Jan. Music: Grade 1

Content Area: **Music**
Course(s):
Time Period: **January**
Length: **4-5 Weeks**
Status: **Published**

Unit Overview

Creating ★ Connecting ★ Performing ★ RespondingStu

dents will learn to respond to melodic contour.

Enduring Understandings

Music is composed of rhythms and melodic contour.

Essential Questions

How can we make music by understanding rhythm and melodic contours?

Instructional Strategies & Learning Activities

Objectives	Suggested Activities	Evaluations	Res
Respond to melodic contour, patterns and phrases	Continue aurally preparing the students for the concepts of ta, ti-ti, ta rest, ostinato, 2bt, barlines, and repeat signs	Teacher Observation	Big bo
Demonstrate rhythmic sensitivity to rhythm patterns	Create simple rhythm patterns	Performance Assessment	Instrum
Demonstrate rhythmic sensitivity to the beat, meter and duration	Begin visually preparing the students for the concepts of ostinato, 2 bt, barlines, repeat signs, ta, ti-ti and ta rest	Oral/Aural assessment	Piano

Recognize call and response patterns		Games	CD pla
	Use body movement, speech and singing		Listeni
			Chant a
	Begin physically preparing the students for the concept of La		
	Sing songs and play games using sol-la-sol-mi interval use hand movement to show melodic contour		

Integration of Career Exploration, Life Literacies and Key Skills

WRK.9.1.2.CAP	Career Awareness and Planning
WRK.9.1.2.CAP.1	Make a list of different types of jobs and describe the skills associated with each job.
TECH.9.4.2.CI	Creativity and Innovation
TECH.9.4.2.CI.1	Demonstrate openness to new ideas and perspectives (e.g., 1.1.2.CR1a, 2.1.2.EH.1, 6.1.2.CivicsCM.2).
TECH.9.4.2.CI.2	Demonstrate originality and inventiveness in work (e.g., 1.3A.2CR1a).
TECH.9.4.2.CT	Critical Thinking and Problem-solving
TECH.9.4.2.CT.3	Use a variety of types of thinking to solve problems (e.g., inductive, deductive).
	Different types of jobs require different knowledge and skills.

Technology and Design Integration

Students will engage in the lesson through the interactive Smartboard.

Technology Integration

TECH.8.1.2.A.CS1	Understand and use technology systems.
TECH.8.1.2.A.CS2	Select and use applications effectively and productively.

Interdisciplinary Connections

DA.K-2.1.1.2.Cr1a	Demonstrate movement in response to a variety of sensory stimuli (e.g., music, imagery, objects) and suggest additional sources for movement ideas.
DA.K-2.1.1.2.Pr4a	Perform planned and improvised movement sequences, with variations in direction (e.g., forward/backward, up/down, big/small, sideways, right/left, diagonal), spatial level (e.g., low, middle, high), and spatial pathways (e.g., straight, curved, circular, zigzag), alone and in small groups.
DA.K-2.1.1.2.Pr4b	Perform planned and improvised movement sequences, with variations in tempo, meter, and rhythm, alone and in small groups.

Differentiation

- Understand that gifted students, just like all students, come to school to learn and be challenged.
- Pre-assess your students. Find out their areas of strength as well as those areas you may need to address before students move on.
- Consider grouping gifted students together for at least part of the school day.
- Plan for differentiation. Consider pre-assessments, extension activities, and compacting the curriculum.
- Use phrases like "You've shown you don't need more practice" or "You need more practice" instead of words like "qualify" or "eligible" when referring to extension work.
- Encourage high-ability students to take on challenges. Because they're often used to getting good grades, gifted students may be risk averse.
- **Definitions of Differentiation Components**:
  - o Content – the specific information that is to be taught in the lesson/unit/course of instruction.
  - o Process – how the student will acquire the content information.
  - o Product – how the student will demonstrate understanding of the content.
  - o Learning Environment – the environment where learning is taking place including physical location and/or student grouping

Differentiation occurring in this unit:

Students will be offered support and challenges as determined by teacher evaluation.

Modifications & Accommodations

Refer to QSAC EXCEL SMALL SPED ACCOMMOCATIONS spreadsheet in this discipline.

Modifications and Accommodations used in this unit:

IEP and 504 accommodations as required.

Benchmark Assessments

Benchmark Assessments are given periodically (e.g., at the end of every quarter or as frequently as once per month) throughout a school year to establish baseline achievement data and measure progress toward a standard or set of academic standards and goals.

Schoolwide Benchmark assessments:

Aimsweb benchmarks 3X a year

Linkit Benchmarks 3X a year

Additional Benchmarks used in this unit:

 Teacher made benchmark assessments to assess growth over time.

Formative Assessments

Assessment allows both instructor and student to monitor progress towards achieving learning objectives, and can be approached in a variety of ways. **Formative assessment** refers to tools that identify misconceptions, struggles, and learning gaps along the way and assess how to close those gaps. It includes effective tools for helping to shape learning, and can even bolster students' abilities to take ownership of their learning when they understand that the goal is to improve learning, not apply final marks (Trumbull and Lash, 2013). It can include students assessing themselves, peers, or even the instructor, through writing, quizzes, conversation, and more. In short, formative assessment occurs throughout a class or course, and seeks to improve student achievement of learning objectives through approaches that can support specific student needs (Theal and Franklin, 2010, p. 151).

Formative Assessments used in this unit:

Teacher Observation

Performance Assessment

Oral/Aural assessment

Games

Summative Assessments

- **Summative assessments** evaluate student learning, knowledge, proficiency, or success at the conclusion of an instructional period, like a unit, course, or program. Summative assessments are almost always formally graded and often heavily weighted (though they do not need to be). Summative assessment can be used to great effect in conjunction and alignment with formative assessment, and instructors can consider a variety of ways to combine these approaches.

Summative assessments for this unit:

Teacher Observation

Performance Assessment

Oral/Aural assessment

Games

Instructional Materials

Big book/ Share the Music

Instruments

Piano

CD player

Listening examples

Chant and songs

Standards

MU.K-2.1.3A.2.Cr	Creating
MU.K-2.1.3A.2.Cr1a	Explore, create and improvise musical ideas using rhythmic and melodic patterns in various meters and tonalities.
MU.K-2.1.3A.2.Cr2a	Demonstrate and explain personal reasons for selecting patterns and ideas for music that represent expressive intent.
MU.K-2.1.3A.2.Pr5e	Demonstrate understanding of basic expressive qualities (e.g., dynamics, tempo) and how creators use them to convey expressive intent.
MU.K-2.1.3A.2.Cn10a	Demonstrate how interests, knowledge and skills relate to personal choices and intent when creating, performing and responding to music.
