

May Music: Grade 1

Content Area: **Music**
Course(s):
Time Period: **May**
Length: **4-5Weeks**
Status: **Published**

Unit Overview

Creating ★ Connecting ★ Performing ★ Responding

Students further study the elements of music and musical heritage.

Enduring Understandings

Understanding and identifying sound registers, beat, meter and duration helps us to understand music.

Essential Questions

What do we need to recognize in music that helps us to create and enjoy music?

Instructional Strategies & Learning Activities

Objectives	Suggested Activities	Evaluations	Re
Identify and respond to high, low, and middle registers	Recognize and sing sol feq syllables demonstrating SOL< MI and LA	Teacher observation	Big b
Demonstrate rhythmic sensitivity to the beat, meter and duration	Use body movement and hand levels	Performance assessment	Class: unpitt
Gain an awareness of the sources of our musical heritage as well as music from other cultures	Sing songs, echo sing and solo sing	Oral/Aural assessment Games	Visua Suppl

	<p>Visually represent registers using partial staff</p> <p>Listen to music to identify high, low and middle registers</p> <p>Listening and responding to steady beats and absence of steady beats, long and short sounds and repeated patterns</p> <p>Listening to various styles of music from America and other lands</p>		
--	---	--	--

Integration of Career Readiness, Life Literacies and Key Skills

- TECH.9.4.2.CI.1 Demonstrate openness to new ideas and perspectives (e.g., 1.1.2.CR1a, 2.1.2.EH.1, 6.1.2.CivicsCM.2).
- TECH.9.4.2.CI.2 Demonstrate originality and inventiveness in work (e.g., 1.3A.2CR1a).
Different types of jobs require different knowledge and skills.

Technology and Design Integration

Students will interact with the lesson using the Smartboard.

- CS.K-2.8.1.2.CS.1 Select and operate computing devices that perform a variety of tasks accurately and quickly based on user needs and preferences.
- CS.K-2.8.1.2.CS.2 Explain the functions of common software and hardware components of computing

systems.

CS.K-2.8.1.2.IC.1

Compare how individuals live and work before and after the implementation of new computing technology.

Interdisciplinary Connections

DA.K-2.1.1.2.Cr1a	Demonstrate movement in response to a variety of sensory stimuli (e.g., music, imagery, objects) and suggest additional sources for movement ideas.
DA.K-2.1.1.2.Cr1b	Combine movements using the elements of dance to solve a movement problem.
DA.K-2.1.1.2.Pr4a	Perform planned and improvised movement sequences, with variations in direction (e.g., forward/backward, up/down, big/small, sideways, right/left, diagonal), spatial level (e.g., low, middle, high), and spatial pathways (e.g., straight, curved, circular, zigzag), alone and in small groups.
DA.K-2.1.1.2.Cn11a	Observe a dance and relate the movement to the people or environment in which the dance was created and performed.

Differentiation

- Understand that gifted students, just like all students, come to school to learn and be challenged.
- Pre-assess your students. Find out their areas of strength as well as those areas you may need to address before students move on.
- Consider grouping gifted students together for at least part of the school day.
- Plan for differentiation. Consider pre-assessments, extension activities, and compacting the curriculum.
- Use phrases like "You've shown you don't need more practice" or "You need more practice" instead of words like "qualify" or "eligible" when referring to extension work.
- Encourage high-ability students to take on challenges. Because they're often used to getting good grades, gifted students may be risk averse.
- **Definitions of Differentiation Components:**
 - Content – the specific information that is to be taught in the lesson/unit/course of instruction.
 - Process – how the student will acquire the content information.
 - Product – how the student will demonstrate understanding of the content.
 - Learning Environment – the environment where learning is taking place including physical location and/or student grouping

Differentiation occurring in this unit:

Students will be offered support and challenges as determined by teacher evaluation.

Modifications & Accommodations

Refer to QSAC EXCEL SMALL SPED ACCOMMODATIONS spreadsheet in this discipline.

Modifications and Accommodations used in this unit:

IEP and 504 accommodations as required.

Formative Assessments

Assessment allows both instructor and student to monitor progress towards achieving learning objectives, and can be approached in a variety of ways. **Formative assessment** refers to tools that identify misconceptions, struggles, and learning gaps along the way and assess how to close those gaps. It includes effective tools for helping to shape learning, and can even bolster students' abilities to take ownership of their learning when they understand that the goal is to improve learning, not apply final marks (Trumbull and Lash, 2013). It can include students assessing themselves, peers, or even the instructor, through writing, quizzes, conversation, and more. In short, formative assessment occurs throughout a class or course, and seeks to improve student achievement of learning objectives through approaches that can support specific student needs (Theal and Franklin, 2010, p. 151).

Formative Assessments used in this unit:

Teacher observation

Performance assessment

Oral/Aural assessment

Games

Benchmark Assessments

Benchmark Assessments are given periodically (e.g., at the end of every quarter or as frequently as once per month) throughout a school year to establish baseline achievement data and measure progress toward a standard or set of academic standards and goals.

Schoolwide Benchmark assessments:

Aimsweb benchmarks 3X a year

Linkit Benchmarks 3X a year

Additional Benchmarks used in this unit:

Teacher made benchmark assessments.

Summative Assessments

Summative assessments evaluate student learning, knowledge, proficiency, or success at the conclusion of an instructional period, like a unit, course, or program. Summative assessments are almost always formally graded and often heavily weighted (though they do not need to be). Summative assessment can be used to great effect in conjunction and alignment with formative assessment, and instructors can consider a variety of ways to combine these approaches.

Summative assessments for this unit:

Teacher observation

Performance assessment

Oral/Aural assessment

Games

Instructional Materials

Big book/Share the music

Classroom pitched and unpitched instruments

Visual materials

Supplemental recordings

Standards

MU.K-2.1.3A.2.Cr1	Generating and conceptualizing ideas.
MU.K-2.1.3A.2.Cr3b	Convey expressive intent for a specific purpose by presenting a final version of musical ideas to peers or informal audience.
MU.K-2.1.3A.2.Pr5d	When analyzing selected music, read and perform rhythmic and melodic patterns using iconic or standard notation.
MU.K-2.1.3A.2.Pr6a	Perform music for a specific purpose with expression and technical accuracy.
