

# Gr 4 Sept. My Math Unit 1: Place Value

Content Area: **Math**  
Course(s):  
Time Period: **September**  
Length: **2-3 Weeks**  
Status: **Obsolete**

## Unit Overview

---

Students will learn about the function and purpose of place value.

## Enduring Understandings

---

- Our number system is based on groups of ten. Whenever we get 10 in one place value, we move to the next greater place value.
- In a multi-digit whole number, a digit in one place represents ten times what it would represent in the place immediately to its right.
- Place value can be used to compare and order numbers.
- Rounding whole numbers is a process for finding the multiple of 10, 100, and so on closest to a given number.

## Essential Questions

---

How does place value help represent the value of numbers?
