** refers to tools that identify misconceptions, struggles, and learning gaps along the way and assess how to close those gaps. It includes effective tools for helping to shape learning, and can even bolster students' abilities to take ownership of their learning when they understand that the goal is to improve learning, not apply final marks (Trumbull and Lash, 2013). It can include students assessing themselves, peers, or even the instructor, through writing, quizzes, conversation, and more. In short, formative assessment occurs throughout a class or course, and seeks to improve student achievement of learning objectives through approaches that can support specific student needs (Theal and Franklin, 2010, p. 151).

Formative Assessments used in this unit:

Peer critique

Haiku describes the plant's characteristics.

Details such as lighting and texture are present

Summative Assessments

summative assessments evaluate student learning, knowledge, proficiency, or success at the conclusion of an instructional period, like a unit, course, or program. Summative assessments are almost always formally graded and often heavily weighted (though they do not need to be). Summative assessment can be used to great effect in conjunction and alignment with formative assessment, and instructors can consider a variety of ways to combine these approaches.

Summative assessments for this unit:

Peer critique

Haiku describes the plant's characteristics.

Details such as lighting and texture are present

Instructional Materials

Haiku examples relating to nature

Standards

VA.6-8.1.5.8.Cr	Creating
VA.6-8.1.5.8.Cr1	Generating and conceptualizing ideas.
	Explore
VA.6-8.1.5.8.Cr1a	Conceptualize early stages of the creative process, including applying methods to overcome creative blocks or take creative risks, and document the processes in traditional or new media.
VA.6-8.1.5.8.Cr1b	Develop criteria, identify goals and collaboratively investigate an aspect of present-day life, using contemporary practice of art or design.
VA.6-8.1.5.8.Cr2	Organizing and developing ideas.

	Investigate
VA.6-8.1.5.8.Cr2a	Demonstrate persistence and willingness to experiment and take risks during the artistic process.
VA.6-8.1.5.8.Cr2c	Apply, organize and strategize methods for design and redesign of objects, places, systems, images and words to clearly communicate information to a diverse audience.
VA.6-8.1.5.8.Cr3a	Use criteria to examine, reflect on and plan revisions for a work of art, and create an artistic statement.
VA.6-8.1.5.8.Pr	Presenting
VA.6-8.1.5.8.Pr5	Developing and refining techniques and models or steps needed to create products.
VA.6-8.1.5.8.Pr5a	Individually or collaboratively prepare and present theme-based artwork for display and formulate exhibition narratives.
VA.6-8.1.5.8.Pr6	Conveying meaning through art.
	Share
VA.6-8.1.5.8.Pr6a	Analyze how exhibitions in different venues communicate meaning and influence ideas, beliefs and experiences.
VA.6-8.1.5.8.Re	Responding
VA.6-8.1.5.8.Re7a	Explain how a person's aesthetic choices are influenced by culture and environment, and how they impact the way in which visual messages are perceived and conveyed.
VA.6-8.1.5.8.Re7b	Compare and contrast cultural and social contexts of visual arts and how they influence ideas and emotions.
VA.6-8.1.5.8.Re8	Interpreting intent and meaning.
	Interpret
VA.6-8.1.5.8.Re8a	Interpret art by analyzing how the interaction of subject matter, characteristics of form and structure, use of media, art making approaches, and relevant contextual information contributes to understanding messages or ideas and mood conveyed.
	Analyze
VA.6-8.1.5.8.Cn10	Synthesizing and relating knowledge and personal experiences to create products.
