

# Nov. Gr. 1 Unit 3: Add. strategies to 20

Content Area: **Math**  
Course(s):  
Time Period: **November**  
Length: **4-5 Weeks**  
Status: **Published**

## Unit Overview

---

Students will learn to add up to the sum of 20.

## Enduring Understandings

---

You can use the properties of operations to find the sum of 3 numbers.

You can count on to add by starting with the greater number.

Number lines can help us to add.

Using doubles helps us to add.

Near doubles can help us to add.

## Essential Questions

---

How do we add numbers up to 20?

## **Integration of Career Readiness, Life Literacies and Key Skills**

---

Students will establish and follow rules, routines, and responsibilities throughout the year.

<p>TECH.9.4.2.CI.1</p>	<p>Critical thinkers must first identify a problem then develop a plan to address it to effectively solve the problem.</p>
<p>TECH.9.4.2.CT.2</p>	<p>Demonstrate openness to new ideas and perspectives (e.g., 1.1.2.CR1a, 2.1.2.EH.1, 6.1.2.CivicsCM.2).</p>
<p>TECH.9.4.2.CI.2</p>	<p>Identify possible approaches and resources to execute a plan (e.g., 1.2.2.CR1b, 8.2.2.ED.3).</p>
<p>TECH.9.4.2.CT.3</p>	<p>Demonstrate originality and inventiveness in work (e.g., 1.3A.2CR1a).</p>
<p>WRK.9.2.2.CAP.1</p>	<p>Use a variety of types of thinking to solve problems (e.g., inductive, deductive).</p> <p>Different types of jobs require different knowledge and skills.</p> <p>Make a list of different types of jobs and describe the skills associated with each job.</p>

## **Technology Integration**

---

Students will interact with the textbook/workbooks on the Smartboard throughout My Math Lessons.

Students will engage in lessons on Dreambox, an interactive Math program that allows progress at a students

own pace through the Standards in Math for Grade 1.

## **Interdisciplinary Connections**

---

Students will use leveled books to reinforce and extend problem-solving skills and strategies.

LA.RI.1.1	Ask and answer questions about key details in a text.
LA.RI.1.7	Use the illustrations and details in a text to describe its key ideas.
LA.SL.1.1	Participate in collaborative conversations with diverse partners about grade 1 topics and texts with peers and adults in small and larger groups.

## **Differentiation**

---

Each My Math unit throughout the series offers "approaching level", "on level" and "Beyond level" differentiated instructional hands-on choices, as well as ELL differentiated support. Please refer to the teacher edition for the activities.

## **Modifications & Accommodations**

---

IEP and 504 accommodations will be followed.

## **Formative Assessments**

## Benchmark Assessments

---

Aimsweb benchmark assessments for math three times a year.

## Summative Assessments

---

## Instructional Materials

---

See materials listed in above lesson plans.

## Standards

---

MA.1.OA.A.1	Use addition and subtraction within 20 to solve word problems involving situations of adding to, taking from, putting together, taking apart, and comparing, with unknowns in all positions, e.g., by using objects, drawings, and equations with a symbol for the unknown number to represent the problem.
MA.1.OA.A.2	Solve word problems that call for addition of three whole numbers whose sum is less than or equal to 20, e.g., by using objects, drawings, and equations with a symbol for the unknown number to represent the problem.
MA.1.OA.B.3	Apply properties of operations as strategies to add and subtract.
MA.1.OA.C.5	Relate counting to addition and subtraction (e.g., by counting on 2 to add 2).
MA.1.OA.C.6	Add and subtract within 20, demonstrating fluency for addition and subtraction within 10. Use strategies such as counting on; making ten (e.g., $8 + 6 = 8 + 2 + 4 = 10 + 4 = 14$ ); decomposing a number leading to a ten (e.g., $13 - 4 = 13 - 3 - 1 = 10 - 1 = 9$ ); using the relationship between addition and subtraction (e.g., knowing that $8 + 4 = 12$ , one knows $12 - 8 = 4$ ); and creating equivalent but easier or known sums (e.g., adding $6 + 7$ by creating the known equivalent $6 + 6 + 1 = 12 + 1 = 13$ ).
