

April Music: Grade 1

Content Area: **Music**
Course(s):
Time Period: **April**
Length: **4-5 Weeks**
Status: **Published**

Unit Overview

Creating ★ Connecting ★ Performing ★ Responding

Students will study rhythmic patterns, music styles and moods.

Enduring Understandings

Music has different styles and moods.

Understanding rhythm is an important component of musical knowledge.

Essential Questions

How do composers use rhythm, style and mood to create a feeling to their music?

Instructional Strategies & Learning Activities

| Objectives | Suggested Activities | Evaluations | Resources |
|--|--|------------------------|--------------------------|
| Demonstrate rhythmic sensitivity to rhythmic patterns | Use body percussion to show the steady beat | Teacher observation | Guitar |
| Respond to a variety of musical styles and moods | Dramatize a story with body movements | Oral/ Aural assessment | Big box |
| Identify and respond to high, middle and low registers | Listen to music in a variety of styles to determine mood | Games | Instruments unpitched |

| | | | |
|--|--|--|---------|
| | Demonstrate audience behavior appropriate for musical performances | | Piano |
| | Use body movement and hand levels | | Songs : |
| | | | Listeni |
| | | | Interac |

Integration of Career Readiness, Life Literacies and Key Skills

| | |
|-----------------|---|
| WRK.9.1.2.CAP | Career Awareness and Planning |
| WRK.9.1.2.CAP.1 | Make a list of different types of jobs and describe the skills associated with each job. |
| TECH.9.4.2.CI | Creativity and Innovation |
| TECH.9.4.2.CI.2 | Demonstrate originality and inventiveness in work (e.g., 1.3A.2CR1a). |
| TECH.9.4.2.CT | Critical Thinking and Problem-solving |
| TECH.9.4.2.CT.3 | Use a variety of types of thinking to solve problems (e.g., inductive, deductive). Different types of jobs require different knowledge and skills. |

Technology and Design Integration

Students will interact with the smartboard during the lessons.

Interdisciplinary Connections

| | |
|-------------------|--|
| DA.K-2.1.1.2.Cr1a | Demonstrate movement in response to a variety of sensory stimuli (e.g., music, imagery, objects) and suggest additional sources for movement ideas. |
| DA.K-2.1.1.2.Pr4a | Perform planned and improvised movement sequences, with variations in direction (e.g., forward/backward, up/down, big/small, sideways, right/left, diagonal), spatial level (e.g., low, middle, high), and spatial pathways (e.g., straight, curved, circular, zigzag), alone and in small groups. |
| DA.K-2.1.1.2.Pr4b | Perform planned and improvised movement sequences, with variations in tempo, meter, and rhythm, alone and in small groups. |
| LA.SL.1.1 | Participate in collaborative conversations with diverse partners about grade 1 topics and texts with peers and adults in small and larger groups. |

Differentiation

- Understand that gifted students, just like all students, come to school to learn and be challenged.
- Pre-assess your students. Find out their areas of strength as well as those areas you may need to address before students move on.
- Consider grouping gifted students together for at least part of the school day.
- Plan for differentiation. Consider pre-assessments, extension activities, and compacting the curriculum.
- Use phrases like "You've shown you don't need more practice" or "You need more practice" instead of words like "qualify" or "eligible" when referring to extension work.
- Encourage high-ability students to take on challenges. Because they're often used to getting good grades, gifted students may be risk averse.
- **Definitions of Differentiation Components:**
 - Content – the specific information that is to be taught in the lesson/unit/course of instruction.
 - Process – how the student will acquire the content information.
 - Product – how the student will demonstrate understanding of the content.
 - Learning Environment – the environment where learning is taking place including physical location and/or student grouping

Differentiation occurring in this unit:

Students will be offered support and challenges as determined by teacher evaluation.

Modifications & Accommodations

Refer to QSAC EXCEL SMALL SPED ACCOMMODATIONS spreadsheet in this discipline.

Modifications and Accommodations used in this unit:

IEP and 504 accommodations as required.

Formative Assessments

Assessment allows both instructor and student to monitor progress towards achieving learning objectives, and can be approached in a variety of ways. **Formative assessment** refers to tools that identify misconceptions, struggles, and learning gaps along the way and assess how to close those gaps. It includes effective tools for helping to shape learning, and can even bolster students' abilities to take ownership of their learning when they understand that the goal is to improve learning, not apply final marks (Trumbull and Lash, 2013). It can include students assessing themselves, peers, or even the instructor, through writing, quizzes, conversation, and more. In short, formative assessment occurs throughout a class or course, and seeks to improve student achievement of learning objectives through approaches that can support specific student needs (Theal and Franklin, 2010, p. 151).

Formative Assessments used in this unit:

Teacher observation

Oral/ Aural assessment

Games

Benchmark Assessments

- **Benchmark Assessments** are given periodically (e.g., at the end of every quarter or as frequently as once per month) throughout a school year to establish baseline achievement data and measure progress toward a standard or set of academic standards and goals.

Schoolwide Benchmark assessments:

Aimsweb benchmarks 3X a year

Linkit Benchmarks 3X a year

Additional Benchmarks used in this unit:

Teacher made benchmark assessments to assess growth over time.

Summative Assessments

Summative assessments evaluate student learning, knowledge, proficiency, or success at the conclusion of an instructional period, like a unit, course, or program. Summative assessments are almost always formally graded and often heavily weighted (though they do not need to be). Summative assessment can be used to great effect in conjunction and alignment with formative assessment, and instructors can consider a variety of ways to combine these approaches.

Summative assessments for this unit:

Teacher observation

Oral/ Aural assessment

Games

Instructional Materials

Guitar

Big book/Share the Music

Instruments/pitched and unpitched

Piano

Songs and chants

Listening examples

Standards

| | |
|--------------------|---|
| MU.K-2.1.3A.2.Cr1a | Explore, create and improvise musical ideas using rhythmic and melodic patterns in various meters and tonalities. |
| MU.K-2.1.3A.2.Cr2b | Use iconic or standard notation and/or recording technology to organize and document personal musical ideas. |
| MU.K-2.1.3A.2.Pr4a | Demonstrate and explain personal interest in, knowledge about, and purpose of varied musical selections. |
| MU.K-2.1.3A.2.Pr6b | Perform appropriately for the audience and purpose. |
